OFFICIAL COMMUNICATIONS.

CONTRACTS WITHDRAWN.

BOSTON, January 3, 1920.

To the Mayor of Boston:

Your approval is requested to the withdrawal of the award of contract for sewerage works in Wade street, Brighton, approved December 23, 1919, for the reason that the canvas of bids included an incorrect amount for fixed prices, and your approval to the award of contract to the lowest bidder, John Guarino & Co., bid, \$3,945.70.

The following bids, which include the correct amount of fixed prices, were received December 8, 1919:

J. Guarino & Co., \$3,945.70; James Barletta, \$4,388; George J. Regan, \$4,739.50; D. Vozzella Company, \$4,968.50; V. Grande, \$5,504.50.

Respectfully yours,

T. F. SULLIVAN,

Commissioner of Public Works.

Approved, January 5, 1920.

ANDREW J. PETERS, Mayor.

COLLECTING DEPARTMENT.

BOSTON, December 29, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, Mr. John J. McCarthy to serve as Acting City Collector at such times as I may be absent during the four weeks commencing December 29, 1919.

Respectfully,

FRANK S. DELAND,
City Collector.

BUDGET TRANSFERS.

BOSTON, January 2, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—By vote of this Board your approval is respectfully asked for the following internal transfers in this department's appropriation:

From the appropriation for Personal Service, A-1, 1 Chief Engineer at \$3,000, \$300.23, to the appropriation for Personal Service, A-1, 1 Civil Engineer at \$2,000, \$300.23.

From the appropriation for Personal Service, A-1, 4 Transistmen at \$1,400, \$271.77, to the appropriation for Personal Service, A-1, 1 Transistman at \$1,800, \$271.77.

The reason for asking this transfer is to provide for payment of salaries for the above two new positions recently made, for which no money was provided in the budget, same now being transferred from balances left on the positions of chief engineer at \$3,000 (which has been

abolished) and four transistmen at \$1,400 (one of which has been abolished).

Very respectfully yours,

DANIEL J. BYRNE,
Secretary.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—In accordance with section 3 of chapter 486 of the Acts of 1909, I will, with your approval, make the transfers requested above.

J. ALFRED MITCHELL,
City Auditor.

Approved January 5, 1920.

ANDREW J. PETERS, Mayor.

BUDGET TRANSFERS.

BOSTON, December 31, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—The Boston Typotheta and Bookbinders' Unions of Greater Boston have agreed to an advance of \$4.50 per week to all journeymen bookbinders employed in the different union shops of Greater Boston to the existing scale wage of \$29 per week, the same to become effective January 4, 1920.

The following are entitled to this increase:

One cutter, \$29 to \$33.50, four weeks at \$4.50, \$18; one assistant cutter, \$29 to \$33.50, four weeks at \$4.50, \$18. Total, \$36.

In accordance with the above explanation I respectfully request a transfer from A-1, Permanent Employees, Cylinder Pressmen, to each of the specified items.

Respectfully yours,

CHARLES S. LAWLER,
Superintendent.

Approved January 2, 1920.

ANDREW J. PETERS, Mayor.

MATERIAL FURNISHED PUBLIC WORKS DEPARTMENT.

BOSTON, December 30, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—The Transit Department furnished the Bridge Division of the Public Works Department the following material from its stock on hand in connection with work on new floor beams for the Charlestown Bridge draw:

15 gallons gasoline at 25 cents per gallon,	\$3 75
877 pounds shop rivets and 298 field rivets at 3.2 cents per pound,.....	37 60
1,026 pounds bars and plates at 3.5 cents per pound,.....	35 91
476 pounds angles at 3.5 cents per pound,.....	16 66
95 feet templet stock at \$65 per thousand,	6 18
Total.....	\$100 10

Your approval is respectfully requested of the sale of this material to the Bridge Division of the Public Works Department.

Yours respectfully,
MALCOLM E. NICHOLS,
Chairman.

BUDGET TRANSFERS.

BOSTON, January 5, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I respectfully ask permission to make the following transfer of funds:

From the appropriation for B-3, Advertising and Posting, \$25.90; B-4, Transportation, \$14.96, to the appropriation for B-2, Postage, \$40.86.

From the appropriation for B-27, Testing Materials, \$90.36, to the appropriation for B-14, Motor Vehicle, \$90.36.

From the appropriation for B-27, Testing Materials, \$195.22, to the appropriation for C-14, Motor Vehicle, \$195.22.

From the appropriation for A-1, Personal Service, \$645.48, to the appropriation for D-1, Office Supplies, \$645.48.

The increase in postage is due to the fact that many new names have been added to the mailing list during the past year, and this has naturally increased the postage expenditures.

Regarding the transfers asked for in items B-14 and C-4 would say that more inspections of the different materials ordered through this department have been made during the past year than ever before, and this necessitated almost constant use of the department automobile and the added wear and tear on the machine and tires has resulted in the increased expenditure in these two items.

Regarding the transfer asked for in D-1, would say that it is due in a large measure to the fact that the cost of printing has advanced so rapidly that our original estimate has proved inadequate.

Respectfully yours,

FRANK S. DELAND,
Acting Superintendent of Supplies.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—In accordance with section 3 of chapter 486 of the Acts of 1909, I will, with your approval, make the transfers requested herein.

J. ALFRED MITCHELL,

City Auditor.

Approved January 6, 1920.

ANDREW J. PETERS, Mayor.

SALE OF CARS.

BOSTON, December 31, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—At a meeting of the Board of Schoolhouse Commissioners held on December 30, it was voted to sell Buick six-cylinder seven passenger car, No. 192,290 and Stearns-Knight eight-cylinder seven passenger car, No. 10,478.

The cost of operating these cars at the present time is so abnormal that the Board is of opinion that, in order to reduce the maintenance expenses of this department, they should be disposed of. The cost of new buildings and of alterations and repairs in the last few years has increased 200 per cent as against three years ago and this Board feels constrained under the said conditions, to make every honest effort possible towards strict economy in the conduct of the financial affairs of the department. We, therefore, request that your Honor authorize this Board to sell the automobiles herein named on the best terms and conditions possible for the City of Boston.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

Approved, January 2, 1920.

ANDREW J. PETERS, Mayor.

OFFICIAL COMMUNICATION.

CIRCULAR FROM THE MAYOR.

MAYOR'S OFFICE,
BOSTON, MASS., January 7, 1920.

To the Heads of Departments:

GENTLEMEN,—I desire to direct your attention to section 30 of the amended city charter which reads as follows:

"Every officer or board in charge of a department in said city, when authorized to erect a new building or to make structural changes in an existing building, shall make contracts therefor, not exceeding five, each contract to be subject to the approval of the mayor; and when about to do any work or to make any purchase, the estimated cost of which alone, or in conjunction with other similar work or purchase which might properly be included in the same contract, amounts to or exceeds one thousand dollars, shall, unless the Mayor gives written authority to do otherwise, invite proposals therefor by advertisement in the *City Record*. Such advertisement shall state the time and place for opening the proposals in answer to said advertisement, and shall reserve the right to the officer or board to reject any or all proposals. No authority to dispense with advertising shall be given by the Mayor unless the said officer or board furnishes him with a signed statement which shall be published in the *City Record* giving in detail the reasons for not inviting bids by advertisement."

I herewith notify you that any infraction of the requirements noted in the above section 30 of the amended city charter, will be dealt with summarily.

Very truly yours,
ANDREW J. PETERS, Mayor.

PORT OF BOSTON.

Best of natural harbors, sheltered, spacious or anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (i. e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to state, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to state, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing state \$764,600 for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed this year, 1,200 feet long and 120 wide, costing over \$3,000,000 and to be taken by United States Government at total cost of same to state. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the city. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor line was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under state control.

In April, 1918, the government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the state, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant is about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1916, \$12,269,996; total expended and provided for by state, \$15,000,000 approximately.

VOTE FOR PRESIDENT, 1916.

Total, 95,290, or 81.15 per cent of registered voters. For Wilson, 56,053; Hughes, 37,092; all others, 2,145. Wilson's majority over all, 16,816; in 1912 his total was 2,138 short of a majority. Wilson's gain over 1912, 12,990, or 30.16 per cent. This gain was equal to 60.3 per cent of Roosevelt's vote in 1912.

Wilson's plurality over Hughes in the 48 states, 582,210, or 277 electoral votes to Hughes' 254; 30 states for Wilson, 18 for Hughes.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

MUNICIPAL CALENDAR.

OFFICIAL COMMUNICATIONS.

MAYOR'S CIRCULAR.

MAYOR'S OFFICE,
BOSTON, December 23, 1919.

To the Heads of Departments:

GENTLEMEN,—You are herewith directed to grant, without loss of pay, leave of absence to employees in your department who are regularly elected delegates to the Convention of the American Legion to be held on January 3, 1920.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

TREASURY DEPARTMENT.

BOSTON, December 27, 1919.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22 of the Revised Ordinances of 1914, Mr. Thomas J. O'Daly to act as Acting City Treasurer at such times as I may be absent during the four weeks commencing December 26, 1919.

Respectfully,

THOMAS W. MURRAY,
City Treasurer.

REPORT ON REORGANIZATION OF SUPPLY DEPARTMENT.

BOSTON, December 29, 1919.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Replying to your letter of November 24, 1919, requesting that we make an examination of the Supply Department of the City of Boston, we have to report as follows:

A more complete record of contracts, orders and invoices should be kept. The bid list file should be periodically checked to make sure that the Supply Depart-

ment is dealing at all times with the best available sources of supply.

We believe that a considerable saving can be effected by combining the requirements of all city departments for such material as they use in common, and by placing orders or contracts for such materials at such times during the year as the Superintendent of Supplies may feel that minimum prices prevail. By so doing a uniform quality of materials can be obtained and prices will be consistent with the larger quantities purchased and the low markets.

Materials should be purchased in so far as possible on a specification basis, all materials to be subject to sample and inspection. Suitable records of service and durability should be maintained to serve as a basis for future purchases.

We have looked into the question of establishing a city laboratory, and believe this would be an undesirable outlay. The amount of work to be done would be so small that the employees could not be kept continuously busy, and we believe that the annual expense of testing would be much less if the work were done by commercial laboratories. More space is needed by the Supply Department, to enable them to properly do their work and take care of their records.

A man should be placed in charge of the department at a salary of, say, \$6,000, who has had experience in purchasing and who has knowledge of specifications and of the concerns from which to make inquiries.

We strongly recommend the establishment of a general stores department, with a general storekeeper reporting either to the Supply Department or direct to the Mayor. The general storehouse should be located at the most convenient place in the city proper, probably Albany street, with substores in one or more of the outlying districts.

We recommend that a moderate reserve of bituminous and anthracite coal be kept to provide against cases of extreme emergency.

An inventory should be taken at once of all materials and supplies now on hand in the various departments and yards and the departments relieved of any surplus of such materials and supplies they may be carrying, by the general storekeeper taking over and allowing credit for such surplus. The general storekeeper should be held responsible to the auditor for the proper accounting for all material and supplies, and his accounts and stocks should be subject to check and inspection of the Auditing Department.

The inspector and weigher of coal and the inspector and weigher of hay and grain should be transferred from the Supply Department to the general stores department, where they can give greater service than in their present position.

All second-hand material, as soon as released, and unused material left over from completed work, should be taken back by the stores department for use again, or disposal by sale or otherwise, credit being given to the account originally charged.

An inventory should be taken at least once a year and in time to arrange adjustments of overages or shortages before the close of each fiscal year. The accounting and other details covering operation of stores department are very nearly standard and entail relatively small additional expense.

The general stores department probably could be organized at relatively small expense outside of the general storekeeper's salary of, say, \$3,000 per annum.

SYSTEMS.

The systems employed in the Supply Department are those usually found in most offices of the kind, but the present force is inadequate to keep the records up to date. An organization should be effected which would give the chief clerk an opportunity to act as assistant to the superintendent and to have actual control of the discipline of the office. Two high grade additional clerks would probably enable him to keep the work and records up to date.

Arrangements should be made to take advantage of discounts allowed by merchants for prompt payment of invoices; this would probably amount to several thousand dollars each year.

REQUISITIONS.

Requisitions by the several departments are signed by the chief clerk, personally, or in his name by one of his subordinates and occasionally by the head of the department. In some cases signatures and initials are written with the typewriter or rubber stamp. Requisitions are in duplicate (book form), the original being forwarded to the Superintendent of Supplies, and duplicate and book retained by the department ordering. Each department has separately numbered sets of requisitions (color scheme), and the Superintendent of Supplies uses for his orders the same separate sets of numbers. A carbon copy of the order is retained by the Superintendent of Supplies and no other record is kept of it.

We recommend that requisition forms be one series of number and one color, and that they be furnished by the Supply Department. Record of such deliveries should be kept by dates and numbers, order numbers should be noted on all requisitions, which should then be filed numerically for each department separately. The Superintendent of Supplies should be furnished by the several heads of departments with lists showing the names and signatures of all persons authorized to order materials and supplies, and instructions given that requisitions received without such signatures will not be accepted.

ORDERS AND INVOICES.

The Superintendent of Supplies now writes orders in duplicate, one copy going to the merchant and the other to his own files. We recommend that an additional copy be made and forwarded at once to the department making the requisition. We recommend that invoices for material be made in triplicate, the merchant to forward the third copy to the person to whom the material is shipped. This party will certify on the triplicate invoice that the supplies have been received and that quantities, quality and weights are correct and then forward to the head of his department, who will then be able to approve for payment. When certified for payment the original invoice can go to the Auditor in the regular way. The duplicate invoice will not leave the office of the Superintendent of Supplies, but will become a permanent record in that office. A loose-leaf record of invoices and loose-leaf record of orders should be kept and indexed by the company names.

A price list card is very necessary to the work in the office and should be kept up to date at all times. Contracts are filed alphabetically and we recommend that these be kept in a locked fireproof file, properly indexed.

If there is any further information or help we can give you, please do not hesitate to call on us.

Yours very truly,
STONE & WEBSTER

ABANDONMENT OF HOUSE OF CORRECTION.

MAYOR'S OFFICE,
BOSTON, December 30, 1919.

HON. CALVIN COOLIDGE,
Governor of the Commonwealth, State House, Boston, Mass.:

DEAR SIR,—Some time ago I requested the Boston Finance Commission to make a survey of the city departments and report to me ways and means of reducing municipal expenses.

Under date of September 6, 1919, I received a communication from the Finance Commission recommending the abandonment of the House of Correction at Deer Island, and suggesting the removal of its inmates to state institutions.

I learn from the County Controller's office that the counties of the Commonwealth during the fiscal year ending September 30, 1919, expended \$1,025,564.23 in care of adult offenders in their jails and houses of correction; that the population of the county penal institutions during this period was extremely low and the per capita cost proportionately high. I also learn from the report of the Bureau of Prisons that the number of male offenders now confined in the state penal institutions is likewise very small.

I feel, in view of the fact that the state institutions must be continued, and that within the past six months two of the county penal institutions have been closed, because of dearth of inmates, a great economy can be effected and the burden of taxation, now resting so heavily on the people of the Commonwealth, lightened, should the state take over the control of all adult offenders.

I suggest that the delays incidental to a special legislative committee's consideration of this problem be obviated by your Excellency calling together the County Commissioners from the several counties; a discussion of the problem by you with them, and the creation of a committee composed of two members from among the County Commissioners, two selected by you to represent the Commonwealth, and a fifth to be selected by the other four, which committee should make a study of the problem and report to you before April 1, so that you may use their report as you see fit as a message to the Legislature, with the end in view of securing speedy action.

I am most anxious to save the city the tremendous cost which it is now under in caring for offenders, and I believe that the care of these offenders may be taken over by the state with little, if any, additional expense.

Very truly yours,
ANDREW J. PETERS, Mayor.

SUFFOLK SCHOOL FOR BOYS

MAYOR'S OFFICE,
BOSTON, December 30, 1919.

MR. CARL DREYFUS, *Chairman Board of Trustees, Massachusetts Training Schools, State House, Boston, Mass.:*

DEAR SIR,—I have within the past few days decided not to approve of the contract for the construction of the Administration Building and Dormitory for the Suffolk School for Boys at Rainsford

Island, and I have decided that the city should no longer continue to care for the juvenile delinquent.

I am therefore asking the courts that no further commitments be made to the Suffolk School, and assume that hereafter commitments of juvenile offenders from Suffolk County will be made to the training schools under your control.

I am writing to acquaint you with conditions in order that you may prepare for a slight increase in commitments from Suffolk County. At present there are 140 boys at the Suffolk School. I hope that within a year the population will be entirely depleted through parole, and the fact that no new commitments will be made.

Very truly yours,
ANDREW J. PETERS, Mayor.

AUDITING DEPARTMENT.

BOSTON, December 31, 1919.

HON. ANDREW J. PETERS,

Respectfully,
J. ALFRED MITCHELL,
City Auditor.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments for terms ending April 30, 1920, viz.:

(1) Philip Sheridan Corbett, 1051 Blue Hill avenue, Dorchester, to be a Constable of the City of Boston.

(2) Walter J. Macauley, 66 Brooks street, Brighton; John B. Neeley, 444 West Fourth street, South Boston, to be Weighers of Goods.

Severally laid over under the law.

NAMES ELIGIBLE FOR SQUARES.

The following was received:

City of Boston,

Office of the Mayor, December 23, 1919.

To the City Council:

Gentlemen,—I have received the order passed on December 18 by the City Council, requesting the Mayor to furnish the City Council with "A list of the proposed names of squares which have been already approved by the committee" appointed by the Mayor, together with a list of the names which are still under consideration and those which have been definitely rejected. I appointed the committee not to approve proposed names of squares, but to make a survey of the names of the Boston men who died in the service and from these to recommend for special consideration the names of those men whose war records merit such consideration.

To recapitulate, it is the function of the committee only to indicate those men whose services were exceptionally brave. To date, the committee has submitted the following names as classifying, as indicated above:

William Bennett	Joseph W. McConnell.
Maurice Burns.	Michael J. Perkins.
Ernest J. Carraher.	Thomas V. Murray.
Frank W. Chappie.	Herbert J. Nolan.
Maurice J. Costigan.	Martin J. O'Connell.
George Dilboy.	Aaron J. Oppenheim.
Eugene B. Galligan.	Michael J. Perkins.
Grant G. Gately.	Edward H. Perry.
David Hoffman.	Norman Prince.
Ralph L. Carbonara.	Thomas J. Roberts.
Frederick M. Linton.	George J. Spinney.
John F. McDonough.	William B. Turner.
	Lawrence Barrett Williams.

Respectfully,

ANDREW J. PETERS, Mayor.

Referred to the Committee on Public Lands.

VETO—SALARIES OF ROXBURY COURT OFFICERS.

The following was received:

City of Boston,

Office of the Mayor, December 10, 1919.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council passed on December 8 accepting chapter 184 of the General Acts of 1919 entitled "An Act to Establish the Salaries of the Court Officers of the Municipal Court of the Roxbury District of the City of Boston."

The City Council passed a similar order to accept this act on June 23, and I vetoed it on July 2. I do not find that conditions have changed since that time, and I therefore am vetoing the order of December 8 on the same grounds as I vetoed the order of June 23.

Respectfully,

ANDREW J. PETERS, Mayor.

Placed on file.

SALE OF CITY LAND, ROXBURY.

The following was received:

City of Boston,

Office of the Mayor, December 22, 1919.

To the City Council:

Gentlemen,—I have been notified by the Board of Park and Recreation Commissioners that a parcel of vacant land situated on Massachusetts avenue and Shirley street, containing 50,000 square feet, more or less, and used by the department for storage purposes, is no longer required for public purposes and I have secured through a broker, William J. Tyler, an advantageous offer from Ernest J. Babcock for this lot in the sum of \$38,000, plus the broker's commission at the customary rate established by the Boston Real Estate Exchange for sales in this district.

I therefore recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

Ordered, That upon the payment of the sum of \$38,000 to the City of Boston and of a broker's

commission to William J. Tyler at the rate established by the Boston Real Estate Exchange, his Honor the Mayor be and he is hereby authorized in the name and behalf of the city and in a manner satisfactory to the Law Department to convey to Ernest J. Babcock a parcel of land situated in that part of Boston formerly Roxbury, and bounded as follows: Beginning at the northerly corner of the lot of land at the junction of Massachusetts avenue and Shirley street; thence running southwesterly 353.31 feet on Shirley street; thence northwesterly 58.87 feet on Shirley street; thence southwesterly 14.80 feet on other land of the city; thence southeasterly 196.96 feet and 15.66 feet on Sherwood street and other land of said Babcock to land of the New York, New Haven & Hartford Railroad Company; thence northeasterly on land of said railroad 295.62 feet to Massachusetts avenue; thence northwesterly on Massachusetts avenue 164.01 feet to the point of beginning; containing 50,000 square feet more or less.

Referred to the Committee on Public Lands

SITES FOR MUNICIPAL BUILDING, EAST BOSTON.

The following was received:

City of Boston,

Office of the Mayor, December 23, 1919.

To the City Council:

Gentlemen,—I am herewith transmitting a report of the City Planning Board prepared in accordance with the request of the City Council that the Board make a study of possible sites in East Boston for a municipal building.

Respectfully,

ANDREW J. PETERS, Mayor.

City Planning Board,

Boston, December 15, 1919.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—The City Planning Board submits herewith its conclusions with regard to a municipal building in East Boston, as requested in the following order passed by the City Council at its meeting November 17, 1919:

Ordered, That the City Planning Board be requested, through his Honor the Mayor, to make a study of the possible sites in East Boston for a municipal building, and report to the City Council, with such recommendations as to the character of the building and its location as they may consider advisable.

This request on the part of the City Council is in effect a duplicate of a previous order, passed under date of July 21, 1919, as follows:

Ordered, That the City Planning Board be requested, through his Honor the Mayor, to furnish the City Council a statement of the available sites for a municipal building in East Boston.

Upon receipt of the original request, investigations were started along various lines. A personal letter was addressed to the senator from the district, to each representative, and to the secretary of the East Boston Improvement Association, to the effect that such an investigation was under way, and inviting suggestions, or an expression of opinion from them or from any other interested citizen of the district. A similar letter was addressed to the East Boston papers, asking that they give the matter proper publicity, and extend to individuals and organizations generally throughout the district an invitation, on behalf of this Board, to submit their opinions or suggestions in the premises.

As a result of the above solicitation, only one reply was received, which fact might be interpreted as indicating a lack of local interest in the project.

The functions of a municipal building would seem to be identical with those of the old fashioned "Town Hall," a convenient place for public gatherings, library accommodations and, in the modern buildings, gymnasium equipment, shower baths and swimming pool. The necessity for a municipal building in a locality, therefore, would appear to be enhanced or lessened in proportion as these facilities are afforded, in whole or in part, by agencies already existing.

So far as public gatherings in East Boston are concerned, the Board is informed by the School Committee that the East Boston High School, and each of the main buildings of the elementary school districts in East Boston, seven in number, has an assembly hall. These halls are available for the use of the public, at such times as they are not being utilized for regular school work, by the payment of a small fee designed to cover the cost to the city for light, heat and janitor service. From September, 1918, to June, 1919, seventeen permits were issued for the use of these various halls for purposes other than the regular school work. Of this number, more than half were for the use of Parent-Teachers' Association meetings, which might be considered as affiliated with the regular school work. The limited number of requests to occupy the assembly halls of these school buildings may be due in part to the fact that they are in use on certain evenings each week for evening schools and school centers, and further, in certain cases, to the inconvenience of assembling an audience in a hall obstructed with more or less classroom furniture. Usually there are a number of political rallies held in school

buildings in the district, but apparently no such permits were applied for or issued during the period specified.

The movement in favor of a wider use of school buildings is growing steadily throughout the country. This is particularly true so far as their use for voting purposes is concerned. While Worcester was the first city to adopt the practice, it was rapidly followed by Los Angeles, Grand Rapids, Milwaukee, Madison, Salt Lake City, New York, Chicago, San Francisco and Denver. The main reason advanced for this custom is that it is educational; that it establishes the schoolhouse as the capitol of the neighborhood,—the common meeting place of the people. This practice is also followed in Boston to a considerable extent, and is indicative of the general trend toward the utilization of schoolhouses as public meeting places. The use of schoolhouses by the various exemption boards, for registration and other purposes, is another indication of their availability for public use. This possibility should be encouraged and developed to the fullest extent, in so far as may be consistent with the regular school work. No invasion of this work should be permitted under any circumstances.

A library building for the East Boston district, located on Meridian street, was opened to the public in 1914. This was erected at a cost of \$93,800 and houses nearly 18,000 volumes. There is in the building a lecture hall, capable of seating over 300 persons and equipped with stereoptical, reflectoscope and aluminum curtain. This hall is available for civic purposes, other than political meetings, during the time the branch is open (9 a. m. to 9 p. m.), providing no admission is charged. It has been used to a limited extent for public lectures, Boy Scout work and by the Massachusetts State Board of Education. During the war the room was used solely by the Exemption Board. There is also a reading room in Orient Heights, 1030 Bennington street, which houses over 2,000 volumes. With these facilities the library needs of the district would seem to be fairly well met.

The Paris Street Gymnasium, now in its twenty-second year, was the first free public gymnasium in this country, being opened to the public in 1897. In 1910 the old building was razed, and a new, modern building erected which the Park and Recreation Department, in its 1917 report, stated to be nearer the ideal for a gymnasium and bath house than any building then under the control of the department. The report further stated that it had excellent equipment, more shower baths, the largest floor space, and the largest and best running track of any of their gymnasia, and from the viewpoint of efficiency and economy ranks first. The equipment consists of seventy-four shower baths, indoor gymnasium and basket ball courts. During the war it was leased to the United States Army for troops engaged in patrolling and caring for warves and public buildings in East Boston, but it has now been returned to the custody of the Park and Recreation Department, and any damage which has been sustained in the meantime will be fully repaired.

The City Planning Board, in 1915, made a comprehensive study of the East Boston district, and at that time reported that:

"Excellent establishments are maintained in East Boston for bathing; one for all the year at the bath and gymnasium building on Paris street, and three for salt water bathing in summer in Wood Island Park and in each of the floating baths at Border street and Jeffries Point. Permanent bathing beaches or pools should and no doubt will in time take the place of the floating baths."

Wood Island Park, which represents an investment on the part of the city of over \$400,000, combines nearly every form of recreational activity, including outdoor gymnasium, shower baths and beach bathing. A comprehensive plan for its revision and extension toward Revere and Winthrop and toward the city proper was discussed in detail in the East Boston report referred to above.

At no time during the investigation of conditions in the East Boston district, which was conducted by this Board, covering as it did a period of twelve months, was there manifest any necessity, or even actual desirability, for a municipal building in East Boston since the functions usually performed by such a building, i. e., library, halls, gymnasium, shower baths and bathing facilities, are all available through other channels. There is no doubt that a modern, attractive public building, conveniently located and well equipped, is an asset to any community, but the Board questions seriously the necessity for such a building in East Boston at the present time. Other features equally desirable and even more necessary to the welfare of the district are lacking and in the opinion of this Board should be given precedent. Three important features were emphasized in the report referred to above, i. e.:

First.—Ample railroad and thoroughfare approaches to the property from all directions must be provided.

Second.—The vital interests in Wood Island Park as the one large area for the health, recreation and pleasure of the people should be safeguarded either by preservation of the area and the character of the present park, or, better, by revision and extension in a way to produce an equally good or better public utility properly adapted to the necessarily changed conditions; and

Third.—The advanced planning for urban conditions upon the areas, now vacant, that will not be required for commercial or industrial purposes.

It is still the opinion of this Board that development along these lines, particularly so far as ferry service, supplemented by direct highway connec-

tion with the city proper, should be given precedent over any plans for the erection of a municipal building in East Boston.

Respectfully submitted,
THE CITY PLANNING BOARD,
by R. A. CRAM, Chairman.

Placed on file.

CIVIL SERVICE RATING, D. D. DRISCOLL.

The following was received:

City of Boston,
Office of the Mayor, December 29, 1919.

To the City Council:

Gentlemen,—Dennis D. Driscoll was employed as deputy commissioner in the Penal Institutions Department from July 7, 1910, to March 13, 1915, when because of a change in administration he was dropped from the department.

Although the present Commissioner of the Penal Institutions Department does not need his services at the present time, it is desirable that Mr. Driscoll be permitted to retain his civil service rating. I am attaching a copy of a Special Act passed by the Legislature in 1919, making it possible to reinstate Mr. Driscoll. You will note, however, that this act must be accepted before the thirty-first day of this month. I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That chapter 167 of the Special Acts of 1919, entitled "An Act Relative to the Reinstatement of Dennis D. Driscoll as deputy commissioner of the Penal Institutions Department of the City of Boston," be and the same hereby is accepted.

Referred to the Executive Committee.

SEA WALL, CITY HOSPITAL PROPERTY.

The following was received:

City of Boston,
Office of the Mayor, December 29, 1919.

To the City Council:

Gentlemen,—I am herewith attaching a communication just received from the Commissioner of Public Works, relative to an additional appropriation of \$40,000, for work in connection with the dredging of the Roxbury canal and the erection of a certain sea wall.

The additional amount mentioned is needed for the construction of a sea wall on the City Hospital property. This work was not provided for in the original appropriation of \$300,000. I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the additional sum of \$40,000 be appropriated, to be expended by the Commissioner of Public Works, for sea wall, etc., Roxbury canal, and that to meet said appropriation the City Treasurer be hereby authorized, from time to time, to issue, on request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

PETITIONS REFERRED.

The following petitions were received and referred to the committee named, viz.:

Notice was received from the Mayor of the appointment of John F. Stevens as member of the Board of Appeal, a notice of the same having been sent to the Civil Service Commission.

Notice was received from the Mayor of the appointment of Malcolm E. Nichols as chairman of the Transit Department, a notice of the same having been sent to the Civil Service Commission. Placed on file.

NOTICE OF RESIGNATION.

Notice was received from the Mayor of his acceptance of the resignation of Malcolm E. Nichols as Schoolhouse Commissioner. Placed on file.

RECESS TAKEN.

The Council voted at 2.48 p. m., on motion of Coun. COLLINS, to take a recess, subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 5.53 p. m.

CONFIRMATION OF APPOINTMENTS.

President FORD called up Nos. 1, 2, 3 and 4, unfinished business, viz.:

Action on appointments submitted by the Mayor, December 18, 1919, viz.:

1. Aldred Winchester Readmon, to be a Constable.

2. Thomas J. Francis, to be a Constable.

3. Thomas Cannizzaro, to be a Constable.

4. Katharine M. Gordon, Joseph A. Tighe, George S. Mullen, James T. Tighe and Fred R. Gardner, to be Weighers of Coal.

The question came on confirmation. Committee—Coun. Moriarty and Lane. Whole number of ballots cast 9, yeas 9, and the appointments were confirmed.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Report on message of Mayor and order (referred today) relative to acceptance of act enabling D. D. Driscoll to retain his civil service rating—that the order ought to pass.

Report accepted; order passed.

RESOLUTION CONCERNING WOODRUFF CHARGES.

Coun. MORIARTY offered the following:

Resolved, by the City Council of Boston, after listening to Mr. Frederick O. Woodruff for more than two hours and endeavoring in vain to obtain from him any relevant facts, that, in their opinion, the statement attacking the city departments published in the daily newspapers by said Woodruff, ostensibly representing the Massachusetts Real Estate Exchange, was entirely unsupported by any evidence, and is unworthy of serious attention from the city government or the citizens. Passed, yeas 9.

PUBLIC LANDS.

Coun. McLAUGHLIN, for the Committee on Public Lands, submitted a report on message of Mayor, communication and preambles and order (referred December 8), authorizing exchange of land at Columbus Avenue Playground—that the preambles and order ought to pass.

The report was accepted, and the preambles and order were given their first reading and passed, yeas 9.

The preambles and order will take their final reading not less than fourteen days from date.

PARKMAN FUND.

Coun. MORIARTY, for the Committee on Parkman Fund, submitted a report on message of Mayor, communications and order (referred December 18) appropriating \$89,554.16 for various Parkman Fund improvements—that the order ought to pass. Report accepted; order passed, yeas 9.

INVESTIGATION OF POLICE STATIONS.

President FORD announced as the Committee on Investigation of Police Stations, Coun. Hagan, Moriarty, McDonald, Donoghue, McLaughlin.

GENERAL RECONSIDERATION.

Coun. McLAUGHLIN moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 6.02, on motion of Coun. DONOGHUE, to meet on Monday, January 5, at 2 p. m.

SUPPLY DEPARTMENT.

On January 6 to bidder indicated in following communication and schedule of bids for supplying lead pipe and pig lead to Water Division:

BOSTON, January 3, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids on lead pipe and pig lead to be delivered to the Water Division, Public Works Department, opened at this office under date of December 29, 1919. The only bidder for this material was the Chadwick-Boston Lead Company.

There was another bid received from the Tenney-Morse Company after twelve o'clock noon on the day the bids were opened, copy of which appears in the attached list of bids, but as this bid was not received in time same is irregular.

I respectfully recommend that this contract be awarded to the Chadwick-Boston Lead Company, the only bidder.

Respectfully yours,

FRANK S. DELAND,

Acting Superintendent of Supplies.

Bids on lead pipe and pig lead, opened December 29, 1919:

6,000 Pounds Lead Pipe, 5/8-inch.—Chadwick-Boston Lead Company, \$9.36 per hundredweight; Tenney-Morse Company, \$9.42 per hundredweight.

On January 6 to the New Hartford Manufacturing Company, as per following communication and bid, for supplying 50,000 yards of gauze:

BOSTON, January 3, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find copy of bid received by this department for

50,000 yards of bleached absorbent gauze, to be delivered to the Boston City Hospital.

The only bidder for this material was the New Hartford Cotton Manufacturing Company at four dollars eighty-five cents (\$4.85) per hundred yards. We also received in the afternoon, after these bids had been opened and read at 12 o'clock noon, a bid from the Lewis Manufacturing Company at five dollars thirty-two and one-half cents (\$5.32½) per hundred yards.

I respectfully recommend that this contract be awarded to the New Hartford Cotton Manufacturing Company, the only bidder.

Respectfully yours,
FRANK S. DELAND,
Acting Superintendent of Supplies.

Bids on 50,000 yards of bleached absorbent gauze, opened December 29, 1919: New Hartford Cotton Manufacturing Company, \$4.85 per hundred yards (freight and cartage allowed on express shipments); Lewis Manufacturing Company, \$5.32½ per hundred yards. (Irregular, received after 12 m.)

On January 8 to bidders indicated in the following communication and schedule of bids for hay, grain and straw during month of January, 1920:

BOSTON, January 5, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids received on proposals for furnishing hay, grain and straw to the various city departments for the month of January, 1920. I respectfully recommend that the contracts be awarded to the lowest bidders in each department with the following explanations:

In the Charlestown district the amount of hay used is approximately twenty-six tons and the amount of straw is two tons. In view of the stipulation made by the Whittemore Company, shown on the attached list of bids, I respectfully recommend that the contract for hay and straw be awarded to Hosmer, Robinson Company as the saving on the hay will more than offset the difference in the price of the straw.

In the city proper district the amount of hay used will amount to approximately ninety tons and the amount of straw to twenty-five tons. In view of the stipulation made by the Whittemore Company I respectfully recommend that the contract for hay and straw in this district be awarded to Hosmer, Robinson Company as the saving on the hay will offset the difference in the price of the straw.

In the Roxbury district the amount of hay used will amount to approximately thirty tons, straw five tons, oats 2,500 bushels, and shorts one ton. In view of the stipulation made by Landy Brothers, which appears on the attached sheet, I respectfully recommend that the contract for hay, grain and straw in this district be awarded to Landy Brothers as the saving on the hay will more than offset the difference in the price of the straw, and also the saving on the oats will offset the difference in the price of the shorts.

In the Dorchester district the quantity of hay used will amount to about thirteen tons and the amount of straw one ton. I respectfully recommend that the contract for hay and straw be awarded to Landy Brothers as the saving on the hay will more than offset the difference in the price of the straw.

In the Brighton district the quantity of

hay used will amount to about five tons, straw one half ton, oats 140 bushels and shorts 200 pounds. I respectfully recommend that the contract for furnishing hay, grain and straw in this district be awarded to Ogden & Thompson as the saving shown in the price of the hay will more than offset the difference shown in the price of straw, and the saving on the oats

will offset the difference in the price of the shorts. There will be no corn used in this district.

Respectfully yours,
FRANK S. DELAND,
Acting Superintendent of Supplies.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PARK AND RECREATION DEPARTMENT.

On January 2 to the Boston Buick Company as per following communication:

Boston, December 30, 1919.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—By vote of this Board, your permission is respectfully asked to authorize the purchase, without advertising, of a Buick touring car, listed at \$1,660, from the Boston Buick Company for the sum of \$1,010 and two Stearns-Knight cars, one six-cylinder, purchased in August, 1915, for \$2,600, which is a very expensive car to run, both on account of the excessive cost of tires and gasoline used.

The other Stearns-Knight, four-cylinder car, purchased in June, 1917, for the Public Safety Committee, at a cost of \$925, which is very much worn and continually in need of repairs, for which an allowance is being made of \$650 for these two cars.

Both of the above cars were second-hand cars when purchased, and the amount allowed in trade is liberal. Furthermore, on account of the excessive amount of the bills for repairs made last year it is quite certain that the amount of money that would be expended on these cars during the coming year for repairs would offset the \$1,010 which is required for the purchase of a new car.

In addition, there is great danger from injury to any person riding in these cars, as the rear wheel of the six-cylinder car has several times come off when carrying employees of the department.

Very respectfully yours,
JAMES B. SHEA,
Chairman.

Approved January 2, 1920.

ANDREW J. PETERS, Mayor.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

FIRE DEPARTMENT.

An addition, amounting to \$192, on contract with Joseph Meltzer & Co., dated October 20, 1919, "Fire Station, Harrison Avenue and Wareham Street," as per following communication:

CITY OF BOSTON,
HEADQUARTERS FIRE DEPARTMENT,
December 24, 1919.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I would request your Honor's approval of the following extra work done in connection with the fire station at Harrison Avenue and Wareham Street, for which a contract amounting to \$8,442 was made with Joseph Meltzer & Co. to complete alterations and additions:

No. 3. For building a driveway from street, across sidewalk and into building, \$132. This work was not included in the original contract as the work can only be done by men having a bond to do sidewalk work. All the bidders for the original work did not have such bonds. However, Joseph Meltzer & Co. did have such a bond.

No. 4. For rebuilding pier and portion of wall, \$60. In cutting door to boiler room in rear brick wall the wall was found in such poor condition as to necessitate the rebuilding of a pier and portion of wall.

Yours very truly,
JOHN R. MURPHY,
Fire Commissioner.

Original contract, \$8,442; total additions, \$567; contract outstanding, \$9,009.

PENAL INSTITUTIONS DEPARTMENT.

An addition, amounting to \$95, on contract with George A. Craffey, dated October 22, 1919, viz., to lay a new ceiling instead of repairing old one, as called for in Item 7 under the contract with City of Boston, dated October 22, 1919, and the amount of \$95, which includes 15 per cent profit, will be added therefor, making the account read as follows: Contract price, \$2,644; total addition, \$95; amount of contract, \$2,739.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$175, on contract with Warren Brothers Company for bitulithic pavement in Cambridge street, from Brighton Avenue to Henshaw street, Brighton, on account of hauling edgestone to and grading sidewalk in front of Brighton High School on Warren street, and furnishing and laying concrete base at entrance to St. Joseph's Academy. Original contract, \$62,563.30; total additions, \$2,775; contract as standing, \$65,338.30.

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$50, on contract with John Guarino & Co., for laying and relaying water pipes in Centre street, Forbes street, Greenview Avenue, Landseer, Myrtle, Walter streets, Warren square, Wedgemere road, Wright road, Wachusett street, West Roxbury, and Wade street, Brighton, on account of furnishing extra labor and materials; relocating catch-basin drain and house drains; cutting through old vault walls and locating old service pipe tubes. Original contract, \$5,422.50; total additions, \$50; total deduction, \$450; contract as standing, \$5,022.50.

An addition, amounting to \$121.10, on contract with V. Grande for laying and relaying water pipes in Arch street, city proper; A street, South Boston, and Main street, Charlestown, and Waldemar Avenue, East Boston, on account of cutting out manhole; shoring-up conduit; replacing catch-basin drain, etc., in Arch street; replacing catch-basin drain in A street and hauling and handling pipe in Main street from and to Water Division Yard, 710 Albany street. Original contract, \$3,561.50; total addition, \$121.10; contract as standing, \$3,682.60.

Ordered, That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works the lands, rights and easements hereinafter described. Said lands are shown on a plan marked "City of Boston, Plan No. 377, Sewerage Works, Rutledge Road, Hyde Park, December 22, 1919, F. O. Whitney, Chief Engineer, Street Laying-Out Department," deposited in the office of the Public Works Department of said city, and said lands, rights and easements and said works to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; said lands are in that part of Boston formerly Hyde Park, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Rutledge road, bounded: Southwest by easement taken for sewerage purposes by the City of Boston July 27, 1914, 6 feet; northwest by another part of Rutledge road, 17 feet; northeast by land hereinafter described as taken from Thomas H. Lyons, 6 feet; and southeast by another part of Rutledge road, 17 feet; containing 102 square feet, more or less.

MASSACHUSETTS CIVIL SERVICE

The Massachusetts Civil Service Commission will hold examinations for clerical service on January 31 and February 14, 1920.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service.

On January 31 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day.

Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in book-keeping, stenography, typewriting, cataloging, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications.

Persons who take the examination for Grades II, III or IV may also have their papers marked for Grade I.

Persons qualifying in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

The clerical service, including clerks, office assistants, executive assistants, senior clerks, assistant secretaries, chief clerks, secretaries, copyists, recorders, messengers and office boys and girls, is graded as follows:

Grade I.—Junior clerk, junior messenger, office boy, including persons performing under supervision the simplest kind of office work. The subjects of examination with their respective weights are as

follows: Spelling (15 words) (1); penmanship (1); accuracy (1); report or letter writing (1); and five examples in arithmetic (1); total (5). A general average of 65 per cent is required. Persons who take the examination for this grade may also at the same time take the examination for Grades II, III and IV, and if they obtain the required percentage may have their names placed on the eligible lists for those grades.

It shall be *prima facie* evidence that a position is in Grade I if the salary is not more than \$540 a year.

Grade II.—Subjects of examination with their respective weights are as follows: Spelling (25 words) (2); letter writing (2); penmanship (2); accuracy in copying printed matter (1); transcribing rough draft (1); rapid computation (addition, subtraction, multiplication, decimals and simple percentage) (1); arithmetic (nine problems including simple interest) (1); total (10). Applicants are required to obtain at least 65 per cent in penmanship, at least 50 per cent in each of the other subjects, and a general average of 70 per cent on the whole examination.

It shall be *prima facie* evidence that a position is in Grade II if the salary is more than \$540 and not more than \$780 a year.

Grade III.—Subjects and weights of examination are the same as for Grade II. Applicants are required to obtain at least 65 per cent in penmanship, at least 50 per cent in each of the other subjects, and a general average of 80 per cent on the whole examination.

It shall be *prima facie* evidence that a position is in Grade III if the salary is more than \$780 and not more than \$1,200 a year.

Grade IV.—Applicants are required to pass the Grade III examination, and if successful will have their experience rated with the written examination on the following basis: Written examination (5); experience (2); total (7).

It shall be *prima facie* evidence that a position is in Grade IV if the salary is more than \$1,200 and not more than \$1,800 a year.

Grade V.—Salary over \$1,800 a year. No examination will be held for Grade V. at this time. Whenever a vacancy occurs in this grade, which is not to be filled by promotion, it will be duly advertised and all information regarding salary, duties, subjects and weights of examination, etc., will be stated.

GENERAL INFORMATION.

In making certification preference will be given to residents of the city from which the requisition comes. Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

In establishing an eligible list as a result of the above examinations and in certifying therefrom preference will be given veterans as provided for in chapter 150 of the General Acts of 1919.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Room 148-152, State House, Boston.

In order to be entitled to receive a notice for the above-scheduled examination, an applicant should have his application on file at least ten days before the date set for holding this examination. Persons filing applications later than this date may be notified at the discretion of the Commissioner of Civil Service.

RETIREMENT BOARD.

At a meeting of the Retirement Board for City Laborers held at the auditor's office on Wednesday, January 7, 1920, at 11.15 a. m., it was voted to retire the following employee, said retirement to date from Friday, January 9, 1920, at the rate of \$360 per annum.

OFFICIAL COMMUNICATIONS.

CONTRACTS WITHDRAWN.

BOSTON, January 3, 1920.

To the Mayor of Boston:

Your approval is requested to the withdrawal of the award of contract for sewerage works in Wade street, Brighton, approved December 23, 1919, for the reason that the canvas of bids included an incorrect amount for fixed prices, and your approval to the award of contract to the lowest bidder, John Guarino & Co., bid, \$3,945.70.

The following bids, which include the correct amount of fixed prices, were received December 8, 1919:

J. Guarino & Co., \$3,945.70; James Barletta, \$4,388; George J. Regan, \$4,739.50; D. Vozzella Company, \$4,968.50; V. Grande, \$5,504.50.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved, January 5, 1920.

ANDREW J. PETERS, Mayor.

COLLECTING DEPARTMENT.

BOSTON, December 29, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, Mr. John J. McCarthy to serve as Acting City Collector at such times as I may be absent during the four weeks commencing December 29, 1919.

Respectfully,

FRANK S. DELAND,
City Collector.

BUDGET TRANSFERS.

BOSTON, January 2, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—By vote of this Board your approval is respectfully asked for the following internal transfers in this department's appropriation:

From the appropriation for Personal Service, A-1, 1 Chief Engineer at \$3,000, \$300.23, to the appropriation for Personal Service, A-1, 1 Civil Engineer at \$2,000, \$300.23.

From the appropriation for Personal Service, A-1, 4 Transistmen at \$1,400, \$271.77, to the appropriation for Personal Service, A-1, 1 Transistman at \$1,800, \$271.77.

The reason for asking this transfer is to provide for payment of salaries for the above two new positions recently made, for which no money was provided in the budget, same now being transferred from balances left on the positions of chief engineer at \$3,000 (which has been

abolished) and four transistmen at \$1,400 (one of which has been abolished).

Very respectfully yours,
DANIEL J. BYRNE,
Secretary.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—In accordance with section 3 of chapter 486 of the Acts of 1909, I will, with your approval, make the transfers requested above.

J. ALFRED MITCHELL,
City Auditor.

Approved January 5, 1920.

ANDREW J. PETERS, Mayor.

BUDGET TRANSFERS.

BOSTON, December 31, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—The Boston Typotheta and Bookbinders' Unions of Greater Boston have agreed to an advance of \$4.50 per week to all journeymen bookbinders employed in the different union shops of Greater Boston to the existing scale wage of \$29 per week, the same to become effective January 4, 1920.

The following are entitled to this increase:

One cutter, \$29 to \$33.50, four weeks at \$4.50, \$18; one assistant cutter, \$29 to \$33.50, four weeks at \$4.50, \$18. Total, \$36.

In accordance with the above explanation I respectfully request a transfer from A-1, Permanent Employees, Cylinder Pressmen, to each of the specified items.

Respectfully yours,

CHARLES S. LAWLER,
Superintendent.

Approved January 2, 1920.

ANDREW J. PETERS, Mayor.

MATERIAL FURNISHED PUBLIC WORKS DEPARTMENT.

BOSTON, December 30, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—The Transit Department furnished the Bridge Division of the Public Works Department the following material from its stock on hand in connection with work on new floor beams for the Charlestown Bridge draw:

15 gallons gasoline at 25 cents per gallon,	\$3 75
877 pounds shop rivets and 298 field rivets at 3.2 cents per pound,	37 60
1,026 pounds bars and plates at 3.5 cents per pound,	35 91
476 pounds angles at 3.5 cents per pound,	16 66
95 feet templet stock at \$65 per thousand,	6 18
Total.....	<u>\$100 10</u>

Your approval is respectfully requested of the sale of this material to the Bridge Division of the Public Works Department.

Yours respectfully,
MALCOLM E. NICHOLS,
Chairman.

BUDGET TRANSFERS.

BOSTON, January 5, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I respectfully ask permission to make the following transfer of funds:

From the appropriation for B-3, Advertising and Posting, \$25.90; B-4, Transportation, \$14.96, to the appropriation for B-2, Postage, \$40.86.

From the appropriation for B-27, Testing Materials, \$90.36, to the appropriation for B-14, Motor Vehicle, \$90.36.

From the appropriation for B-27, Testing Materials, \$195.22, to the appropriation for C-14, Motor Vehicle, \$195.22.

From the appropriation for A-1, Personal Service, \$645.48, to the appropriation for D-1, Office Supplies, \$645.48.

The increase in postage is due to the fact that many new names have been added to the mailing list during the past year, and this has naturally increased the postage expenditures.

Regarding the transfers asked for in items B-14 and C-4 would say that more inspections of the different materials ordered through this department have been made during the past year than ever before, and this necessitated almost constant use of the department automobile and the added wear and tear on the machine and tires has resulted in the increased expenditure in these two items.

Regarding the transfer asked for in D-1, would say that it is due in a large measure to the fact that the cost of printing has advanced so rapidly that our original estimate has proved inadequate.

Respectfully yours,

FRANK S. DELAND,
Acting Superintendent of Supplies.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—In accordance with section 3 of chapter 486 of the Acts of 1909, I will, with your approval, make the transfers requested herein.

J. ALFRED MITCHELL,
City Auditor.

Approved January 6, 1920.

ANDREW J. PETERS, Mayor.

SALE OF CARS.

BOSTON, December 31, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—At a meeting of the Board of Schoolhouse Commissioners held on December 30, it was voted to sell Buick six-cylinder seven passenger car, No. 192,290 and Stearns-Knight eight-cylinder seven passenger car, No. 10,478.

The cost of operating these cars at the present time is so abnormal that the Board is of opinion that, in order to reduce the maintenance expenses of this department, they should be disposed of. The cost of new buildings and of alterations and repairs in the last few years has increased 200 per cent as against three years ago and this Board feels constrained under the said conditions, to make every honest effort possible towards strict economy in the conduct of the financial affairs of the department. We, therefore, request that your Honor authorize this Board to sell the automobiles herein named on the best terms and conditions possible for the City of Boston.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

Approved, January 2, 1920.

ANDREW J. PETERS, Mayor.

OFFICIAL COMMUNICATION.

CIRCULAR FROM THE MAYOR.

MAYOR'S OFFICE,
BOSTON, Mass., January 7, 1920.

To the Heads of Departments:

GENTLEMEN.—I desire to direct your attention to section 30 of the amended city charter which reads as follows:

"Every officer or board in charge of a department in said city, when authorized to erect a new building or to make structural changes in an existing building, shall make contracts therefor, not exceeding five, each contract to be subject to the approval of the mayor; and when about to do any work or to make any purchase, the estimated cost of which alone, or in conjunction with other similar work or purchase which might properly be included in the same contract, amounts to or exceeds one thousand dollars, shall, unless the Mayor gives written authority to do otherwise, invite proposals therefor by advertisement in the *City Record*. Such advertisement shall state the time and place for opening the proposals in answer to said advertisement, and shall reserve the right to the officer or board to reject any or all proposals. No authority to dispense with advertising shall be given by the Mayor unless the said officer or board furnishes him with a signed statement which shall be published in the *City Record* giving in detail the reasons for not inviting bids by advertisement."

I herewith notify you that any infraction of the requirements noted in the above section 30 of the amended city charter, will be dealt with summarily.

Very truly yours,
ANDREW J. PETERS, Mayor.

PORT OF BOSTON.

Best of natural harbors, sheltered, spacious or anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (*i. e.*, lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to state, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to state, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing state \$764,600 for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed this year, 1,200 feet long and 120 wide, costing over \$3,000,000 and to be taken by United States Government at total cost of same to state. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the city. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor line was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under state control.

In April, 1918, the government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the state, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant is about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1916, \$12,269,996; total expended and provided for by state, \$15,000,000 approximately.

VOTE FOR PRESIDENT, 1916.

Total, 95,290, or 81.15 per cent of registered voters. For Wilson, 56,053; Hughes, 37,092; all others, 2,145. Wilson's majority over all, 16,816; in 1912 his total was 2,138 short of a majority. Wilson's gain over 1912, 12,990, or 30.16 per cent. This gain was equal to 60.3 per cent of Roosevelt's vote in 1912.

Wilson's plurality over Hughes in the 48 states, 582,210, or 277 electoral votes to Hughes' 254; 30 states for Wilson, 18 for Hughes.

PROCEEDINGS OF CITY COUNCIL.

Monday, January 5, 1920.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President FORD in the chair, and all the members present.

APPOINTMENT BY THE MAYOR.

The following was received:

City of Boston,

Office of the Mayor, January 5, 1920.

To the City Council,

Gentlemen,—Subject to confirmation by your honorable body, I hereby appoint Miss Cecilia A. Mitchell, 64 Business street, Hyde Park, to be a Weigher of Coal, for the term ending April 30, 1920.

Respectfully,

ANDREW J. PETERS, Mayor.

Laid over under the law.

REMOVAL OF ARCH, EAST BOSTON.

The following was received:

City of Boston,

Office of the Mayor, December 30, 1919.

To the City Council:

Gentlemen,—More than a year ago an arch was erected in Central square, East Boston, to stimulate interest in the Liberty Loan.

The structure was built by the Bridge Service of the Public Works Department, but was paid for out of the funds of the Public Safety Committee. It has long since passed its stage of usefulness and has become a public eyesore and a menace to the community. The residents of East Boston are very anxious to have the arch removed but there are no funds available.

The Commissioner of Public Works will perform the work of demolition, if the necessary funds are appropriated. He estimates that it will cost in the vicinity of \$500 to remove the arch. I therefore recommend the passage of the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the Commissioner of Public Works be and hereby is authorized to expend a sum not exceeding \$500 in the work of demolishing the arch in Central square, East Boston, said expenditure to be charged to the Reserve Fund.

Referred to the Executive Committee.

"GREAT WHITE WAY" LIGHTING.

The following was received:

City of Boston,

Office of the Mayor, January 3, 1920.

To the City Council:

Gentlemen,—In accordance with the order of the City Council passed on June 23, relative to the installation of the boulevard or so-called "great white way" system of street lighting on certain Boston streets, I am herewith transmitting a statement just received from the Commissioner of Public Works on this matter.

Respectfully,

ANDREW J. PETERS, Mayor.

City of Boston,

Public Works Department,

January 2, 1920.

To the Honorable the Mayor:

I return herewith order of the City Council, dated June 23, 1919, as follows:

Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be requested to inform the City Council as to the approximate cost of installing the boulevard or so-called "great white way" system of street lighting on Washington street, from Boylston street to Dock square; on Columbus avenue, from Park square to Northampton street; on Tremont street, from Boylston street to Scollay square, and on Boylston street, from Tremont street to Copley square.

This matter was referred to the Edison Electric Illuminating Company for an estimate of the cost, and the information has just been received. They estimate that it will cost \$28,000 for the necessary changes to provide lamps of the "boulevard" type in the locations mentioned. This would call for the installation of sixty-four additional lamps, and while the expense for these installations would be borne by the Edison Company the city would assume the expense of burning, which would amount to \$5,100 per year.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Placed on file.

MUNICIPAL BUILDING, HYDE PARK.

The following was received:

City of Boston,

Office of the Mayor, January 5, 1920.

To the City Council:

Gentlemen,—For some time past there has been an insistent demand on the part of the residents of Hyde Park for a municipal building for that district. The need for such a building is undoubtedly

great and I desire to select a site in order that the work of construction of the municipal building may be commenced at the earliest possible moment.

I therefore recommend the passage of the accompanying loan order for \$50,000 for the purchase of a site.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$50,000 be appropriated for the purchase of a site for municipal building in Hyde Park, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Referred to the Committee on Finance.

MONEY FOR COMMITTEE ON AMERICANISM.

The following was received:

City of Boston,

Office of the Mayor, January 3, 1920.

To the City Council:

Gentlemen,—On Monday, December 1, there was a conference in my office of the authorities constituted by the Federal, state and city governments for seeking out and suppressing crime, to consider the revolutionary activities of certain groups, and to devise methods of suppressing such activities.

It was the feeling of those present that the machinery for seeking out and punishing those guilty of violations of the law was ample, but that the general situation confronting the country should be approached and dealt with by agencies other than those whose function was the punishment of criminals. Those present agreed with me that much direct and immediate good along lines of stamping out revolutionary tendencies could be accomplished through the agency of a central committee which would organize subcommittees composed of the leading men of each race in the city, the latter to reach their people in a sympathetic and friendly way and tell them the truth about general conditions and the objects of our government.

I have no doubt that if the great majority of those who are now fertile ground for the sowers of the seeds of revolution had a clearer comprehension of economic conditions, of our social and industrial structure, and of the activities and aims of our government, the greater part of the present discontent, due almost entirely to misunderstanding aggravated by the inflammatory teachings of revolutionary demagogues, would immediately disappear, and I believe that an active organization such as I suggested can bring about this clearer understanding on the part of the masses.

Several days after this meeting was held in my office I appointed a committee to do the work outlined above. Mr. Alexander Whiteside, former Corporation Counsel, is the chairman of the committee, which is composed of representatives of the various organizations which would be of assistance in doing the necessary work.

On December 23 the committee met and adopted the following outline of its work:

"The main purpose of the Boston Committee for Americanism is to foster a spirit of loyal, patriotic Americanism throughout the city. The promotion of Americanism includes on the one hand a united effort to suppress unpatriotic activities and to eradicate anti-American tenets and tendencies, and on the other hand a constructive program of education in its broadest and truest sense, to the end that the residents of the city, seeing more clearly the necessity of vigilance in safeguarding American institutions, appreciating more fully the duty of steadfast devotion to American principles, imbued with a firmer spirit of faith in American ideals, banded together for the purpose of preserving for themselves and their children the blessings of liberty, working together for the good of all, teaching and living the doctrines of American democracy, may themselves become better Americans and share in making the United States a better country and Boston a better city in which to live.

"With the twofold purpose of combating and counteracting forces which militate against national security and of encouraging and stimulating influences and activities which make for the betterment of the community, it is proposed to enlist the support of all existing agencies, both public and private, which are interested in civic welfare.

"The committee plans to arrange conferences with representatives of various groups and agencies, such as industry; labor; education; churches; the Press, both English and foreign language; public officials, Federal, state and municipal; civic, fraternal and welfare organizations.

"Especially desirable is the strengthening of co-operative relations with our immigrant population and to this end it is recommended that a subcommittee be appointed with power to form such advisory committees as may, from time to time, be deemed necessary.

"Equally important is the matter of publicity in its various phases, and it is recommended that a subcommittee be appointed to outline a comprehensive program of publicity.

"Immediate steps should be taken to secure accurate information regarding such conditions

within the city as come within the scope of the committee's activities, and it is recommended that a subcommittee be appointed to conduct the necessary investigation.

"The committee voted to ask the Mayor and City Council to appropriate \$15,000 for the work of the committee, and to provide the committee with headquarters in the City Hall Annex."

It is essential that the request of the committee for the appropriation of \$15,000 for its work be complied with at the earliest possible moment, in order that no time may be lost in the committee commencing its activities. I will be able to immediately supply the committee with headquarters in the City Hall Annex, so that the only remaining step necessary to the committee beginning its work is the appropriation of \$15,000.

I therefore recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$15,000 be and hereby is appropriated to be expended by the Boston Committee for Americanism, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund.

Referred to the Executive Committee.

CONSTRUCTION OF STUART STREET.

The following was received:

City of Boston,

Office of the Mayor, January 5, 1920.

To the City Council:

Gentlemen,—On October 27, 1919, I addressed to you a communication relative to the acceptance by you of chapter 329 of the Special Acts of 1917, providing for the laying out and construction of Stuart street, etc. So far you have failed to act, and as it seems to me important that a decision be reached promptly, I again call the matter to your attention.

In my previous communication I stated my opinion that the acceptance of the act by the Mayor and City Council, as provided therein, was advisable. I wish to reiterate this opinion. I know of no proposed street widening or extension which can be made at so moderate an expense to the city and which will result in greater benefit. As you well know, our city expenses have largely increased and we are faced with the imperative duty of raising salaries of city employees pretty generally. At the same time, there has been no reduction in the cost of labor or supplies, and I can see no chance for any such reduction in the immediate future. Many people are pressing for drastic economy by the elimination of employees who are alleged to be unnecessary, and in other ways. There is considerable dissatisfaction among taxpayers on account of what they contend to be excessive assessments and on account of the high tax rate. It may be true that some real estate is not now adequately assessed, but this is a matter to which the assessors are devoting their best attention. On the other hand, I am confident that a great deal of real estate is assessed certainly as high as it should be, and, generally speaking, real estate throughout the city is bearing all the burden it should at present be required to bear. If taxes are to be increased on already developed real estate, the owners will feel it incumbent to raise rents which are already burdensome. If the city is to maintain its municipal activities on the same scale as heretofore, it is obvious we will need more revenue. I do not believe it will be possible to get very much more than we are getting now from already developed real estate, and we therefore must look to other sources. Among these is an obvious one—the development of land now lying idle and the improvement of real estate which is susceptible of improvement. The extension and widening of Stuart street and Eliot street, as proposed by the statute in question, presents an unusual opportunity for such development and improvement. The act was most carefully considered by the Legislature and by the Hon. John A. Sullivan, then Corporation Counsel, and it was insisted by the Legislative Committee and by the Corporation Counsel that the act should be so drawn as to limit the expense to the city to the sum of \$250,000 plus such sum as the city authorities felt confident they could assess in betterments. The act presents a most favorable opportunity to utilize in a way never before tried the constitutional amendment providing for excess takings, and if the improvement is carried out and proves a success, as I have every reason to believe it will prove, it should serve as an encouragement to like developments in other parts of the city. Such developments, if properly safeguarded by the city authorities, should result in greatly increased revenues and in stimulation of real estate and business development, which will add to the prosperity of the city and be a benefit to all its citizens.

I therefore strongly urge you to take up immediately the question now before your Committee on Finance and to act favorably upon it at the earliest possible moment.

Respectfully,

ANDREW J. PETERS, Mayor.

Referred to the Committee on Finance.

VETO—PENSION FOR TIMOTHY R. SULLIVAN.

The following was received:

City of Boston,
Office of the Mayor, December 23, 1919.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on December 22 accepting chapter 46 of the Special Acts of 1919 entitled "An Act to Authorize the County of Suffolk to pension Timothy R. Sullivan." On May 10, 1919, the Finance Commission submitted the following report to the Mayor and City Council:

"1. Timothy R. Sullivan entered the employ of Suffolk County on February 24, 1913, as janitor at a salary of \$15 per week and has continued in that capacity, his salary having recently been increased to \$21 per week.

"The custodian of the courthouse states that Mr. Sullivan was at work in the courthouse, near the scene of the bomb explosion which occurred on March 16, 1917, and remained at home the following week, because he claimed to have received a mental shock. He never made any claim of injury until after the legislative act authorizing the payment of a pension was filed, and has been constantly at work and has always performed and is now performing his duties to the satisfaction of the custodian.

"Mr. Sullivan is now fifty-nine years of age and under the American Experience Mortality Tables his expectation of life is 14.74 years. If the act is accepted, he will be entitled to receive \$545 annually, which on the basis of his expectation of life will be equivalent to paying him \$8,084.04.

"The commission is of opinion that this legislation is without merit and should be rejected."

"I agree with the findings of the Finance Commission, and I feel that the acceptance of this legislation would be an instance of granting special privilege.

Respectfully,
ANDREW J. PETERS, Mayor.

Placed on file.

Passed.

DAYLIGHT SAVING.

Coun. HAGAN offered the following:
Whereas, The daylight saving movement has been successfully operated in the United States, and is now being operated in Great Britain, France, Italy, and other European countries; and

Whereas, The adoption of the daylight saving plan by the United States gave this country an opportunity to experience the same benefits experienced by European countries; and

Whereas, New York State and part of the territory to the west and southwest of Massachusetts have either statutes or local ordinances providing for daylight saving, it would be out of step if Boston did not adopt similar measures; and

Whereas, The daylight saving plan would help materially in conserving our supply of fuel, enabling us to effect considerable saving in the use of artificial light, reduce the eye strain and industrial accidents produced by work under such light, and has enabled over twenty million workers to devote additional hours of daylight to productive cultivation of the soil or to wholesome outdoor pursuits for themselves and their families; therefore

Be it resolved, That the Boston City Council here assembled will favor the adoption of a city ordinance for the City of Boston providing for a period of daylight saving, for five months, commencing the last Sunday of April and ending the last Sunday of September, and will likewise favor a bill to be presented to the Massachusetts Legislature providing for a period of daylight saving in this state for five months, commencing the last Sunday of April and ending the last Sunday in September.

Referred to the Executive Committee.

CONVENIENCE STATION, BRIGHTON.

Coun. McLAUGHLIN offered an order—That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to furnish the City Council with an estimate of the cost of providing a public convenience station in the basement of the Old Town Hall, Brighton.

Passed.

AID TO THE UNEMPLOYED IN BOSTON.

Boston one of the first—if not the first—of American cities to open municipal free lodging houses for persons out of work and temporarily homeless.

Temporary Home (for destitute women and children) opened in 1870; Wayfares' Lodge (for men), in 1878. Total number of cases of aid to men in year 1918-19, 14,782; of women and children, 1,548. Less than 5 per cent of men aided have legal settlement in Boston; about 45 per cent are recorded as foreign-born. Work in woodyard required for meals furnished to men.

State Free Employment Office in Boston, established in December, 1906. Number of applications reported filled in year 1918, 18,125, of which 10,319 were for unskilled labor, 5,635 for skilled labor, 1,314 for mercantile positions and 683 for office clerks. Weekly average of persons called for by employers, 570. Annual cost of maintenance about \$23,000.

PROPOSALS FOR SEWERAGE WORKS IN KENNEBEC STREET, ETC., DORCHESTER AND HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for sewerage works in Kennebec street and outlet in private land, and Ruskin road, Dorchester and Hyde Park. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of three thousand (\$3,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Kennebec Street, Etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, January 16, 1920, with a certified check for seven hundred (700) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposal will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are especially indicated. Week ending January 15, 1920:

SCHOOL COMMITTEE.

On January 2 and 6, respectively, to the Remington Typewriter Company and to the Underwood Typewriter Company for 100 machines each. Bids opened December 24, 1919:

Remington Typewriter Company, \$70 each; Underwood Typewriter Company, \$70 each; Royal Typewriter Company, \$75.25 each.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

FIRE DEPARTMENT.

On January 15 to the White Motor Car Company as per following communication:

BOSTON, January 12, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I respectfully request permission to purchase from the White Motor Car Company, without advertising, two ¾-ton rebuilt White chassis.

These chassis are to be used by the fire alarm branch and are to take the place of the two Ford trucks which are worn out and unfit for use. We have found that the Ford trucks are too light for this service. The reason given by the Supervisor of Motor Apparatus for selecting the White trucks is that this is an unusual bargain inasmuch as new chassis would cost \$2,400 each, while these rebuilt, good-as-new chassis are listed at \$1,600 each. Two somewhat used bodies would be included in the trade for \$25 each, making the total cost of the transaction to the city for the two chassis and two bodies, \$3,250.

It is necessary that these trucks be bought at once as the Ford trucks are completely out of service. This department needs the trucks in order to do the necessary line repair work which follows winter storms.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

PRINTING DEPARTMENT.

On December 19 to A. Storrs & Bement Company as per following communication:

BOSTON, December 18, 1919.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—We desire to buy six hundred (600) reams of 24 by 38 50-pound book paper from the A. Storrs & Bement Company to the amount of \$2,850 to be used for documents and general book work of the department.

Herewith find bids per pound. We request your permission to grant the contract to whom we wish, as there exists quite a difference in the quality of the stock.

As the paper market is extremely high now and prices constantly subject to change, we would like to take advantage of the quotation of 9½ cents per pound from the A. Storrs & Bement Company immediately as we feel any delay on our part in placing our order might possibly lead to our not getting the paper at this price, and there is a question whether we would be able to get the stock as the paper houses are having difficulty in getting the paper. These conditions existing, we consider this offer a very good one, and are most anxious to have your approval in order to enable us to place our order with them.

Respectfully yours,

CHARLES S. LAWLER,
Superintendent.

Bids were as follows:

A. Storrs & Bement Company, 9½ cents per pound; Tileston & Hollingsworth Company, 9½ cents per pound; Carter, Rice & Co. (Corp.), 10½ cents per pound.

TRANSIT DEPARTMENT.

On January 14 to the Boston Elevated Railway Company as per following communication:

BOSTON, January 7, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Your permission is respectfully requested to award, without advertising, a contract to the Boston Elevated Railway Company for the construction of a shelter for passengers at the Broadway Station of the Dorchester Tunnel, for the following reasons:

The company agrees to do the work at cost.

The work will have to be done while the cars are operating and the control of the work by the company will promote public safety.

Public convenience requires that this work be done immediately so as to provide an adequate shelter for passengers awaiting cars.

The company has the necessary force to begin the work at once.

The cost of the work is to be charged to the Dorchester Tunnel account upon which the company has to pay rental.

The estimated cost of the work is \$11,000.

Respectfully,

MALCOLM E. NICHOLS,
Chairman.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

FIRE DEPARTMENT.

An addition, amounting to \$307, on contract with Archdeacon & Sullivan,

dated October 1, 1919, changes in Ladder House No. 1, as per following communication:

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, January 9, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—In the contract for \$3,102, made October 1, 1919, with Archdeacon & Sullivan to make necessary changes to accommodate motor apparatus in Ladder House No. 1, Friend street, Boston, it is necessary to install a separator in accordance with the rules of the Sewer Division of the Public Works Department and the department for the metropolitan district of the Commonwealth. To install the separator will cost \$307. The extra work entails the placing of the gasoline separator under the sidewalk outside of the house rather than inside of the basement. This change saves valuable room and does away with any possible menace from stagnant water contained in separator.

I would request your Honor's permission to contract with Archdeacon & Sullivan to do the necessary work of installing this separator for \$382 less an allowance of \$75 for noncompletion of originally proposed and partially constructed separator inside the building, making a total addition for this improvement of \$307.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Original contract, \$3,102; total addition, \$307; contract outstanding, \$3,409.

HOSPITAL DEPARTMENT.

An addition, amounting to \$175, on contract with Boston Engineering Company, dated December 22, 1919, as per following communications:

BOSTON, December 22, 1919.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On November 20, 1919, your permission was requested for an addition to the contract of the Boston Engineering Company for work then being done on dynamo engine No. 1 at the power station. A copy of that request is inclosed. I regret to say that there should have been included in this request a sum sufficient to replace a broken disc. The hospital engineer assumed that this item was incorporated. I regret exceedingly to be compelled to ask for another addition to this contract with the Boston Engineering Company of \$175 to replace this disc. I inclose a copy of their letter of December 20, proposing to do the work for this amount.

Yours respectfully,

JOSEPH P. MANNING,
President Board of Trustees.

BOSTON, December 20, 1919.

DR. J. J. DOWLING,
Superintendent City Hospital:

DEAR SIR,—On removing the crank counterweight discs from the broken crank shaft, it was discovered that one disc was broken on the outer web. On referring to the man who removed the shaft from the engine he stated that this crack was discovered at the time and the engineer's attention was called to the same. This disc should be replaced by a new one, as in its location a welded or brazed repair would be too great a risk.

The price for a new disc would be about \$175. We can have this ready when the

rest of the crank shaft is done. Hoping to receive your order for this, we are

Yours very truly,

BOSTON ENGINEERING COMPANY,
per WILLIAM L. TOBEY, *Engineer.*

Original contract, \$762; total additions, \$1,480; contract outstanding, \$2,242.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$660, on contract with William J. Barry for recut granite block and wood block pavement in Dorchester avenue, from Rawson street to Savin Hill avenue, on account of furnishing and laying new wood blocks on existing concrete base. Price to be paid for each square yard of wood block pavement furnished and laid, the sum of \$4.40. Original contract, \$88,982; total additions, \$16,524; contract as standing, \$105,506.

An addition, amounting to \$396.70, on contract with William J. Barry for recut granite block and wood block pavement in Dorchester avenue, from Rawson street to Savin Hill avenue, on account of removing stumps and filling and grading on slopes. To be paid for by force account. Remove tree stumps, \$95.80; slope filling about 700 feet long, 7 feet to 20 feet high, \$300.90; original contract, \$88,982; total additions, \$16,920.70; contract as standing, \$105,902.70.

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$20, on contract with James Barletta for laying water pipes in Currier street and Kennebec street, on account of cutting stumps. Original contract, \$962.25; total addition, \$20; contract as standing, \$982.25.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$50, on contract with Walter Curley, dated August 15, 1919, moving five schools, for labor and materials required to relocate Portable No. 88. Original contract, \$3,948; total addition, \$50; contract outstanding, \$3,998.

ACCIDENTS.

There have been too many accidents to the apparatus of the department in responding to fires. This is especially true of motor apparatus. All apparatus must be driven at a speed which is reasonable and consistent with safety. When the streets are wet or covered with snow or ice, due care must be taken to avoid skidding, and all corners must be taken at a low speed. The most important factor in the driving of motor apparatus is not speed, but to bring it in safety, at a reasonable speed, to and from fires.

NEW FIRE ALARM BOXES.

The following new fire alarm boxes will shortly be established:

Box 254.—Prospect avenue and Johnswood road, connected into circuit No. 25. Assignments will be the same as for Box No. 2542.

connected into circuit No. 32. Assignments will be the same as for Box 7161.

Box 3225.—Harbor View School, Dorchester avenue and Harbor View street, connected into circuit No. 40. Assignments will be the same as for Box 3224.

NEW FIRE ALARM BOOKS.

The small red books, containing a list of fire alarm boxes, which are now in the process of distribution to the officers and members of the department have a leaflet headed "Emergency Code Signals." This leaflet is to be pasted on the last page of the book.

SHOEING AND SHARPENING.

Whenever the horses on horse-drawn apparatus are to be reshod or sharpened commanding officers will notify the veterinary of the department, Daniel P. Keogh.

ACTING DISTRICT CHIEF.

The following promotions to acting district chief are hereby announced:

Capt. Avery B. Howard of Engine Company 26-35 to be acting district chief of Fire District No. 5 during the absence of the district chief of that district.

Capt. Thomas H. Downey of Engine Company 22 to be acting district chief of Fire District No. 7 during the absence of the district chief of that district.

REOPENING OF MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasia has been resumed at the various buildings throughout the city.

Extensive repairs have been necessary by reason of the occupancy by the State Guard for the various gymnasia of the department. The buildings have been thoroughly equipped and placed in a satisfactory condition throughout and the work will be resumed with all its equipment and facilities as formerly.

The following buildings have gymnasia and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.

Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.

Cabot Street Gymnasium and Swimming Pool.—Roxbury.

Vine Street Gymnasium.—Corner Vine and Dudley streets.

Dorchester Gymnasium.—Corner Columbia road and Bird streets.

Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.

Ward 5 Gymnasium.—Corner Tyler and Oak streets.

D Street Gymnasium.—South Boston.

North Bennet Street Gymnasium.—North End.

Paris Street Gymnasium.—East Boston.

Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasia where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasia.

Basketball is permitted in certain gymnasia on the part of those who participate in class work.

Aesthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls and at 7.30 for working girls.

Tuesday and Friday—High school boys from 2.30 to 5 p. m. Men from 7.30 to 9.30 p. m.

Saturday—Grammar school boys from 2 p. m. to 4 p. m. Working boys from 7.30 to 9 p. m.

CAR TRACKS ON BELGRADE AVENUE EXTENSION.

BOSTON, January 8, 1920.

MR. JAMES F. JACKSON, *Chairman, Board of Trustees, Boston Elevated Company, 101 Milk Street, Boston, Mass.:*

DEAR SIR,—At the conference held in the Old Aldermanic Chamber in City Hall on December 9 relative to the general street railway situation in the West Roxbury district, it was agreed, so I understood, that the trustees of the Bay State Street Railway Company, acting for the Eastern Massachusetts Street Railway Company, would agree to the location of tracks on the Belgrade avenue extension if the trustees of the Boston Elevated Company would assume the expense in connection with it. This, however, was only one of the topics of discussion at the meeting.

Street work by the city on a number of highways in the West Roxbury district has been held up because of the failure of the Bay State Street Railway Company to relocate its tracks. It is my under-

standing that as a result of the conference on December 9, the trustees of the Bay State and of the Boston Elevated would act together and through a modification of the leases come to some arrangement under which it would be possible for tracks to be laid the first thing in the spring, thus making it possible for the city to enter in the near future and repave the streets. I understood that the trustees of the two companies would let me know at an early date what had been accomplished. As it is now a month since the meeting was held, I am writing to inquire what has been done along the lines in question.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

FINAL REPORT OF THE COMMITTEE ON ARMY AND NAVY SERVICE CLUB.

After several meetings in which the need of organizing an Army and Navy Service Club had been discussed and after having obtained much information from existing organizations doing similar work, all members of the committee, appointed by the Mayor, agreed that the following report be respectfully submitted as representing their unanimous opinion:

1. Having thoroughly studied the field covered by present activities for the boys in service, the committee has arrived at the conclusion that a City Army and Navy Club is essential.

2. The committee, however, is impressed with the importance of establishing some center that will perform the following twofold purpose:

(a) To promote the cordial relations established between the public and the service men during the war.

(b) To establish a place where these men may gather with perfect freedom, regardless of their religious inclination and where those who desire the companionship of their own comrades in a club atmosphere may enjoy this privilege.

3. This committee also respectfully suggests that the committee on a "War Memorial" be advised to consider in their plans the possibility of erecting a building to be used as such a service club.

PARK AND RECREATION DEPARTMENT.

On January 13 the Mayor approved leases between the Park and Recreation Commissioners and the various yacht clubs for the occupation of land owned by the City of Boston:

Mosquito Fleet Yacht Club for a term of ten years beginning July 1, 1919, at rental of \$150 per year.

Puritan Canoe Club for a term of ten years beginning January 1, 1920, at rental of \$120 per year.

South Boston Yacht Club for a term of ten years beginning July 1, 1919, at rental of \$375 per year.

Columbia Yacht Club for period of ten years beginning January 1, 1920, at rental of \$225 per year.

OFFICIAL COMMUNICATIONS.**WARD MAIDS AT LONG ISLAND HOSPITAL.**

BOSTON, January 13, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Subject to your approval the Boston Infirmary Trustees voted, at their meeting held yesterday, to increase the number of ward maids at the Long Island Hospital from five to ten, at the present salary of \$360 per annum.

This additional help is very much needed to relieve the strain on pupil nurses. There has been increased difficulty in securing applicants for admission to the training school, until at the present time only twenty-one of sixty positions allowed are filled.

Necessary funds to provide for additional ward maids for the remainder of the year can be arranged by transfer within appropriation granted, and it is possible that the new positions can be filled by transfer of matrons from Deer Island.

Very truly yours,

MARY A. DIERKES,
Chairman.

Increase in number of ward maids from five to ten, provided number of pupil nurses are decreased from sixty to fifty-five.

Approved January 14, 1920.

ANDREW J. PETERS, *Mayor.***HEALTH DEPARTMENT.**

BOSTON, January 14, 1920.

To Whom it May Concern:

With a view to the prevention of the introduction of bubonic plague into the City of Boston by means of infected rats, the Health Commissioner of Boston, pursuant to the provisions of section 65, chapter 75, of the Revised Laws, has drafted a set of regulations which it is proposed to adopt in this city as a means toward this end. The Health Department desires any suggestions and advice and especially the hearty co-operation of the persons in Boston who may be in any way affected by these regulations, and has accordingly arranged to hold a public hearing on these proposed regulations in the office of the Health Commissioner, Room 1109A, City Hall Annex, Boston, Mass., on Friday, January 23, 1920, at 2 p. m. All persons who are interested are invited to be present or to be represented.

WM. C. WOODWARD, M. D.,
*Health Commissioner.***PROPOSED REGULATIONS FOR THE RESTRICTION OF RATS.**

Pursuant to the provisions of section 65, of chapter 75, of the Revised Laws of the Commonwealth of Massachusetts, which requires the Health Commissioner of Boston to examine into all causes of sickness in the city or on vessels within the harbor and to make regulations relative to articles which are capable of creating sickness that are brought into the city from any vessel, the following regulations are promulgated, with a view to the prevention of the introduction of plague into Boston by means of infected rats.

1. The owner, agent, master and consignee of any vessel which is lying at any wharf within the limits of the City of Boston shall take such measures as may be necessary to prevent, and shall prevent, any garbage, offal or other refuse which may furnish food for rats, from being thrown overboard from such vessel, or from being deposited on or about any

wharf, except in ratproof covered metallic receptacles, and shall take such measures as may be necessary to keep such receptacles covered and cared for at all times so as to prevent rats from gaining access to their contents.

2. No owner, agent, master or consignee of any vessel, nor the owner, agent, or superintendent of any wharf shall deposit or store, or permit to be deposited or stored, or to accumulate, or on about any wharf, or in or about any building adjacent thereto, subject to his control, any foodstuff, refuse or other material, in such manner as to furnish a food supply or breeding place for rats, or otherwise than may in any instance be prescribed by the Health Commissioner or his legal representative; and the owner of every wharf shall make provision, subject to the approval of the Health Commissioner, for the prompt and regular removal of all garbage, offal or other refuse from the wharf and land or premises adjacent thereto under his control.

3. In case any vessel shall come to a wharf in the City of Boston from a port reported by the United States Public Health Service as infected or possibly infected with the plague, for the purpose of discharging or taking on passengers or cargo, the master of such vessel, and the owner, agent and superintendent of any wharf at which such vessel may lie, shall observe the following conditions:

The vessel shall be kept breasted off at least 7 feet from the capill of the wharf.

All lines leading from the vessel to the shore shall be so guarded by effective rat guards or other devices as to prevent rats from reaching the shore by means of such lines. All freight gangways leading from the vessel to the wharf or shore shall be removed and kept down when not actually being used for the loading or discharge of cargo, passenger gangways shall be removed when not kept constantly lighted and guarded so as effectually to prevent rats from reaching the shore by this means.

If it shall come to the knowledge of the owner or superintendent of the wharf or to the master or chief officer of a vessel that rats are reaching the shore in cargo that is being unloaded he shall immediately report the fact to the Health Commissioner of the City of Boston, and the owner or superintendent of the wharf and the master and chief officer of the vessel shall make such arrangements with the employees under their control and with the United States customs officers as will insure the prompt reporting to the said owner, agent, master or chief officer of the fact that rats are so being brought ashore with the cargo.

The maximum penalty for violation of any regulation promulgated under section 65, chapter 75, of the Revised Laws, is \$100.

HEARING ON PROPOSED RULES AND REGULATIONS OF DAY NURSERIES.

BOSTON, January 14, 1920.

To Whom it May Concern:

By the provisions of chapter 195, Acts of 1919, approved May 29, 1919, all day nurseries operating in cities and towns in the Commonwealth of Massachusetts, are required to obtain a license from the local board of health in order to conduct such a day nursery. The act also provides that the local board of health shall make rules and regulations in accordance with which day nurseries shall be licensed

and conducted, and before adopting such rules and regulations the Health Commissioner has arranged to hold a hearing when persons interested in day nurseries may appear and be heard.

This hearing has been arranged for Wednesday, January 21, 1920, at 2 p. m., in the office of the Health Commissioner, Room 1109A, City Hall Annex.

Respectfully,

WM. C. WOODWARD, M. D.,
*Health Commissioner.***LAWS AND REGULATIONS GOVERNING DAY NURSERIES.****AN ACT TO PROVIDE FOR THE REGULATION AND LICENSING OF DAY NURSERIES.***Be it enacted, etc., as follows:*

SECTION 1. For the purpose of this act, a day nursery is defined to be any institution, establishment or place in which are commonly received at any one time three or more children not of common parentage, under the age of fourteen years, for a period or periods exceeding four but not exceeding twelve hours, for the purpose of nursing and care apart from their parents or guardians, irrespective of compensation or reward.

SECT. 2. No person, firm, association or corporation shall conduct a day nursery without receiving a license from the local board of health. An application therefor shall be in a form prescribed by the said board, and shall be uniform for all day nurseries within the board's jurisdiction. There shall be attached to the application a statement, sworn to by the applicant, or by an officer thereof duly authorized thereto, containing such information as may be required by the board. If, in the judgment of the said board, the said statement or any other evidence submitted in relation to the application indicates that the operation of the proposed day nursery will be for the public benefit and welfare, a license, in such form as the board may prescribe, shall be issued to the applicant. All licenses shall expire at the end of the calendar year in which they are issued, but may be renewed annually on application as provided for their initial issue. No license shall be transferred except with the approval of the said board. For the issue or renewal of each license, a fee of one dollar shall be charged. All fees shall be paid into the treasury of the city or town in which the nursery is situated.

SECT. 3. The local boards of health shall make rules and regulations, and may revise or change the same in accordance with which day nurseries shall be licensed and conducted; and failure to comply with any such rule or regulation shall be sufficient cause for revocation of the license in the manner provided in the following section.

SECT. 4. The local board of health by its authorized agents shall have authority to visit and inspect any day nursery at any time in order to ascertain whether it is licensed and conducted in compliance with law, including the provisions of this act, and with the rules and regulations established hereunder. Every day nursery shall be so visited and inspected at least once in each year. After thirty days' notice to a licensed day nursery and opportunity to be heard, the local board of health may, if in its judgment the public interest so demands, revoke the license of the nursery. Every day nurs-

ery shall furnish to the said board such reports, information and other data as it may require.

SECT. 5. Day nurseries legally incorporated or in operation in this commonwealth at the date of the taking effect of this act, shall, on furnishing the statement or other information required under section two of applicants for licenses, be permitted to continue in operation for the remainder of the calendar year without securing a license under this act. The said local boards are hereby directed to cause an inspection to be made, prior to the thirty-first day of December in the current year, of all day nurseries in their respective municipalities.

SECT. 6. Except as provided in section five, any person, firm, association or corporation which establishes, conducts, manages or maintains a day nursery without first having obtained a license therefor, or after the revocation of the license, or in violation of any provision of this act, or regulation made hereunder, and any person, firm, association or corporation which violates any provision of this act or any regulation made hereunder, shall be punished by a fine of not less than ten nor more than two hundred dollars for each offence. If any person, firm, association or corporation conducting a day nursery shall be found guilty of a violation of any provision of this act or of any such regulation, in any particular relating to the safety of or the accommodations for the children, it shall be the duty of the local board of health to issue an order directing that such nursery be closed, and remain closed until such provision or regulation has been complied with.

SECT. 7. The provisions of this act shall not apply to day nurseries conducted by the commonwealth or by any city or town thereof. (Approved May 29, 1919.)

Under authority of section three of the act set forth above the following rules and regulations for the licensing and management of day nurseries in the City of Boston have been promulgated by the Health Commissioner.

RULES AND REGULATIONS FOR THE LICENSING AND MANAGEMENT OF DAY NURSERIES IN THE CITY OF BOSTON.

1. Every person, firm, association, or corporation receiving a child in a day nursery shall record at the time of the admission of such child in a register kept for that purpose, the name and address of such child, the date of its admission, the names and addresses of its parents and guardians or of other persons from whom the child is received, the physical condition of the child, and the reason for its placement in a day nursery; and immediately upon the final withdrawal or dismissal of any child from the nursery, shall enter the time of such withdrawal or dismissal. All written reports and records, and all certificates, showing the results of the medical examination of any inmate of the day nursery, whether during the time the child was an inmate, or before or after that time, relating to its status, as an inmate of the nursery, shall be kept on file by the person, firm, association or corporation conducting said nursery.

2. Every room in a day nursery in which children are kept must be provided with adjustable windows opening directly into the open air, which windows, and all doors, from May 15 to November 15 of

each year, shall be effectively screened so as to prevent the ingress of flies and mosquitoes. Such windows and doors shall be so regulated as to provide the several rooms they serve with an adequate amount of light and fresh air at all times.

3. Every room regularly occupied by children shall contain at least 300 cubic feet of air space per inmate, unless otherwise specially authorized in writing by the Health Commissioner, and the total window area of any such room shall be equivalent to not less than 15 per cent of the floor area. The walls and floors of every such room shall be so constructed and finished as to permit them to be readily cleaned with soap and water.

4. No room which is in any part below the level of the sidewalk or ground outside of the building shall be used regularly for the housing of children, unless such use has been expressly authorized in writing by the Health Commissioner.

5. One or more separate, independent room or rooms shall be provided for the exclusive use of children less than one year old.

6. All floors, walls, window furnishings, furniture and equipment shall at all times be kept clean and sanitary. Dry sweeping and cleaning of rooms is prohibited. No carpets, stuffed furniture, or other unwashable material or furniture, shall be permitted in rooms for the care of children.

7. Suitable lavatory and toilet facilities shall be provided for the children, which facilities shall, with respect to construction, location and elevation, be suitable for their needs. Water-closets shall be provided with "split seats." Separate toilet accommodations shall be provided for boys and for girls of school age.

8. Each bed or crib shall be of metal and when in use shall be placed so that one bed or crib shall be not less than 2 feet from every other bed and crib. Each bed and crib shall be covered with comfortable, easily-cleaned, woven wire or other springs, comfortably and suitably covered by blankets or otherwise. Such blankets or other coverings shall be protected by washable covers of rubber or oil-cloth or of other material impervious to liquids, that can be easily removed and cleaned. Every bed and crib, and everything connected therewith, shall be kept at all times in a clean and sanitary condition.

9. Every day nursery shall have at all times an adequate supply of running hot and cold water.

10. Every day nursery shall be adequately ventilated and heated in accordance with the needs of the inmates. Whenever any room ordinarily occupied by the inmates and in which the windows have been totally or partly closed has been temporarily vacated, as at meal times, all windows shall be opened as long as possible without preventing the room from regaining a proper temperature by the time the children return. When the room is vacated at the close of the day, all windows shall be opened and the room thoroughly aired. Wire screens shall be placed around all stoves, open fireplaces, or other heating apparatus, when in use, unless such heating apparatus are so placed and constructed as to be out of reach of the children.

11. Every day nursery shall be provided with at least one isolating room approved by the Health Commissioner, and if the number of inmates of such nursery exceeds thirty, then one such

isolating room in addition to the minimum specified above shall be provided for each additional thirty children, or part thereof. Such isolating rooms shall have means of ingress and egress otherwise than through rooms occupied by inmates of the nursery, not confined in such isolating rooms; shall have air space of not less than 600 cubic feet per inmate, and shall be provided with a window opening directly into the outer air capable of being opened so as to admit fresh air freely into the room. An isolating room shall contain, when in use for purposes of isolation, no furniture, bedding, carpet or other furnishings that cannot be subjected to boiling water. After an isolating room has been occupied by a child suffering from a communicable disease, including parasitic diseases, or from an illness suspected of being communicable, every article which has come directly into contact with the isolated child, whether before or after admission to the isolating room, shall be immediately washed, the room shall be thoroughly cleaned, the windows of the room shall be left open until the room is thoroughly aired, and such other measures shall be taken with respect to the room and its contents as, under the special circumstances of the cases, appear necessary or advisable to prevent the spread of the disease or suspected disease.

12. Suitable provision shall be made for the daily rest period free from disturbing influences, for all children less than three years old, and for such others as may need that care.

13. Adequate provision shall be made for permitting all children to spend a part of the time during which they are inmates of the day nursery in the open air.

14. No child should be admitted to a day nursery until the following requirements are met:

(a) Except in case of emergency and then only as long as the emergency continues, no child less than three months' old shall be admitted to a day nursery without the written permission of the Health Commissioner, unless such nursery is a part of an establishment wherein the mother is employed and the mother is afforded adequate opportunities to nurse her child.

(b) It must appear from a certificate issued by a physician in good professional standing, satisfactory to the management of the nursery, based upon a personal examination of the child within twenty-four hours immediately preceding admission of the child to the nursery, that the child has no communicable disease, nor communicable vaginitis, nor urethritis, and is free from any mental or physical abnormality reasonably apt to make the child's association with other children in any way detrimental to them.

(c) It must appear from a personal investigation of the child's home and of the records of the Health Department, made by the authorized agent of the licensee of the day nursery, that no member of the child's household nor any person in the building is suffering from any disease reasonably apt to make the child a source of danger to the health of other children in the nursery, and that there are no other conditions in the child's home likely to make the admission of the child detrimental to the welfare of other children in the nursery.

15. Unless it appears beyond reasonable doubt that a child's absence was in no way related to the occurrence in the child or any other persons in the child's home of a case of illness which might make the child a source of danger to other children in the nursery, the foregoing re-

quirements with respect to a certificate of physical examination and personal investigation of the child's home must be complied with before readmitting to the nursery a child who has been absent seven days or more.

16. Immediately upon arrival at the nursery each day each child shall be examined by the superintendent or matron, or by the physician or nurse attached to the nursery. Such examination shall include the following features:

(a) An inspection of the child's head sufficient to disclose the presence of lice or nits if they be present.

(b) An inspection of the seams and neckbands of the child's undershirt, sufficiently close to disclose the presence of body lice if they be present.

(c) An inspection of the child's ears for signs of discharge.

(d) An inspection of the skin of the child's forehead, face, neck, chest, wrists and hands to reveal the presence of ringworm, itch and rash, or beginning pimply eruption of any sort, if it be present.

(e) An inspection of the child's neck sufficient to disclose any acute swelling of the parotid submaxillary or throat glands, if there be any such swelling.

(f) An inspection of the child's eyes for signs of conjunctivitis or of the corneal or other inflammation.

(g) An inspection of the child's nostrils for membrane, scabs or bloody discharge.*

(h) An inspection of the child's throat, including the soft palate, for the presence of membrane or of a papillary eruption or rash.†

(i) If there be any reason to believe that the child is unwell at the time of admission or return, the child's temperature should be taken and if it be above 99.2 degrees Fahrenheit the child should be isolated and treated generally as though it were suffering from a communicable disease.‡

17. A child showing symptoms of any communicable disease, including any parasitic disease, shall be removed as soon as practicable from the nursery in such manner as will comply with the

* These signs are suggestive of nasal diphtheria.

† For the purpose of making this inspection a flashlight or portable electric light should be provided. When necessary to obtain a good view of the throat, a wooden tongue depressor should be used, which after use should be dropped at once into a disinfecting solution in a receptacle provided for that purpose and kept there until burned or otherwise destroyed. An adequate supply of wooden tongue depressors should always be kept on hand.

It is to be remembered that in every acute eruptive disease, rash or eruption in the throat always precedes the appearance of the rash or eruption on the skin, although, of course, such rashes or eruptions are sometimes difficult to detect and are frequently overlooked.

‡ Unless the temperature is taken by a trained worker, familiar with the disinfecting of thermometer and with its use, it is better to take the temperature under the arm or in the groin rather than elsewhere.

For the purpose of taking temperatures, suitable numbers of thermometers should be constantly on hand. When one is used, whether for the taking of a temperature under the arm, in the groin or elsewhere, the thermometer should not be used again until it has been thoroughly cleaned and disinfected. This is most conveniently accomplished by placing the thermometer immediately after use in a proper receptacle in the bottom of which absorbent cotton has been placed so as to guard against breakage and which has been partly filled with a 2 per cent mixture of formaldehyde and water, colored with potassium permanganate or other coloring matter to identify it and prevent poisoning accidents. After removal from the disinfecting solution, the thermometer should be thoroughly scrubbed with a brush in a strong solution of soap and water, carefully rinsed with fresh water and again placed in the disinfecting solution for five minutes or more before being wiped on a clean towel and put away for further use. Before being used again, it should be rinsed or removed with the remains of the disinfecting solution.

regulations of the Health Department and otherwise tend to protect the public. If the immediate removal be impracticable, the child shall be placed immediately in an isolating room, pending removal.

18. A child showing abnormal conditions of doubtful significance shall be removed from the nursery, as provided in the preceding section, or shall be placed at once in an isolating room and shall not be permitted to mingle with other children in the nursery unless a physician in good professional standing, satisfactory to the management of the nursery, shall certify in writing, after a personal examination of the child, that the child is suffering from no condition reasonably apt to make it a danger to the health of other children in the nursery. In event of inability to obtain such a certificate from a physician, the child is to be regarded as manifesting symptoms of a communicable disease and is to be removed from the nursery in accordance with the requirements prescribed in the preceding paragraph. Among the abnormal conditions calling for such action are a rash or suspicious eruptions on the skin; a rash, eruption, or white patches in the throat or mouth; a discharge from the ear; possible secretions other than tears in the eye; acutely swollen glands; a blood-streaked discharge from or scabs or membrane within the nostril; temperature above 99.2 degrees Fahrenheit (37.3 degrees centigrade), by mouth, or 99 degrees Fahrenheit (37.2 degrees centigrade), by axilla; or a temperature above normal for two successive days even though less than the temperature just specified.

19. Unless the clothing on a child is thoroughly clean on admission, a suitable garment shall be provided by the nursery and shall be worn throughout the day. Such nursery garments shall be marked for identification and reserved for individual use, unless a freshly laundered garment is provided daily.

20. Every diaper shall be rinsed out immediately after being soiled and shall be boiled before the end of the day and the soiled diapers shall not be given to mothers to take away from the nursery.

21. Each child shall be supplied with a separate, individual wash cloth and towel, which when not in use shall be hung on hooks provided for the purpose. The hooks shall be so placed and separated that the wash cloths and towels of one child shall not come into contact with the wash cloths and towels of another child. Wash cloths shall not be used longer than twenty-four consecutive hours without having been boiled.

22. Each child shall be required to wash its hands before eating, except in the case of bottle-fed babies and in the case of other children too young to wash their own hands properly. In the latter case, the hands of the children shall be properly washed by attendants in the service of the nursery.

23. Every eating and drinking utensil used by any child shall be thoroughly cleaned with soap or other suitable cleansing material and water and shall be rinsed with clean water before being used by any other child. In connection with the washing or the rinsing of eating and drinking utensils, including glasses, they shall be subjected to boiling water, or to steam at a temperature at or above the temperature of boiling water, for a period of at least five minutes.

24. Bottles and nipples shall be thoroughly washed and sterilized before being used again.

25. Refrigerators and all kitchen uten-

sils shall be kept clean and sanitary at all times. Bottles of milk delivered by milk dealers shall be carefully washed and cleaned before being opened.

26. All food furnished to the nursery shall, with respect to quantity, character, variety and method of preparation, be suitable for the children to whom it is given. Wholesome milk is to be regarded as a necessary, regular part of the diet every day of every child in the nursery.

27. Each child shall be provided with a comb, with a hair brush if necessary, and with a tooth brush if its period of dentition requires it. Every child shall be instructed in the use of the tooth brush and required to use the tooth brush at least once a day if his period of development justifies it. Provision shall be made for keeping combs, hair brushes and tooth brushes in such a way that these articles used by one child shall not come into contact at any time with similar articles used by others.

28. Separate hooks shall be provided for the clothing of each child and the hooks shall be so separated that the clothing of one child shall not come into contact with those of any other child, and the places provided for the hanging of clothing shall be so situated and designed that the clothing shall be at all times exposed to the light and air.

29. Every attendant in the service of the nursery who comes into contact with the children accommodated therein shall be free from all communicable diseases, and of proper health, education, experience and training, to enable her to perform properly her duties. Not more than six children under one year, nor more than ten between one and three years of age, nor more than fifteen between three and twelve years of age, shall be assigned to any one attendant for care.

30. Every person, firm, association or corporation licensed to maintain a day nursery shall make such reports to the Health Commissioner from time to time as may be required by him.

31. Every building occupied in whole or in part as a day nursery shall have such fire protection and shall be provided with such sprinklers, fire escapes, means of ingress and egress and other equipment and facilities for the protection of the inmates against fire as shall be satisfactory to the Building Commissioner.

32. Every person, firm, association or corporation accepting a license under these regulations shall conform to all statutes, ordinances pertaining to the establishment and maintenance of day nurseries and of the specifications in the license; and the license may be revoked at any time by the Health Commissioner. Any violation of the specifications in the license shall work an immediate revocation thereof. The licensee shall indemnify and save harmless from any damage it may sustain or be required to pay by reason of the work licensed or permitted, or by reason of any act of himself or of his employees relating to such work or by reason of any violation of specification.

CHECK SYSTEM IN TREASURER'S OFFICE.

BOSTON, January 13, 1920.

To the Heads of Departments:

GENTLEMEN,—In October, 1918, the City Treasurer departed from the old system of paying the thousands of bills rendered monthly against the City of Boston by inaugurating a voucher check system of payment. This new method has proved a real success and a great

accommodation to the many corporations, firms and individuals doing business with the city, and further it cleans up every month all bills that have been authorized for payment on the draft.

The voucher check system of payment is a large monthly operation and puts the treasurer's office under high pressure during the latter part of each month in order to get the checks out promptly, even under favorable conditions. But during recent months conditions have been growing more and more unfavorable due to the delay in the delivery of bills to the City Auditor by the various departments as required under the ordinances. The Treasury Department must have the real co-operation of all department heads if this work is to be properly and efficiently done.

Therefore, I direct every department head to deliver all bills to the City Auditor as required by the City Ordinances, 1914, chapter 3, section 19, "on or before the 15th of each month." Many departments should be able to deliver their bills before the 15th, but all departments must deliver their bills by the 15th.

The attention of the heads of departments was called to this matter by a circular letter issued by the City Auditor under date of August 28, 1918, but the request therein has not been lived up to by many.

Very truly yours,
ANDREW J. PETERS,
Mayor.

PUBLIC DEBT, 1919.

Gross funded debt, February 1, 1919, \$127,124,217.69 (including \$400,666.69 issued by state for enlargement of Court House); sinking funds, \$43,068,184.85; other redemption means, \$1,589,130.09; net debt, \$82,466,902.75 (*i. e.*, \$2,103,274.29 less than on February 1, 1918), of which \$49,778,039.21 (*i. e.*, 60.36 per cent) was city debt; \$130,862,113.95 (*i. e.*, 37.42 per cent) Rapid Transit debt (the latter self-paying); \$1,474,749.59 (*i. e.*, 1.79 per cent) county debt, and \$352,000 (*i. e.*, 0.43 per cent) water debt. Net debt per capita (estimated population, 794,817) \$103.76; net debt exclusive of Rapid Transit debt, \$51,604,788.80, or \$64.93 per capita, which is \$25.54 less per capita than in 1907. Loans authorized but not issued (within debt limit) \$440,000.

In the fiscal year 1918-19, the net city debt was reduced by \$2,420,386.24; the net county debt by \$148,474.18; and the net water debt by \$16,000. The net rapid transit debt, *i. e.*, for new tunnel construction, was increased by \$481,586.13. Total debt contracted, \$2,220,500; total debt paid, \$3,694,646.66; total decrease of gross debt, \$1,474,146.66; of net debt, \$2,103,274.29. There has been no such debt reduction since 1901.

Total debt incurred in the ten years 1908-18, \$52,868,633, of which \$20,868,000, or 39.5 was rapid transit debt.

Total amount of debt incurred by the city in the 96 years since its incorporation (in 1822), \$256,113,937, of which 60 per cent belongs to the last 25 years, *i. e.*, 1894 to 1918, inclusive.

LOANS DECREASING IN BOSTON.

In the eight years 1911-1918, inclusive, the yearly average of debt contracted for other than rapid transit construction was \$3,181,796, while in the eight years, 1901 to 1908, inclusive, the yearly average was \$5,210,356, showing a decrease in the latter period of \$2,028,560 yearly, or 38.9 per cent.

LEGISLATIVE MATTERS AFFECTING BOSTON.

RE-EXAMINATION OF PENSIONED FIREMEN.

A bill has been introduced by the Mayor at the suggestion of the Fire Commissioner to allow the Fire Commissioner in his discretion to require any fireman in receipt of a pension on account of disability to submit to a re-examination by a physician designated by the Fire Commissioner, to ascertain whether such disability still exists; and also, to allow the Fire Commissioner, in case of emergency, to call upon pensioned firemen for temporary service in the department, and providing that during such service the firemen so called on shall have full pay.

INCREASED INTEREST ON UNPAID TAXES.

A bill has been introduced by the Mayor providing for an increasing rate of interest on taxes, the payment of which has been delayed beyond the time when the same became due. By the terms of this bill, the rate is to be 6 per cent if the taxes are not paid within two months, 8 per cent if not paid within four months, and 10 per cent subsequent to four months. It is believed by the Mayor that this bill, if passed, will have an important effect in aiding the finances of the city by securing prompt payment of taxes.

The great difficulty in the collection of taxes has been not that taxes are not ultimately paid, because the city has collected 99.67 per cent of the taxes for 1917, but that there is delay in the payment of the taxes owing to the fact that since the change in the law, no penalty is provided.

RATE OF TAX ON INCOMES, ETC.

The Mayor has filed a petition for the passage of an act relative to the rate of the tax on incomes from intangible property and from trades and professions or for further or similar legislation. This petition is accompanied by a bill raising the rate on income from intangible property from 6 to 8 per cent. It does not represent the settled view of the Mayor as to what should be done, but is introduced in order that the General Court may have before it a petition and bill allowing legislation along all such lines as may be later suggested after conference with the committee recently appointed by the Mayor to discover new sources of revenue other than taxation of real estate.

ABOLITION OF LICENSING BOARD.

Mayor Peters has requested the Corporation Counsel to introduce a bill in the Legislature to abolish the Licensing Board and to transfer the powers and duties of the Board to the Health Department. The reason for this action on the part of the Mayor is obvious. The chief function of the Licensing Board, the licensing and supervision of places where liquor is sold, is now a thing of the past and the other chief functions of the Board, the licensing and supervision of common victuallers and lodging houses, are logically functions which should be discharged by the Health Department. The transfer of the powers and duties of the Licensing Board to the Health Department will effect a material saving. Last year the appropriation for the Licensing Board amounted to approximately \$39,000, and

it is estimated that the Health Department will be able to assume the remaining functions of the Licensing Board and discharge them at a net saving to the city of over \$30,000 a year.

The petition and bill introduced by the Mayor are as follows:

PETITION.

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The undersigned, Mayor of the City of Boston, respectfully petitions for the passage of an act to abolish the Licensing Board for the City of Boston, substantially as set forth in the accompanying bill or for such other, further or similar legislation, if any, as may be necessary or advisable to carry out the objects and purposes referred to.

ANDREW J. PETERS, Mayor.

BILL.

THE COMMONWEALTH OF MASSACHUSETTS.

In the Year One Thousand Nine Hundred and Twenty.

AN ACT TO ABOLISH THE LICENSING BOARD FOR THE CITY OF BOSTON.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. The licensing board for the city of Boston, existing under authority of chapter two hundred and ninety-one of the acts of nineteen hundred and six and acts in addition thereto or amendment thereof, is hereby abolished. All the rights, powers, duties and obligations of said licensing board are hereby transferred to and shall hereafter be exercised and performed by the health department of the city of Boston, which shall be the lawful successor of said licensing board. All books, papers, records and all other equipment in the possession of the licensing board or of any member or officer thereof shall be delivered to the health department.

SECT. 2. This act shall take effect upon its passage.

ANNEXATIONS TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included.

OFFICIAL COMMUNICATIONS.

CIRCULAR FROM THE MAYOR.

Boston, January 15, 1920.

To the Heads of Departments:

GENTLEMEN.—Estimates for the new year are to be submitted not later than January 22, 1920. Budget sheets are now ready and may be obtained at the office of the Budget Commissioner, 307 City Hall Annex.

All columns are to be filled out by the departments; the current year's expenses to be estimated as closely as possible; intelligent surveys of department expenses will suggest many economies that may be practiced, without detriment to good service; the purchase of materials and supplies should be limited to minimum needs; orders for new equipment should be deferred as long as possible, and only absolutely essential repairs to property should be made during the coming year.

Successful budget making begins with carefully prepared estimates submitted by the various departments. You are urged, therefore, to estimate for such amounts only as can be supported by adequate reasons. Frequent interviews with the Budget Commissioner will be of assistance to you in preparing your estimates.

I desire that you give most careful consideration to the statements which I made at the meeting of department heads in the Old Aldermanic Chamber yesterday afternoon, January 14, and for that reason I am incorporating the statement in this letter. The principles laid down in this statement should be your only guide.

ANDREW J. PETERS, Mayor.

STATEMENT BY MAYOR PETERS TO DEPARTMENT HEADS ON PREPARATION OF BUDGET.

Boston, January 14, 1920.

I have called you together this afternoon to go over the question of the preparation of the budget, which, as the beginning of a new fiscal year is rapidly approaching, must shortly be submitted. At a much earlier date last year I indicated to the department heads the general principles to be followed, but this year, because of the uncertainty as to what sums might be available for appropriation and because of the fact that every indication pointed to less income from taxation and other sources than was necessary to care for the needs of the departments, I delayed my decision as to the financial policy of the city until it was fairly clear just what sums would be available for appropriation. I am now in a position to indicate, particularly with reference to salaries, what principles should be followed.

Needless to say, the strictest principles of economy should be followed in the preparation of the budget. In the first place, department heads should include no item which can, without serious detriment to the service rendered the public, be eliminated this year. I appreciate, and I know you all appreciate, that a very large proportion of the city's annual expenditure is fixed and cannot be reduced without serious injury to efficient government. Bear this fact in mind. But also remember that to a proper exercise of economy in expenditures is due, to a considerable degree, the success or failure of municipal government.

In the second place, every department head should investigate most carefully all of the positions in his department with a view to eliminating those positions which are unnecessary. His recommendations

based on his investigations should be without fear or favor. If a position is necessary from the standpoint of good business organization it should remain. If it is unnecessary, it should be abolished. The department head is intrusted with the expenditure of public funds. He must discharge that trust to the best of his ability and in the best interest of the public. He must realize that we will be held to the same accountability as the department head in a private corporation, where the department managers are judged by the degree of efficiency which they exact from their departments. There is no half way point. The department head must be faithful to his stewardship.

SALARY INCREASES.

The problem of wage and salary increases has been a most difficult one. During the past six months much of my time has been devoted to interviews with the representatives of the various groups of city employees, who desired to present their reasons for increased compensation.

I appreciate that certain inequalities exist in the salary and wage schedules of city employees, but I appreciate also that today my chief duty to the city employees is to give what measure of relief the financial capabilities of the city will permit me to give, that municipal employment may be able to cope the better with the greatly increased costs of living. In short, while I have as far as possible sought to correct inequalities in wage and salary schedules, my first duty has been to give relief where it was most needed, provided, of course, that the character of service rendered by the employee merited consideration.

In this connection let me revert to the responsibilities which must devolve upon department heads. The principle of the segregated budget places upon the department heads the duty of fixing compensation subject to the approval of the Mayor. This is both just and wise, for the number of city employees and the circumstances of their employment make it impossible for the Mayor to have personal knowledge of their efficiency or necessity in the municipal organization. The Mayor must, therefore, rely upon the recommendations of his department heads in fixing compensation, and all that he can do is to indicate the general principles that should be followed according to the money which will be available for expenditure during the coming year. The general principle that I have decided upon I shall indicate in a moment, but before doing so I desire to make it clear that under no consideration should department heads recommend an increase, either where the rate paid is a fair maximum for the service performed or where the character of the service rendered by the employee does not merit an increase in salary.

SCHEDULE OF POSSIBLE INCREASES.

The following table will indicate to you the maximum increases that I shall be willing to consider on the recommendation of the department heads. All increases if approved will be effective on April 1, 1920, in the case of municipal employees on a monthly basis, and on April 2, 1920 (the beginning of a week), in the case of municipal monthly employees on a weekly basis.

PLAN FOR INCREASES.

Foremen, civil engineers, inspectors, clerks, etc., on salary basis, who have received no increase during the years 1918-19, not to exceed \$300 per year.

Foremen, inspectors, civil engineers,

clerks, etc., on a salary basis, who received any increase during the years 1918-19, an increase not to exceed \$200 per year.

Mechanics, laborers, janitors, etc., an increase not to exceed 50 cents per day.

Library employees, reasonable increases, to be determined by the library trustees.

Resident employees in hospitals and other institutions, who receive board in part payment and are less affected by fluctuations in prices, moderate increases.

Police Department: Officers, \$500 per year. Patrolmen receiving \$1,500 and \$1,600 at present, \$200 this year, establishing a maximum of \$1,800 per year to be attained by yearly increments of \$100 per year, until the maximum is reached.

Fire Department: Officers, \$500 per year. Engineers and privates receiving \$1,500 and \$1,600 at present, \$200 this year, establishing a maximum of \$1,800 per year, to be attained by yearly increments of \$100 per year, until the maximum is reached.

Every right thinking chief executive is desirous of improving and developing the service which the organization, entrusted to his care, gives to the citizens. We should all bear in mind that in a great many instances the luxuries of yesterday in municipal service are the necessities of today. This, I believe, is particularly true of the departments which are charged with the care of the health and welfare of the people. Be careful therefore not to practise false economy. The line is clearly drawn between false economy and good service. Remember that the people of Boston, whose servants we are, demand and have a right to expect both economy and efficiency. The terms are synonymous, but be careful they are not made the tools of waste and extravagance.

Let me urge upon department heads a greater co-operation between them and their employees. I am certain that such co-operation will both develop and improve the service rendered the public without materially increased cost. And I particularly wish to emphasize the importance of keeping me fully informed of the problems confronting you in the discharge of your duties, and I hope that you will give me the benefit of the ideas for improved service that your daily experience is bound to develop.

Prepare your budgets with the utmost care. Eliminate every position or item which can be eliminated without serious detriment to the service rendered to the public. Economy in its best interpretation should be your only guide.

COMMITTEE APPOINTMENTS.

ON DISPOSITION OF FERRYBOAT "NODDLE ISLAND."

The Mayor has appointed Professor Jack, head of the department of naval architecture of Technology, who, with two marine surveyors to be named later, will pass on the condition of the hull and engine of the "Noddle Island." The ferryboat is in very bad condition and the above commission is appointed to determine whether it is advisable to put out money on repairs.

ON NEW SOURCES OF REVENUE.

The Mayor has announced the appointment of Nathan Matthews, chairman; Francis R. Bangs, Edward T. Kelly, W. Eugene McGregor, Laurence Minot, Prof. W. B. Munro, Malcolm E. Nichols, George R. Nutter, A. C. Ratschesky and John A. Sullivan as the committee to consider and suggest not only new sources of revenue for the city but also methods of economy in the administration of the city government.

(a) Afternoon sessions: Minimum age, six years; provided, that local managers may, in their discretion, admit children of younger age when accompanied by parents, or by adults in charge thereof.

(b) Evening sessions: To persons who are not attending a regular day school; provided, however, that day school pupils may be admitted to special group meetings and to assembly hall programs at the discretion of the Director of the Extended Use of Public Schools, the principal of the day school which such pupils attend, and the local manager of the school center, when such pupils are accompanied by their respective parents, or by adults, who assume responsibility for the proper conduct of such pupils. These restrictions shall not apply to meetings of boy scouts or of girl scouts, nor to special groups organized for the benefit of day school pupils.

SALARY SCHEDULE FOR TEACHERS, MEMBERS OF SUPERVISING STAFF, AND OTHERS, JAN. 1, TO AUG. 31, 1920, INCLUSIVE.

The following twenty-eight orders, establishing a salary schedule for teachers, members of the supervising staff, and others, for the period Jan. 1 to Aug. 31, 1920, were submitted:

1. ORDERED, That the salaries of teachers, members of the supervising staff, and others in the public schools are hereby established for the period January 1 to August 31, 1920, inclusive, in accordance with the following schedules and subject to the following restrictions:

1A. ORDERED, That the salaries of teachers, members of the supervising staff, and others who receive annual salaries, which have been fixed by Order 1A of the salary schedule for the year ending August 31, 1919, shall, during the period January 1 to August 31, 1920, inclusive, be fixed and advanced in accordance with the provisions of said order; provided, that the salaries of such persons in those ranks in which the minimum and maximum salaries in the following schedules have been increased over the minimum and maximum provided in the existing schedules by the same amount, be advanced by said amount on January 1, 1920, and the salaries of such persons shall thereafter be advanced on their several anniversaries by the annual increment provided in the following schedules; and provided further, that the final increment shall be such amount as shall place the teacher on the maximum salary of the rank.

1B. ORDERED, That the salaries of teachers, members of the supervising staff, and others who receive annual salaries, which have been fixed by Order 1A of the salary schedule for the year ending August 31, 1919, shall, during the period January 1 to August 31, 1920, inclusive, be fixed and advanced in accordance with the provisions of said order; provided, that the salaries of such persons in those ranks in which the minimum and maximum salaries have been increased over the minimum and maximum provided in the existing schedules by unequal amounts, shall be advanced in the following manner:

(a) The salaries of those teachers, members of the supervising staff, and others who have not reached the maximum salary of the existing schedule or who have not served one year on said maximum salary, shall, on January 1, 1920, be advanced by the amount of the increase in the mini-

mum of their respective schedules over the minimum of the existing schedules; and the salaries of such persons shall thereafter be advanced upon their respective anniversaries by the annual increment provided in the following schedules until the new maximum of their ranks is reached; provided, that the final increment shall be such amount as shall place the teacher upon the maximum salary of the rank.

(b) The salaries of those teachers, members of the supervising staff, and others who on December 31, 1919, have reached the maximum salary of the existing schedules, and who have served one full year thereon, shall on January 1, 1920, be advanced by the amount of the increase in the maximum of the following schedule over the maximum of the existing schedule.

1C. ORDERED, That the salaries of masters of day elementary and day intermediate schools which have been fixed by Order 1B of the existing salary schedule shall, during the period January 1 to August 31, 1920, inclusive, be fixed and advanced in accordance with the provisions of said order; provided, that the salaries of such masters shall on January 1, 1920, be advanced by the amount of two hundred forty dollars (\$240) per annum, and the salaries of such masters shall thereafter be advanced upon their respective anniversaries by the annual increment provided in the following schedule until the new maximum of their rank is reached; and provided further, that the salaries of those masters who have reached the maximum of the existing schedule on December 31, 1919, shall, on January 1, 1920, be advanced by the amount of one hundred twenty dollars (\$120) per annum to the new maximum of their rank in the following schedule:

PUBLIC CONVENIENCE STATION, BRIGHTON.

The following was received:

City of Boston,
Office of the Mayor, January 12, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a communication from the Superintendent of Public Buildings, prepared in accordance with the order passed by the City Council on January 5, requesting the Superintendent of Public Buildings to furnish the City Council with an estimate of the cost of providing a public convenience station in the basement of the Old Town Hall, Brighton.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Public Buildings Department,
January 10, 1920.

Mr. Fred J. Kneeland, Superintendent.

Public Buildings Department:

Dear Sir,—In compliance with your order to make an examination of the Old Town Hall, Brighton, and furnish an estimate for installing a convenience station in that building, I wish to report the following:

I find that the building is poorly laid out to meet the requirements of a public convenience station and it would be difficult to obtain the proper ventilation, light and approaches.

As a station to serve the public would need to be designed for both sexes, the approaches and entrances would have to be separate. There is an opportunity to make an entrance to the men's compartment, but the women's entrance would have to be made from the first floor through a room that is used at present as an anteroom to the wardrobe and down a stairs to the basement, as it would be impossible to make it from Waldo terrace.

The portion of the basement that would be available for the purpose was originally used as a lockup for police purposes and has a series of cells built of brick walls. Those would have to be removed and a new partition wall built of brick to separate it from the other part of the basement.

I can say that it would be possible to install a compartment for men with six water-closets, one 6-foot wall urinal, three wash bowls and one slop sink, and for the women's compartment four water-closets, three wash bowls and an instantaneous water heater that would supply both compartments.

The following estimates will show the approximate cost of installation:

Mason work.....	\$675 00
Plumbing.....	2,500 00
Carpentry.....	550 00
Electric work.....	250 00
Slate work.....	625 00
Terrazzo work.....	480 00
Heating.....	350 00
Hot water heater.....	325 00
Painting.....	175 00
Incidentals.....	75 00

Total..... \$6,005 00

Respectfully yours,
WILLIAM T. BRADY, Inspector.
Referred to the Executive Committee.

GIFT OF LAND, CHARLESTOWN.

The following was received:

City of Boston,
Office of the Mayor, January 8, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a letter from George Holden Tinkham offering as one of the heirs of Joshua Bennett, in conjunction with the other heirs, the gift of a parcel of land belonging to said heirs and immediately adjoining the Bunker Hill School in Charlestown for playground purposes.

I have submitted this offer to the Park and Recreation Department and I am herewith transmitting a letter from the department recommending that the property be accepted by the City of

Boston. It is apparent that it would make an ideal location for a playground for small children, and I therefore recommend that the City Council accept the parcel of land for the Park and Recreation Department for playground purposes.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Boston, November 4, 1919.

Hon. Andrew J. Peters,

Mayor of Boston:

My dear Mr. Mayor,—As one of the heirs of Joshua Bennett, late of Billerica, in conjunction with the other heirs, I desire to tender to the City of Boston as a gift the land belonging to said heirs immediately adjoining the Bunker Hill School in Charlestown for playground or other purposes. The lot contains about 4,962 square feet and is now unoccupied. This land was offered to the School Committee on July 10 last, but, I am now informed, that the offer should have been made to you. Therefore, I am sending you this communication.

If, on behalf of the City of Boston, you desire to accept this land, will you kindly instruct me what to do in order to perfect the gift?

With kindest personal regards, I remain,
Very truly yours,
GEORGE HOLDEN TINKHAM.

City of Boston,
Park and Recreation Department,
January 2, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—In answer to your letter of November 7, 1919, with inclosure from the Hon. George Holden Tinkham, offering, as one of the heirs of Joshua Bennett, a parcel of land in Charlestown, containing 4,962 square feet, I beg to report that this land adjoins the Bunker Hill Grammar and Primary Schools. It would serve only very young children, and should be developed in the same manner as the children's corners in our playgrounds.

A suitable shelter and apparatus for small children, with suitable playground surfacing and inclosed with a wire fence, could be had for the sum of \$5,000. A concrete or masonry wall inclosure would cost \$5,000 more.

I recommend that you accept it, either for this department or for the School Department, as it is in a congested neighborhood and the land would be acceptable for the young children.

Very respectfully yours,
JAMES B. SHEA, Chairman.

Ordered, That the gift to the City of Boston by the heirs of Joshua Bennett of a parcel of land adjoining the Bunker Hill School in Charlestown, as set forth in a communication from George Holden Tinkham to the Mayor, under date of November 4, 1919, be and the same hereby is accepted, and said land, upon coming into the possession of the city shall be hereby placed in the custody of the Park and Recreation Department, to be used as a playground for small children.

BUILDING FOR FIRE AND POLICEMEN, NORTH END.

The following was received:

City of Boston,
Office of the Mayor, January 10, 1920.
To the City Council:

Gentlemen,—When the molasses tank collapsed in the North End over a year ago it demolished the quarters of the crew of Engine 31, one of the fireboats. Permanent quarters for this crew must be provided at the earliest possible moment and it seems advisable to locate the house on its former site, adjoining the North End paving yard.

Recently the Police Commissioner brought to my attention the inadequacy of the docking facilities for the police boat at Constitution Wharf and suggested that other docking facilities be acquired by the city, recommending a site on which it would be possible to build a new building for Station 8, the Harbor Division of the Police Department.

I suggested that a building sufficiently large to house both the crew of Engine 31 and the members of Police Division 8 be built on the former site of Engine House No. 31 and a portion of the North End paving yard which the Commissioner of Public Works states is not needed in his work. There are ample docking facilities for the fireboat at the wharf at this spot and the police boats may be tied up at the wharf adjoining the North End Park immediately next to the proposed location of the new building. While both groups of men will be housed under the same roof, they will have quarters which will be entirely separate. This arrangement is satisfactory to both the Police Commissioner and the Fire Commissioner. I therefore recommend the passage of the accompanying order to provide money for the plans and specifications for the building.

Respectfully,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of five thousand dollars (\$5,000) be and hereby is appropriated to be expended by the Superintendent of Public Buildings for the preparation of plans and specifications for a building for the crew of Fireboat 31 and

Division 8 of the Police Department, said sum to be charged to the Reserve Fund.
Referred to the Executive Committee.

REORGANIZATION OF SUPPLY DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, January 12, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a copy of the report recently made at my request by Stone & Webster on the reorganization of the Supply Department. You will note that the report advises an increase in the salary of the Superintendent of the Supply Department from \$3,000 to \$6,000 per annum. I believe this change is essential to the successful reorganization of the Supply Department, and I therefore recommend the passage of the accompanying amendment to section 5, chapter 3, of the Revised Ordinances of 1914.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Boston, December 29, 1919.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—Replying to your letter of November 24, 1919, requesting that we make an examination of the Supply Department of the City of Boston, we have to report as follows:

A more complete record of contracts, orders and invoices should be kept.

The bid list file should be periodically checked to make sure that the Supply Department is dealing at all times with the best available sources of supply.

We believe that a considerable saving can be effected by combining the requirements of all city departments for such material as they use in common, and by placing orders or contracts for such materials at such times during the year as the Superintendent of Supplies may feel that minimum prices prevail. By so doing a uniform quality of materials can be obtained and prices will be consistent with the larger quantities purchased and the low markets.

Materials should be purchased in so far as possible on a specification basis, all materials to be subject to sample and inspection.

Suitable records of service and durability should be maintained to serve as a basis for future purchasers.

We have looked into the question of establishing a city laboratory, and believe this would be an undesirable outlay. The amount of work to be done would be so small that the employees could not be kept continuously busy, and we believe that the annual expense of testing would be much less if the work were done by commercial laboratories.

More space is needed by the Supply Department to enable them to properly do their work and take care of their records.

A man should be placed in charge of the department at a salary of, say, \$6,000, who has had experience in purchasing and who has knowledge of specifications and of the concerns from which to make inquiries.

We strongly recommend the establishment of a General Stores Department, with a general storekeeper reporting either to the Supply Department or direct to the Mayor. The general storehouse should be located at the most convenient place in the city proper, probably Albany street, with substores in one or more of the outlying districts.

We recommend that a moderate reserve of bituminous and anthracite coal be kept to provide against cases of extreme emergency.

An inventory should be taken at once of all materials and supplies now on hand in the various departments and yards, and the departments relieved of any surplus of such materials and supplies that they may be carrying, by the general storekeeper taking over and allowing credit for such surplus. The general storekeeper should be held responsible to the auditor for the proper accounting for all material and supplies, and his accounts and stocks should be subject to check and inspection of the Auditing Department.

The inspector and weigher of coal and the inspector and weigher of hay and grain should be transferred from the Supply Department to the General Stores Department, where they can give greater service than in their present positions.

All second-hand material, as soon as released, and unused material left over from completed work, should be taken back by the stores department for use again, or disposal by sale or otherwise, credit being given to the account originally charged.

An inventory should be taken at least once a year and in time to arrange adjustments of overages or shortages before the close of each fiscal year. The accounting and other details covering operation of stores department are very nearly standard and entail relatively small additional expense.

The General Stores Department probably could be organized at relatively small expense outside of the general storekeeper's salary of, say, \$3,000 per annum.

SYSTEMS.

The systems employed in the Supply Department are those usually found in most offices of the kind, but the present force is inadequate to keep the records up to date.

An organization should be effected which would give the chief clerk an opportunity to act as assistant to the superintendent, and to have actual control of the discipline of the office. Two high grade additional clerks would probably enable him to keep the work and records up to date.

Arrangements should be made to take advantage of discounts allowed by merchants for prompt payment of invoices—this would probably amount to several thousand dollars each year.

REQUISITIONS.

Requisitions by the several departments are signed by the chief clerk personally, or in his name by one of his subordinates, and occasionally by the head of the department. In some cases signatures and initials are written with the type-writer or rubber stamp. Requisitions are in duplicate (book form), the original being forwarded to the Superintendent of Supplies, and duplicate and book retained by the department ordering. Each department has separately numbered sets of requisitions (color scheme), and the Superintendent of Supplies uses for his orders the same separate sets of numbers. A carbon copy of the order is retained by the Superintendent of Supplies and no other record is kept of it.

We recommend that requisition forms be one series of number and one color, and that they be furnished by the Supply Department. Record of such deliveries should be kept by dates and numbers, order numbers should be noted on all requisitions, which should then be filed numerically for each department separately.

The Superintendent of Supplies should be furnished by the several heads of departments, with lists showing the names and signatures of all persons authorized to order materials and supplies, and instructions given that requisitions received without such signatures will not be accepted.

ORDERS AND INVOICES.

The Superintendent of Supplies now writes orders in duplicate, one copy going to the merchant and the other to his own files. We recommend that an additional copy be made and forwarded at once to the department making the requisition.

We recommend that invoices for material be made in triplicate, the merchant to forward the third copy to the person to whom the material is shipped. This party will certify on the triplicate invoice that the supplies have been received and that quantities, quality and weights are correct, and then forward to the head of his department, who will then be able to approve for payment. When certified for payment, the original invoice can go to the auditor in the regular way. The duplicate invoice will not leave the office of the Superintendent of Supplies, but will become a permanent record in that office. A loose-leaf record of invoices and a loose-leaf record of orders placed should be kept and indexed by the company names.

A price list card is very necessary to the work in the office and should be kept up to date at all times.

Contracts are filed alphabetically and we recommend that these be kept in a locked fireproof file, properly indexed.

If there is any further information or help we can give you, please do not hesitate to call on us.

Yours very truly,
STONE & WEBSTER.

In the year Nineteen Hundred and Twenty.
An Ordinance Concerning the Salary of the Superintendent of Supplies.

Be it ordained by the City Council of Boston, as follows:

Chapter three of the Revised Ordinances of 1914 is hereby amended in section five in the clause establishing the salary of the superintendent of supplies by striking out the word "three" and inserting in place thereof the word "six."

SURVEY OF POLICE STATIONS.

The following was received:

City of Boston,
Office of the Mayor, January 9, 1920.

To the City Council:

Gentlemen,—In accordance with the order passed by the City Council on December 18, 1919, relative to a survey of city police stations, I have requested Mr. Ralph A. Cram, chairman of the City Planning Board, and Mr. Herbert A. Wilson, Building Commissioner, to work in conjunction with your committee.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

MATTERS CONCERNING STUART STREET ACT.

The following was received:

City of Boston,
Office of the Mayor, January 12, 1920.

To the City Council:

Gentlemen,—I am herewith transmitting to you a copy of an opinion just received from the Corporation Counsel relative to certain matters in connection with the acceptance of the so-called Stuart

Street Act, together with a copy of a letter from W. J. McDonald and J. S. Draper relative to certain undertakings by them in connection with the construction of the so-called western artery.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Boston, January 12, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—You notified us that the City Council desired you to ascertain what agreements, guaranties, or bonds would be offered on behalf of those interested in the Park Square Real Estate Trust to comply with the terms of section 7, chapter 329, of the Special Acts of 1917.

In response to your request that we should furnish you with information on this point, we beg to say that we have been considering the matter for some time now in connection with the Street Commissioners. We have this last week taken the matter up in detail with Mr. O'Callaghan, chairman of the Street Commissioners, and we give the following figures as his estimate on the cost of the project, based on a 70-foot width for Stuart street:

Land-takings and street construction work will not exceed.....	\$3,118,000 00
Estimated collectible betterments at least.....	1,400,000 00
	<u>\$1,718,000 00</u>
Estimated excess takings, approximately.....	117,000 sq. ft.

In order to reimburse the city for the difference shown above between the cost of the project and the estimated betterments, namely, \$1,718,000, we will agree to purchase from the city at a price of \$15 per square foot all of the excess takings which the city makes. If the city can sell these excess takings to other parties for \$15 per foot or better we shall be glad to be relieved from our obligation.

117,000 square feet at \$15 per square foot equals \$1,755,000.

It is understood in accordance with section 7 of said chapter 329 that if the net cost to the city is less than the amount which we pay to the city for excess takings that the city will reimburse us for the difference.

Since we originally undertook to buy the city's excess takings for a price sufficient to reimburse it for the cost of the project, real estate speculators have purchased some of the property which would be included in the project. These speculators are now holding for prices considerably higher than they paid and the longer the delay the greater the purchases made by speculators and the higher the prices. We therefore feel that we cannot enter into this obligation to relieve the city unless the matter is promptly arranged. If, therefore, the City Council does not accept the statute on or before February 1 we shall have to withdraw from our undertaking.

Yours very truly,
W. J. McDONALD.
J. S. DRAPER.

City of Boston,

Law Department, January 10, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—In letter dated January 8, you request information as to whether or not it is necessary for the City Council, in addition to accepting the act, to pass on the form of guaranty required by section 7 of the so-called Stuart Street Act.

In order to comply with the terms of the act, more land than is needed for the actual laying out, construction or relocation of the highways and streets and the widening thereof must necessarily be taken. I am of the opinion that the City Council and your Honor, representing the city, will be obliged to enter into such agreements or take such guaranties or bonds as may be deemed advisable, providing for reimbursement to the city.

Yours very truly,
ARTHUR D. HILL,
Corporation Counsel.

SANITARY CONDITIONS, BOILER ROOMS, EAST BOSTON FERRY.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1920.

To the City Council:

Gentlemen,—I am herewith transmitting to you a report just received from the Health Commissioner in connection with the order passed by the City Council for an investigation of sanitary conditions of the boiler rooms on the East Boston Ferry.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,

Health Department, December 22, 1919.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—I have the honor to acknowledge the receipt of your memorandum of July 25 last,

transmitting a request of the City Council for a report on the sanitary conditions of boiler rooms on the East Boston Ferry. I regret the delay that has occurred in transmitting this report, which has been due in part to circumstances over which this department had no control.

Careful investigations of the sanitary and livable conditions in the boiler rooms on the East Boston ferries were made promptly after the receipt of your memorandum, and I personally traveled back and forth in these boiler rooms in order that I might better appraise the conditions under which the men employed there had to work. A report of the result of such investigations was drawn up under date of September 8 last, which I am appending below, as representing conditions existing at that time. I am doing this rather than undertaking to make an investigation and report upon present conditions because by the course adopted I am able to give you a more prompt report, and because by reporting conditions as they then existed the report cannot be open to criticism as failing to disclose conditions as they existed when the request of the City Council was made and as disclosing them after opportunity had been allowed for correcting such objectionable conditions as might then have existed. I understand, however, that certain improvements have been made in the boiler rooms of the ferries named.

The report as drafted under date of September 8, 1919, is as follows:

"A careful investigation was made of the engine rooms and the boiler rooms of all the ferryboats in the service of the City of Boston. It can be said generally that the sanitary conditions of these rooms was unsatisfactory, but in view of the fact that there is in the service of the Health Department no architect or engineer familiar with the design and construction of such quarters, the department is not in a position to make specific recommendations as to the best possible methods for remedying such conditions; the most it can do is to point out conditions to which exceptions might be taken, and to suggest remedies.

"Ventilation.—The inadequacy of the ventilation on these boats may be inferred from the fact that provisions originally made for ventilating the engine rooms and the boiler rooms, namely, certain openings near the ceilings of these rooms and immediately below the lower deck, have been closed. If these openings were necessary in the first place, and the designers were necessary in the first place, and the designers of the boats seem to have so regarded them, then the closing of these openings without making any compensating openings implies inadequacy of existing ventilation. It appears that these openings were closed because of orders received from Federal steamboat inspectors on duty in this district, the orders being the outcome of the accident whereby a boat overturned in the Chicago river, with considerable loss of life.

"In all of the ferryboats provision has been made for the maintenance of a system of artificial ventilation, by means of forced draft. In the 'D. D. Kelly,' however, the ventilating system has never been connected with the power plant, and therefore has never been operated. The installation of the ventilating ducts, with proper fan, may be accepted as evidence of the recognized need for forced ventilation, and the fact that power has never been provided to operate the system must be regarded as evidence of the admitted inadequacy of the ventilation in this boat.

"The ventilating systems in all the ferryboats are so designed that such fresh air as is forced into the boiler rooms is conducted to the boiler rooms through long horizontal ducts which pass through the engine room and over the boilers before opening into the engine room. The result is that the fresh air introduced through these ventilating ducts is, when discharged into the boiler room, about as hot as the air already there. Such cooling effect as these ducts have is exhausted in cooling the air near the ceiling and particularly over the furnace, without material relief for the firemen. While a proper tempering of the air brought into the boiler room, and into the engine room, too, for that matter, is desirable during the cold portions of the year, the overheating of the air during the summer season is objectionable. It is suggested that provision be made for an alternative inlet, whereby during the summer season fresh air for the boiler room can be taken directly from the outer air without passing through the engine room and over the furnace; and whereby during the winter months some or all of the fresh air introduced can be brought in through the engine rooms and boiler rooms, so as to adequately temper it before it is discharged.

"Drinking Water.—The drinking water provided for the men employed in the engine room and in the boiler room is furnished in open buckets, and the common drinking cup is in use. From a sanitary standpoint it would appear to be advisable to abolish the use of the common drinking cup, and from the sanitary standpoint, and the standpoint of economy also, drinking facilities should be provided that do away with the necessity for dipping the drinking cup into a common supply of drinking water.

"Toilet Accommodations.—The toilet accommodations on the 'D. D. Kelly' are extremely crude, inconvenient, and with difficulty kept clean. Better facilities should be provided if possible.

"General Sanitation.—The decks should be made water-tight, so as to prevent the dripping of urine and other filthy liquids into the engine and boiler rooms. The bilge should be pumped regularly.

"Rule 17 of the 'Rules and Regulations for the

Employees of the Ferry Service,' which reads: 'The boat watchman when going on duty must see that the boat is properly cleaned and ready for service the following morning,' should be strictly enforced."

Since the foregoing report was written my attention has been called to the fact that it may be construed as meaning that all of the boats other than the "D. D. Kelly" were equipped with properly operating ventilating systems. This is not the case, as the "John H. Sullivan" has no arrangements whatsoever for mechanical ventilation, and such ventilations are necessary for the proper care and comforts of the men.

Respectfully,
WM. C. WOODWARD,
Health Commissioner.

Referred to the Executive Committee.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR FURNISHING DOUBLE AND SINGLE TEAMS AND AUTO TRUCKS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for furnishing double and single teams and auto trucks in Districts Nos. 1, 2, 3, 4, 5, 6-9, 7, 8, 10 and 11, between February 1, 1920, and January 31, 1921, and giving bond therefor of a surety company approved by the Commissioner in the sum of one thousand dollars (\$1,000) for each district, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Furnishing Teams," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, January 26, 1920, with a certified check for three hundred dollars (\$300) for each district, or three thousand dollars (\$3,000) for all the districts, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. The attention of all bidders is called to the fact that failure to bid on furnishing auto truck and chauffeur may lead to the rejection of the entire bid. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price bid on any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interests of the city so to do.

THOMAS F. SULLIVAN,
Commissioner of Public Works.
Boston, January 15, 1920. (Jan. 17.)

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REBUILDING FLOOR OF NEPTUNE ROAD BRIDGE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for the removal of reinforced concrete slab and steel beams, Clarendon street, over the New York, New Haven & Hartford Railroad, Boston. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of two thousand (2,000) dollars to secure the due performance of the contract and the full protection of the city. Specifications and forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Clarendon Street Bridge," and left at Room 508, City Hall Annex, before 12 m., Friday, January 23, 1919, with a certified check for six hundred (600) dollars, payable to and to become the property of the City of Boston if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such prices. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

THOMAS F. SULLIVAN,
Commissioner of Public Works.
Boston, January 15, 1920. (Jan. 17.)

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission will hold examinations for clerical service on January 31 and February 14, 1920.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service.

On January 31 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day.

Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in book-keeping, stenography, typewriting, cataloging, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications.

Persons who take the examination for Grades II, III or IV may also have their papers marked for Grade I.

Persons qualifying in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

The clerical service, including clerks, office assistants, executive assistants, senior clerks, assistant secretaries, chief clerks, secretaries, copyists, recorders, messengers and office boys and girls, is graded as follows:

Grade I.—Junior clerk, junior messenger, office boy, including persons performing under supervision the simplest kind of office work. The subjects of examination with their respective weights are as follows: Spelling (15 words) (1); penmanship (1); accuracy (1); report or letter writing (1); and five examples in arithmetic (1); total (5). A general average of 65 per cent is required. Persons who take the examination for this grade may also at the same time take the examination for Grades II, III and IV, and if they obtain the required percentage may have their names placed on the eligible lists for those grades.

It shall be *prima facie* evidence that a position is in Grade I if the salary is not more than \$540 a year.

Grade II.—Subjects of examination with their respective weights are as follows: Spelling (25 words) (2); letter writing (2); penmanship (2); accuracy in copying printed matter (1); transcribing rough draft (1); rapid computation (addition, subtraction, multiplication, decimals and simple percentage) (1); arithmetic (nine problems including simple interest) (1); total (10). Applicants are required to obtain at least 65 per cent in penmanship, at least 50 per cent in each of the other subjects, and a general average of 70 per cent on the whole examination.

It shall be *prima facie* evidence that a position is in Grade II if the salary is more than \$540 and not more than \$780 a year.

Grade III.—Subjects and weights of examination are the same as for Grade II. Applicants are required to obtain at least 65 per cent in penmanship, at least 50 per cent in each of the other subjects, and a general average of 80 per cent on the whole examination.

It shall be *prima facie* evidence that a position is in Grade III if the salary is more than \$780 and not more than \$1,200 a year.

Grade IV.—Applicants are required to

pass the Grade III examination, and if successful will have their experience rated with the written examination on the following basis: Written examination (5); experience (2); total (7).

It shall be *prima facie* evidence that a position is in Grade IV if the salary is more than \$1,200 and not more than \$1,800 a year.

Grade V.—Salary over \$1,800 a year. No examination will be held for Grade V at this time. Whenever a vacancy occurs in this grade, which is not to be filled by promotion, it will be duly advertised and all information regarding salary, duties, subjects and weights of examination, etc., will be stated.

GENERAL INFORMATION.

In making certification preference will be given to residents of the city from which the requisition comes. Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

In establishing an eligible list as a result of the above examinations and in certifying therefrom preference will be given veterans as provided for in chapter 150 of the General Acts of 1919.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Room 148-152, State House, Boston.

In order to be entitled to receive a notice for the above-scheduled examination, an applicant should have his application on file at least ten days before the date set for holding this examination. Persons filing applications later than this date may be notified at the discretion of the Commissioner of Civil Service.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

CONTRACTS AWARDED WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.

On January 22 to Henrici Laundry Company, as per following communication:

BOSTON, January 17, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—The trustees of the Consumptives' Hospital request permission to purchase a Henrici Laundry Company's washing machine at a cost of eighteen hundred ninety-seven dollars (\$1,897) without advertising.

One of the three washing machines of the hospital laundry has broken down. Two machines cannot do the work.

Inquiry has been made at the five well known laundry machinery companies and the Henrici Company is the only one that can make immediate delivery. None of the others can do so in less than eight weeks' time. The Henrici machine can do more work than any of the others and in many ways is a better machine. The company guarantees that this one machine will do all the work of our present three machines.

It is essential to have a new machine without delay in order to do the work of the laundry.

Respectfully yours,

FRANK S. DELAND,
Acting Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$50, on contract with B. E. Grant Company for paving Tremont street, from Dover street to Northampton street, on account of making roadway safe at brows caused by change of grade in track. Original contract, \$99,034.78; total addition, \$50; contract as standing, \$99,084.78.

An addition, amounting to \$1,817.64, on contract with Warren Brothers Company for bitulithic pavement in Baird, Irma and Middleton streets, on account of furnishing and laying 2-inch bitulithic wearing surface on existing macadam base where directed. To be used in making approaches to existing streets. Price to be paid for each square yard, including preparing site and all incidental work, the sum of \$2.04. Original contract, \$18,488.90; total additions, \$2,217.64; contract as standing, \$20,706.54.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$423, on contract with Frank Drinkwater for sewerage works in Richmond street, between Commercial and Hanover streets, on account of removing material from open trench and freeing blocked underdrain at North street; removing material from existing sewers from Fulton street to North street; this work being necessary because of sudden break in hydrant in North square, and consequent washing of large quantities of gravel and other material into trench, underdrain and existing sewers. Original contract, \$10,343.50; total additions, \$1,139; contract as standing, \$11,482.50.

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$31.84, on contract with M. DeSisto Company for laying and relaying water pipes in Scotia, St. Germain, Dundee, St. Cecilia and Peterboro streets, on account of cutting conduit; cutting out post hydrant branch and setting Lowry hydrant in St. Cecilia street; cutting conduits and repairing catch-basin drain in Dundee street. Original contract, \$6,102.50; total addition, \$31.84; contract as standing, \$6,134.34.

CLAIMS.

The Mayor has approved the following claims, with the indorsement of the Corporation Counsel:

Samuel Corman, in the sum of \$125, for personal injuries caused by depression in walk on Decatur street, June 17, 1919.

REJECTED CLAIMS.

The Law Department has disapproved seventy-four claims against the city.

In eleven of these no amounts were specified, and the other sixty-three aggregated \$1,433.83, and are classified as follows:

Against the Fire Department, two, in one of which no amount was specified, and the other amounted to \$25; against the Hospital Department, one for \$20; against the Park and Recreation Department, two, in which no amounts were specified; against the Police Department, sixty-three, in three of which no amounts were specified, and the other sixty amounted to \$3,138.83; against the Public Works Department, six, in five of which no amounts were specified, and the other amounted to \$50.

All these claims have been disapproved for the reason there appeared to be no legal liability upon the city.

FIRE DEPARTMENT ORDERS.

General Order No. 3.

RESIGNATION.

The resignation of Charles E. Stewart, supervisor of motor apparatus, tendered to take effect January 16, 1920, is accepted. Mr. Stewart resigned to take a position of importance with an outside corporation. The Fire Commissioner with great reluctance accepts his resignation. During the four years that he has served as supervisor of motor apparatus his services have been invaluable to the department.

ACTING SUPERVISOR OF MOTOR APPARATUS.

Motor Apparatus Engineer James W. Ryan is detailed as acting supervisor of motor apparatus.

BUREAU OF SUPPLIES AND REPAIRS.

A department is created to be known as the bureau of supplies and repairs. This bureau will have charge of the purchase of supplies, repair of all apparatus including motor and steam, repair and building of engine houses. The repair division is abolished.

The first deputy chief of the department, John O. Taber, is temporarily detailed to organize and take charge of the bureau of supplies and repairs.

RETIREMENT.

The following retirement is hereby announced: Capt. Michael J. Lawler of Engine Company 33. Captain Lawler was appointed to this department June 21, 1889. He was promoted to lieutenant July 26, 1895, and to captain June 10, 1903.

CORRECTION.

In paragraph VII., General Order No. 1, c. s., the location of fire alarm box No. 2665 should read "Grove and Birchwood streets" instead of "Grove and Richwood streets."

CHANGE IN LOCATION OF FIRE ALARM BOX.

The department is hereby notified that fire alarm box No. 3528 has been moved from Norfolk and Clarkwood streets to Norfolk and Evelyn streets.

By order of the Fire Commissioner,

PETER E. WALSH,
Chief of Department

OFFICIAL COMMUNICATIONS.

REPORT ON CONTRACT FOR COLLECTING CITY REFUSE.

BOSTON, January 16, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—The Finance Commission submits herewith a brief report regarding the operation of the new form of contract for collecting city refuse in the suburban districts during the year 1919-20, according to which payment has been made to the contractor on a cubic yard basis instead of on a monthly lump sum basis as in previous contracts.

Appended to this report is a report from its consulting engineer that treats the matter in greater detail.

Previous to the letting of the contracts for the fiscal year 1919-20 the Finance Commission submitted to your Honor, under date of January 31, 1919, a report stating its objections to the form of contract that it was proposed to use and suggesting certain changes. Again, on February 7, 1919, the Finance Commission sent to your Honor a private communication, especially emphasizing the importance of its previous report, in which it used the following language:

The Finance Commission does not believe that your subordinates have placed the facts before you in such a manner that you realize the importance of changing this provision, and therefore requests the privilege of a personal interview to explain its views on this and some other matters.

This interview was held on February 12, 1919. Notwithstanding these reports and the interview, contracts were let with the method of payment as proposed instead of as recommended by the Finance Commission. Certain changes, however, were made in the phraseology of the contract and specifications which greatly improved these documents, as instruments for protecting the city's interests, over the original draft.

The result of the year's work appears to have justified the prediction of the Finance Commission in practically all details. There seems to have been no improvement in the service rendered to citizens and, as regards the offal contract of the Dorchester District, there appears to have been poorer service than formerly.

The net financial result has been an increase of approximately \$45,000, the greater part of which accrued in the Dorchester District. About \$40,000 of this amount is for increased payments to the contractors and approximately \$5,000 is the increased cost of supervision, about one half of which is due to raises in pay.

An examination of the form of contract and specifications proposed for the ensuing year shows that substantially all of the provisions criticised in the 1919-20 form have been reinserted in that for 1920-21, including those specifications that were changed by the advice of the Finance Commission as well as those that were changed voluntarily by the officials of the Public Works Department.

The provisions which appeared in the original draft of the 1919 contract and were eliminated after objection by the Finance Commission, and which now appear in the form of the 1920 contract, and the objections of the Finance Commission are as follows:

1. In the event that any employee shall abstract from any material collected in the Dorchester district under this contract any salable material, the contractor shall dismiss him forthwith and the contractor shall not again employ on the work any employee dismissed pursuant to the foregoing provisions.

The objection of the Finance Commission to this provision is:

This provision is clearly for the benefit of the Boston Development and Sanitary Company, to whom the refuse is delivered, and for that company alone. According to the provisions of the same paragraph it appears that the city may even cancel the contract in case any of the contractor's employees abstract salable material from the refuse. There seems to be no reason for this drastic provision, as the matter of the cancellation of the contract seems to be fully covered in Article 6, page 11, of the contract form. It would seem to be an absurdity, even if legal, for the city to cancel a favorable contract because one of the contractor's employees took some article of small value from the refuse, thereby decreasing to the Boston Development and Sanitary Company, a party entirely independent of the contract in question, the sale value of the material.

2. The Contractor shall collect the paper in the Dorchester district at least once each week separately and deliver same to Paper Plant, located at 309 Southampton street, South Boston.

The objection of the commission to this provision is as follows:

This place is the disposal station of the Boston Development and Sanitary Company, and to haul paper to this station, rather than to deliver it at the Dorchester transfer station at Commercial Point, would add about three team miles for each load in excess of the average haul to the Commercial Point station and return. The extra cost to the city of this provision is difficult to estimate, but it probably will not be less than \$5,000. In any case the excess cost will be an entirely useless expenditure for the city.

Moreover, the specifications of the 1920 form provide that the refuse shall be dumped at several named locations and that other fills may be added or substituted by the Commissioner. This specification would authorize the selection of a dump so far from the point of collection as to require a haul of several miles. On the objection of the commission a similar provision was stricken from the 1919 form.

The provision of the 1919 contract that the contractor shall properly cover carts so that none of the materials will be scattered along the streets is so radically changed in the 1920 form as to leave the obligation of the contractor vague and indefinite.

In view of the financial results of the methods employed in 1919-20, and the fact that no increase of efficiency has been secured, the Finance Commission recommends that the suggestions contained in its report of January 31, 1919, be incorporated in the contract forms at present being issued to contractors, so far as these suggestions apply; and also that the provisions be so framed as to make it possible for a contractor to know where he is to deliver the refuse and how long a haul will be entailed. Otherwise the bidders will be obliged to include a large amount for contingencies which would be unnecessary under a contract form definite in its provisions.

In view of the large and, as the commission believes, fictitious increase in the quantity of refuse collected, especially in the Dorchester District, it is doubtful if a contractor would bid as low a price as he would have bid had the experiment of paying on the cubic yard basis not been tried. Nevertheless, a change in the specifications whereby offal is paid for by weight and other refuse either according to a monthly lump sum payment or by weight would result in a great financial saving to the city without any disadvantage to the citizens served.

The Commissioner of Public Works states that the reason for the transfer of sewer service employees to the Dorchester District of the Sanitary Service was to obtain evidence as to certain claims made by the disposal contractor, the Boston Development and Sanitary Company, as to improper methods used by the contractor for the Dorchester District in the collection of garbage.

The commission recommends that the present form of contract offered to bidders be withdrawn and bids requested on a form of contract redrafted to meet the objections of the commission, as set forth in this report and in the report of January 31, 1919.

Respectfully submitted,
THE FINANCE COMMISSION,
by GEORGE A. FLYNN,
Chairman.

BOSTON, January 15, 1920.

To the Finance Commission:

GENTLEMEN,—Complying with instructions given by the chairman, I respectfully submit herewith the results of my investigations into the operation of the new method of payment for the collection of ashes, garbage and other household refuse according to which annual contracts were made for collecting such refuse in the suburban districts for the year 1919-20.

As the commission is aware, previous contracts for such work have always provided that the contractor should be paid at a uniform rate per month for collecting whatever refuse was produced by householders. In the contract in question it is provided that payment will be made at a price per cubic yard for refuse collected.

The Finance Commission, on January 31, 1919, submitted to his Honor the Mayor a report protesting against the method proposed, calling his attention to contingencies that would arise under such a contract, and especially calling his Honor's attention to the fact that there was great danger of a large increase in cost. The Finance Commission followed this public report with a private letter to the Mayor, dated February 7, 1919, in which it called his Honor's attention to the previous report and again emphasized its objection to the form of contract proposed. The commission also had a conference at the Mayor's office on February 12, 1919, at which the new form of contract was discussed.

Notwithstanding the advice given in the various reports and at the conference mentioned, the contracts were made, including the objectionable method of payment, although certain changes were made in the phraseology of the specifications, as recommended by the Finance Commission. The most important recommendation, however, was neglected.

The contracts are now about to expire and the results can be estimated within very close limits.

As a financial matter it appears that the total cost will be increased from \$202,408.64, the cost under the form of contract used in 1918-19, to approximately \$240,000 in the present fiscal year, 1919-20. In addition there will be an increase in excess of \$5,000 for supervision; about one half of this sum is on account of additions to the supervisory force, and one half on account of raises in pay.

The Finance Commission during the recent Christmas vacation employed a number of engineering students from the Institute of Technology to investigate conditions relating to refuse collection in the different sections of the city, especially in the Dorchester district. These investigators knew nothing of the localities from which complaints have been received, but were instructed to make their inquiries at random. The consensus of the information obtained indicates that without doubt the collection of garbage or house offal has not been improved under the new form of contract.

Many complaints were made that col-

lection methods have become so bad that in the summer season it has been necessary to dispose of garbage by burning it in cook stoves, in order to avoid a nuisance and that during the cold seasons frequent periods of as much as three weeks have elapsed without the garbage being collected, notwithstanding the fact that the contract provides that regular collections shall be made twice each week.

As regards the ashes and miscellaneous

refuse, although some complaints were made, the consensus of information is that during recent years collections have been in general regular and satisfactory, and that there has been no noticeable change over previous years.

A comparison of the figures showing amounts of each kind of refuse collected in the past year with the estimated amount for the present year, 1919-20, is given in the following tables:

Examining the first table, which shows the cubic yards of ashes collected for a period of five years, the commission will note that for the East Boston district there has been a reduction below the average for previous years. This result is, in my opinion, due to the fact that the district is a comparatively small one, in which all of the work is supervised by a single inspector who is particularly efficient. Were he otherwise, any unusual increases in collection would be for him to explain. As a result the conditions obtained under former contracts have been insisted upon, especially as regards the density of the load as placed by the contractor in his carts.

Almost exactly the same conditions are found in Brighton, which is a comparatively small district. The amount of refuse collected has been practically the same as for previous years.

In the West Roxbury district, under similar conditions, a slight increase is shown, but not more than might be expected from perhaps the most rapidly growing suburban district of the city.

In Dorchester, however, the increase has been from 134,130 cubic yards in 1918, about the average of previous years, to 175,000 cubic yards in 1919, an increase of approximately 30 per cent.

There has been no increase in building operations in Dorchester to cause such an increase, and the most reasonable cause that can be ascribed is the one pointed out in the Finance Commission's report previously mentioned, that the contractors have made their team loads lie as lightly as possible in the carts, in order to secure the greatest number of cubic yards. The evidence obtained by the Finance Commission's investigators, as well as admissions by subordinates of the Public Works Department, shows that this is one of the

principal causes for the increase and not the greater weight of refuse collected.

The contractor is being paid for the cubical contents of his carts when level full. Therefore it is not in the interest of the contractor to heap up his loads. The measurement is made by the inspector after the cart or truck has been filled, before its start for the dump and not at the dump. As a consequence many loads as delivered at the dump are much below a full cart load, on account of the shaking and settlement during transmission.

A suggestion has been made by a subordinate of the Public Works Department that the increases in cubic yardage shown for the present year may be because figures for previous years were calculated from the "level full" capacity of the carts, although in fact many loads were crowded and contained more than the rated capacity of the carts. This matter of crowding loads has been investigated several times and shown to be of small importance in accounting for such discrepancies as are now under consideration.

No evidence was obtained by the commission's observers of dishonesty on the part of the employees of the city or the contractor. I believe that the above reason is the principal cause of the increase in yardage and that there has been little, if any, increase in tonnage over the year 1918.

Incidentally, the Finance Commission's investigation has shown that the inspectors in the Dorchester district in some cases are very lax in their duties as to requiring the contractor to clean up rubbish which has been spilled on the sidewalks, streets, and the premises of producers. Conditions were observed by the commission's employees of flagrant cases of spilling ashes and other materials in the presence of inspectors with apparently no

protest on the part of the inspectors, neither was the contractor obliged to remove the material.

As regards the figures for the collection of offal shown in Table II, similar conditions are shown as in Table I.

In East Boston the number of cubic yards collected has been below the average of previous years. In Brighton the amount has also been below the amount for previous years. The same condition obtains in West Roxbury, but in Dorchester there has been an increase from 17,304 cubic yards in 1918 to 30,000 cubic yards in 1919, an increase of approximately 73 per cent.

The neglect to compact loads cannot be given as a reason for this remarkable increase to the same extent as for miscellaneous refuse. Garbage in itself is a wet, soggy material, which settles to about its greatest density under any conditions and, as a matter of fact, it has not been customary, on account of the insanitary character of the work, to attempt to compact loads of garbage by tramping.

There has been no increase in population in Dorchester to warrant even a small percentage of the increased yardage of garbage and information from various sources, including the investigation of the Finance Commission's employees, has shown beyond reasonable doubt that there has been no improvement in the collection service to warrant such an increase. The increase, therefore, must be attributed to other causes.

The president of the Boston Development and Sanitary Company has, during the year, complained frequently that employees of the contractor for the collection of garbage were mixing with the garbage, paper, ashes and other light and bulky materials in order to increase the yardage. The price paid to the contractor for garbage is \$2.10 per cubic yard. It is apparent, therefore, that the above is a reasonable theory for accounting, in part at least, for the additional amount of garbage collected. The contractor would receive \$2.10 per cubic yard, as garbage, for the material for which the contractor for ashes and paper receives only 58 cents per cubic yard.

Although the Finance Commission's investigators were cautioned to look after this matter particularly, they did not obtain any proof that the garbage collector followed the practice charged, at least to any great extent. The separation of the ashes from garbage by the householders was generally found to be good and in only one case was an employee of the garbage collector detected in placing among the garbage a barrel of ashes and paper, and in this case there was a considerable mixture of garbage also.

The short time allowed for the investigation and the fact that after the first day the collectors probably knew they were being watched may account for the results obtained.

The only other plausible explanation for this immense increase in the yardage of garbage collected is that dishonesty exists, either in the force of the contractor or in the city's supervisory force, or in both.

As regards both the ash collection and the garbage collection such an investigation as has been possible seems to show that, taking into consideration the different lengths of haul to dumping places, the present contractor's force of men, teams and trucks is no more than the equivalent of the force employed by the previous contractor. This is to a certain extent evidence that no more weight of material was collected than in 1918.

As a result of all the evidence obtained, I believe that the predictions of the Finance Commission in its report of January 31, 1919, have been sustained, and that an emphatic recommendation should be made to his Honor the Mayor that the system of collecting by cubic yards be abandoned, and that a return be made either to the old system of a lump sum payment, or that the payment be made by weight, the weighing to be done at the various places of final disposal.

As regards the garbage there can be no objections to a system by weight that would to any great degree offset the advantages obtained. The garbage all goes to one place of disposal and I am informed that the city now has scales at this disposal station, although they have not been in order for weighing purposes for seven months.

As has already been shown, the present method of payment for garbage collection offers an incentive to a contractor to mix with the garbage, paper, boxes, barrels, excelsior, and other light materials which greatly increase his yardage, without greatly increasing the weight of his team loads. If the method of payment by weight was adopted the incentive would be in the opposite direction, as the material above mentioned would occupy a large space in the team to the exclusion of garbage, although little weight would be added. Therefore the system of paying by weight would tend to eliminate the features regarding which the disposal contractor now complains.

As regards the ashes, weighing facilities would not be as convenient, although they could be obtained even though it was necessary to purchase an equipment of portable scales, to be transferred from one locality to another as dumps became filled. I believe, however, that a return to the old lump sum payment method would be advisable, particularly as the information obtained shows that it was equally as satisfactory to the householders as the present method.

As regards the specifications in the contract for the ensuing year, which are now being given out to prospective contractors, it appears that substantially all of the provisions objected to in the form for 1919-20 have been reinscribed, including such as were eliminated by advice of the Finance Commission, and also that new objectionable insertions and changes have been made.

For example, in the contract (page 16) for ashes and refuse, the dumping places provided have been reduced and an examination shows that some of them will answer for only a short time. The provision that other fills may be added or substituted is so changed as to allow the commissioner to substitute other dumps, even though they be beyond the limits of the Dorchester district. Following in the same paragraph attention is called to the fact that under the terms of the contract between the Boston Development and Sanitary Company and the city all refuse collected in the Dorchester district becomes the property of the Boston Development and Sanitary Company. This is perhaps a fact, but there seems to be no reason for its insertion in this place, certainly the material does not become the property of the company until actually delivered to it.

The attention of bidders is also called to the fact that any refuse collected in the district must be delivered to the Boston Development and Sanitary Company at approved locations. This is simply a variation from the effort made in the original contract of 1918 to force delivery

of material to the Development Company at points outside the limits of the Dorchester district and to have its right to receive the material recognized.

There is no indication as to who is to approve the locations, although it may be assumed that the Commissioner of Public Works would be the arbitrator under the general powers given him in the contract.

In my opinion the above quoted provisions make the contract what is commonly known as a "closed contract," upon which only a specially favored bidder can submit a bid without allowing such an amount for contingencies as to cause his bid to be unreasonably high, and, as a consequence, unsuccessful.

In addition to the costs for refuse collection hereinbefore definitely stated, there is a still further cost, the amount of which cannot at present be definitely stated, but which may increase the total cost for the year by two or three thousand dollars. This additional cost is due to salaries of unnecessary employees of the Sewer and Water Service who have been transferred to the Sanitary Service in the Dorchester and Brighton districts, although their salaries are still being paid by the services from which they came. At present there are about thirteen such employees, with a monthly expense of approximately \$1,400.

Respectfully submitted,

GUY C. EMERSON,
Consulting Engineer.

LAND-TAKING FOR THE ROGER WOLCOTT SCHOOL DISTRICT.

BOSTON, JANUARY 13, 1920.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an elementary school, upper grades, a certain piece or parcel of land in the Roger Wolcott District, Dorchester, bounded and described as follows:

Beginning at a point on the southerly line of Maxwell street 210 feet from the southeasterly corner of Maxwell and Nelson streets, thence northeasterly by said line of Maxwell street 66 feet to a bend; thence again by said line of Maxwell street 147 feet to land of Fallon; thence turning and running southeasterly by land of Fallon and Walsh 245 feet to the line of Selden street; thence turning and running southwesterly by said line of Selden street 198 feet to land of Parmenter; thence turning and running northwesterly by land of said Parmenter 127 feet to a bend; thence again northwesterly by land of Folger 112 feet to the point of beginning, and contains 52,270 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding eminent domain, for carrying out the same.

Respectfully,

J. P. LOMASNEY,
Chairman Schoolhouse Commission.

Approved January 16, 1920.

ANDREW J. PETERS, Mayor.

BOSTON, December 3, 1919.

MR. FRANK V. THOMPSON, Superintendent of Public Schools, Boston, Mass.:

DEAR SIR,—The Board of Schoolhouse Commissioners think it advisable to take, for the purpose of erecting thereon an

elementary school, upper grades, a certain piece or parcel of land in the Roger Wolcott District, Dorchester, bounded and described as follows:

Beginning at a point on the southerly line of Maxwell street 210 feet from the southeasterly corner of Maxwell and Nelson streets, thence northeasterly by said line of Maxwell street 66 feet to a bend; thence again by said line of Maxwell street 147 feet to land of Fallon; thence turning and running southeasterly by land of Fallon and Walsh 245 feet to the line of Selden street; thence turning and running southwesterly by said line of Selden street 198 feet to land of Parmenter; thence turning and running northwesterly by land of said Parmenter 127 feet to a bend; thence again northwesterly by land of Folger 112 feet to the point of beginning, and contains 52,270 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

J. P. LOMASNEY,
Chairman Schoolhouse Commission.

FRANK V. THOMPSON,
Superintendent of Public Schools.

REGARDING CERTAIN RESIGNATIONS.

BOSTON, January 20, 1920.

Due to an erroneous report appearing in one of the Boston papers this morning, I think it wise to send officially the following facts concerning the resignations from the Boston school system under the date of January 19, 1920:

Mr. George E. Parsons, Mechanic Arts High School, junior master; reason: Been in military service two years, did not re-enter Boston school service during this year; resignation now filed.

Laura E. West, Roxbury High School, assistant instructor, physical training; reason: Retired on account of marriage.

Margaret L. McCarthy, Chapman District, assistant; reason: Resigned to enter convent.

Mary M. Danahy, Quincy District, first assistant, kindergarten; reason: Retired on account of marriage.

Marion M. Kitts, Robert Gould Shaw District, assistant, reason: Retired on account of marriage.

Catherine Marke, department of medical inspection, school nurse; reason: Reported to have entered Red Cross service.

None of the above resignations can be traceable to the salary schedule now paid by the City of Boston.

FRANK V. THOMPSON,
Superintendent of Public Schools.

CIRCULAR FROM THE MAYOR.

BOSTON, January 15, 1920.

To the Heads of Departments:

GENTLEMEN,—You are hereby directed to give no orders for doing work under an alteration of contract or for the purchase of materials and supplies, where the amount involved is estimated to be in excess of \$1,000, until the approval of the Mayor of such order has been received by you in writing.

I find it necessary to issue this order as there have been a number of instances where department heads have authorized the purchase of supplies and materials or have ordered contractors to proceed on

work under an alteration of contract before the approval of the Mayor had been received. Such action on the part of department heads is obviously a clear violation of charter requirements and must be discontinued.

Very truly yours,

ANDREW J. PETERS, Mayor.

CIRCULAR FROM THE MAYOR.

BOSTON, January 15, 1920.

To the Heads of Departments:

GENTLEMEN,—I desire to call your attention to a letter which I have just sent to the Acting Superintendent of the Supply Department. The text of the letter is as follows:

You are herewith directed not to purchase materials or supplies in advance of receiving proper requisitions therefor from the department on whose account the purchase is made.

This order is issued to the Supply Department in view of the fact that frequently in the past the Supply Department has apparently made purchases before the proper requisition has been received from the department requesting the purchase.

It should be brought to the attention of those selling supplies to the City of Boston that bills for goods delivered without the proper requisition therefor having first been furnished, will not be honored for payment by the city; in other words, those who sell goods to the city must, before delivering them, have in their possession an order therefor, duly signed by those authorized to issue orders in the Supply Department.

I request that you govern yourselves in accordance with the provisions of the above.

Very truly yours,

ANDREW J. PETERS, Mayor.

EXAMINATIONS BY SCHOOL COMMITTEE.

The 1920 examinations for certificates of qualification as teachers and members of the supervising staff in the Boston Public Schools will be held at the Boston Normal Schoolhouse, Huntington avenue, the Fenway, during the week beginning Monday January 26, 1920, as described in the circular which may be had on application at the office of the secretary of the School Committee, Mason street.

The examinations for the high school certificate and for the special certificates qualifying for service in the high schools will be held on Monday, January 26, beginning at nine o'clock a. m., as will the examinations for the intermediate school certificate and for the certificate which qualifies for service in the Continuation School and in the Day Clerical School.

The examinations for the elementary school certificate, the kindergarten certificate, the special class certificate, the Horace Mann School certificate and for the special certificates in day elementary schools, such as cookery, manual training and sewing, will be held on Thursday, January 29, beginning at nine o'clock a. m.

The examinations for each of these certificates will be completed in a single day with the exception of the examinations for the day and evening industrial schools certificates, which examinations will be completed by twelve o'clock noon of the second day.

It is expected that the recent substantial increases in the salaries of teachers in the Boston Public Schools will tend to make these several positions particularly attractive at this time.

For further information as to eligibility requirements and subjects of examination for the several certificates now offered for examination, candidates should apply at the office of the secretary of the School Committee, Mason street.

APPOINTMENT BY THE MAYOR.

BOSTON, January 15, 1920.

MR. JAMES DONOVAN, City Clerk, Boston, Mass.:

DEAR SIR,—I have this day appointed Malcolm E. Nichols, chairman of the Transit Board, to be acting Schoolhouse Commissioner.

Very truly yours,

ANDREW J. PETERS, Mayor.

APPOINTMENTS BY THE MAYOR.

BOSTON, January 17, 1920.

MR. JAMES DONOVAN, City Clerk, Boston, Mass.:

DEAR SIR,—I have this day designated the following to be acting members of the Board of Trustees of the Infirmary Department:

Thomas W. Murray.

Joseph P. Manning.

John J. O'Callaghan, to replace James V. Donnaruma, resigned.

Herbert A. Wilson, to replace Frank L. Brier, resigned.

Thomas C. O'Brien, to replace John J. Cusick, resigned.

Miss Isabel F. Hyams, to replace Miss Mary A. Dierkes, resigned.

Very truly yours,

ANDREW J. PETERS, Mayor.

BUDGET TRANSFER.

BOSTON, January 19, 1920.

To the Honorable the Mayor:

I respectfully request that the following transfer be made in the appropriation for Granite Avenue Bridge Commission: From the appropriation for B-39, General Plant, \$100.78, to the appropriation for A-1, Personal Service, \$100.78, Permanent Employees.

This transfer is due to change in rate of pay. Salary increases of \$100 for each drawtender were provided in the budget, but the increase in pay given was \$200 to each drawtender.

Respectfully yours,

T. F. SULLIVAN,

Commissioner of Public Works.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—In accordance with section 3 of chapter 486 of the Acts of 1909, I will, with your approval, make the transfer requested herein.

J. ALFRED MITCHELL,

City Auditor.

Approved January 21, 1920.

FRANCIS J. W. FORD,

Acting Mayor.

STREET COMMISSIONERS.

The following petitions, etc., have been approved:

Edward T. Bailey, garage, 3 Evandale terrace.

Gustave A. Mark, garage, 59 Prospect avenue.

John B. Bugbee, garage, 295 Medford street, Charlestown.

Joseph O. Swanson, garage, 8 Everett street, Dorchester.

Suffolk Coal Company, gasolene, 178 Border street.

LEGISLATIVE MATTERS AFFECTING BOSTON.

BILLS FILED WITH THE LEGISLATURE.

An Act Relative to the Tax Limit of the City of Boston.

An Act Relative to Appropriations by the City of Boston for Municipal Purposes.

An Act to Regulate the Boston Tax Rate.

The Mayor has also filed a number of bills relating to the tax limit so that the question can be easily dealt with by the Legislature.

1. Abolishes the tax limit altogether.
2. Raises the rate to \$11.52 for the two coming financial years respectively.
3. Provides for a special commission named by the Mayor with power to fix the tax limit.

An Act Relative to the Teachers' Retirement Fund in the City of Boston.

A bill has been introduced by the Mayor to amend the Teachers' Retirement Fund Act by substituting a new section 5 as follows:

SECT. 5. In each year the city treasurer of the City of Boston shall reserve from the salary of each teacher who has come under the provisions of this act an annual assessment of eighteen dollars, and shall pay the assessment into the teachers' retirement fund, as herein provided. The city treasurer shall levy such annual assessment of eighteen dollars by deducting an equal and proportional amount from such salary payments during the year as he may determine in his discretion.

An Act Relative to the Widening of Exchange Street and Washington Street in the City of Boston.

A bill has been introduced by the Mayor to authorize the city to borrow money for the purpose of widening Exchange street and Washington street. The purpose of this bill is simply to have something on file which would enable steps to be taken in the event of its being considered expedient, by reason of the pulling down of buildings or otherwise, to make a widening of Exchange street and the part of Washington street immediately adjacent. It is by no means certain that this will be expedient in the near future, but if it is, it is desirable that legislation should be easily possible.

An Act Relative to the Assessment and Collection of Poll Taxes in the City of Boston.

A bill has been introduced with regard to the collection of poll taxes in Boston which reads as follows:

SECTION 1. The lists furnished by the listing board of the City of Boston to the assessors and the certification of names to said assessors by the election commissioners, under the provisions of section five of chapter ninety-three of the Special Acts of nineteen hundred and eighteen, shall also contain information whether the person so listed or whose name is so certified was a soldier or sailor in the military or naval service of the United States during the war with Germany.

SECT. 2. This act shall take effect upon its passage.

An Act Relative to the Division of the Day and Night Forces of Permanent Members of the Fire Department of the City of Boston.

A bill has also been introduced to provide for a change of the law so that the two-platoon bill cannot be submitted every year to the voters.

An Act Relative to the Suffolk School for Boys.

A bill has been filed by the Mayor providing that no commitments shall in the future be made to the Suffolk School for Boys and authorizing the city to sell or otherwise dispose of Rainsford Island or to transfer the same to any department of the city, to be used for municipal purposes. The purpose of this bill is to effect a long contemplated economy by abolishing the Suffolk School for Boys.

An Act to Regulate the Purchase of Office Supplies and the Doing of Printing, Binding, and Other Similar Work by the County of Suffolk.

A bill has been filed by the Mayor to require the purchase of office supplies, the printing of all stationery and other office supplies purchased and the doing of all printing, binding and other similar work paid for by the City of Boston or by the County of Suffolk through or by the Printing Department of the City of Boston. It is believed by the administration that this bill would result in large savings to the city.

An Act to Authorize the City of Boston to Acquire Certain Land of the Old South Association of Boston for the Improvement of Washington Street.

A bill has been filed to authorize the city to acquire certain land of the Old South Association for the improvement of Washington street. The purpose of this bill is to permit the areading of the tower of the Old South Church and the use of certain of its land for sidewalk purposes, if satisfactory agreements can be reached between the Old South Association Trustees and the city.

An Act to Authorize the Health Department of the City of Boston to Summon Witnesses.

A bill has been filed to authorize the Health Department to summon witnesses and administer oaths. Its purpose is to facilitate the administration and powers of that department.

An Act to Authorize the City of Boston to Sell and Dispose of the Warren Cemetery.

A bill has been filed by the Mayor to authorize the city to sell and dispose of the Warren Cemetery, formerly used as the Kearsarge Burial Ground. This burial ground has been long disused and contains no bodies of deceased persons and it is believed that its sale would be for the financial interests of the city.

An Act Relative to the Construction, Alteration and Maintenance of Buildings in the City of Boston.

The following bill has been introduced by the Mayor to amend the Building Law

in cases where dilapidated buildings are destroyed:

SECTION 1. Section five of chapter five hundred and fifty of the acts of nineteen hundred and seven, as amended by section two of chapter two hundred and five of the acts of nineteen hundred and fourteen, and as amended by section two of chapter one hundred fifty-five of the Special Acts of nineteen hundred and nineteen, is hereby further amended by adding at the end thereof the following:

If the building commissioner removes any building or other structure, the commissioner may dispose of the material of the building or structure after notice by mail to the owner of his right to the material upon request before the removal of the building or structure has begun; if the owner makes a claim for the material, he shall remove the same within five days after the building or structure is taken down and if he fails to do so, the building commissioner may dispose of such material.

SECT. 2. Section twenty of chapter five hundred and fifty of the acts of nineteen hundred and seven, as amended by section eight of chapter one hundred and seventy-nine of the Special Acts of nineteen hundred and eighteen is hereby further amended by striking out the paragraph relative to "Stone Foundations" in the eighty-sixth to ninety-second lines inclusive, and substituting the following:

Foundations of stone shall be of square split stone except that rubble stone shall be allowed under buildings outside the building limits as they existed prior to September 23, nineteen hundred and thirteen, but only when such buildings do not exceed forty-five feet in height and the foundation wall is less than ten feet in depth. No rubble foundation shall be less than twenty inches in thickness. All walls shall be properly bonded by through courses.

SECT. 3. This act shall take effect upon its passage.

An Act Relative to the Fees of Witnesses.

A bill has been introduced by the Mayor to amend the law in regard to the fees of witnesses so as to provide that where a witness has a usual place of business or employment in the city or town in which the court is held, he shall be allowed travel only from such place of business.

The purpose of this bill is to diminish the large sums now paid to witnesses for travel, which in point of fact they often do not have to take in order to reach court. It is believed it will make a very considerable economy in the sums paid for witness fees by the County of Suffolk.

PROCEEDINGS OF CITY COUNCIL.

Friday, January 16, 1920.

Adjourned meeting of the City Council held in the Council Chamber, City Hall, at two o'clock p. m. Absent—Coun. Ford and Hagan.

Coun. WATSON, senior member present, called the meeting to order in the absence of President Ford.

ELECTION OF TEMPORARY PRESIDENT.

On motion of Coun. McDONALD, the Council proceeded to the election of a temporary president.

Coun. Collins, Donoghue, Lane, McDonald, McLaughlin and Moriarty voted for James A. Watson, and Coun. Watson for Daniel W. Lane, and Coun. Watson was declared elected temporary president.

SYSTEM OF ELEVATOR INSPECTION.

The following was received:

City of Boston,
Office of the Mayor, January 12, 1920.

To the City Council:

Gentlemen,—I have received the order passed by the City Council on January 25 requesting that I give to the City Council my judgment and opinion regarding a change in the system of elevator inspection so that the system may be put on a paying basis.

I believe that any change in the system of elevator inspection as it now exists in Boston to place it on a basis similar to that in operation in Philadelphia would in the first instance place an additional burden on the owners of real estate. At this time I believe it is inadvisable therefore to do this, particularly as under the present ordinances no direct advantages would accrue to the elevator division of the Building Department. In addition I point out that the elevator inspectors in the city of Philadelphia, where the fee system is in vogue, receive less salary than do the inspectors employed in the Building Department of the City of Boston engaged in similar work.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

TRANSFER TO WATER INCOME DIVISION.

The following was received:

City of Boston,
Office of the Mayor, December 26, 1919.

To the City Council,

Gentlemen,—I am herewith transmitting to you a communication from the Commissioner of Public Works relative to a transfer from water revenue to the Water Income Division in order that certain refunds may be made by the city without delay, and I recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

City of Boston,
Public Works Department,
December 23, 1919.

To the Honorable the Mayor:

I wish to inform you that on December 1 the Water Income Branch of this department had on deposit in the Old South Trust Company \$22,157.89 and checks had been drawn against this amount up to the 16th of the month approximating \$5,000. If these checks had been cashed at that time the balance when the bank was closed would have amounted to \$16,216.83.

This money was furnished the Water Income Branch as a deposit to cover the installation of various types of service, main and fire pipes. Upon completion of the work a bill is rendered covering the actual cost by the Water Division. This bill is receipted by the City Collector and the balance is refunded, by check, to the depositor.

I find that this money has been deposited in the Old South Trust Company since the time that Mr. Rourke was Commissioner of Public Works; and as there is a possibility of this money being tied up for some time I do not think that the City of Boston should be placed in the position of refusing to refund to depositors the amount which they are justly entitled to receive upon completion of the work. As there are no funds available for this purpose, I would suggest that the auditor be requested to draw up an order for presentation to the City Council asking for a transfer from water revenue to the superintendent of the Water Income Division, in order that refunds may be made without delay.

I have talked this matter over with City Auditor Mitchell and City Treasurer Murray and I believe they agree with me in this position.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Ordered, That there be paid to the superintendent of Water Income Division the sum of \$8,000, to be used in refunding balances due on deposits made by individuals and corporations to cover the installation of various types of service, main and fire pipes, etc., said sum to be charged to the water revenue.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

William Frederick, App., for compensation for goods stolen from store 278 Blue Hill avenue, on September 11, 1919.

J. B. Landry, for compensation for damage to automobile on the East Boston Ferry.

Malvina Longley, for compensation for damage to automobile by a cart of the Public Works Department.

James M. McKenney, for compensation for loss and damage by rioters at 732 Broadway, South Boston.

New England Rendering Company, for compensation for damage to truck by fire apparatus.

Matthew J. Sullivan, to be paid for a suit of clothes stolen by rioters from tailor shop at 240 Dorchester street.

Thomas M. Tobin, to be paid for an overcoat torn by a police officer.

CONSTABLE'S BOND.

The City Treasurer, after having duly approved of the same, submitted the constable's bond of Philip S. Corbett.

Approved by the City Council.

TRACK LOCATION.

A copy of order was received from the Street Commissioners granting location to Eastern Massachusetts Street Railway Company on Belgrade avenue, 3d location.

Ordered printed and placed on file.

APPROVAL OF BOND.

The City Treasurer, after having duly approved of the same, submitted the bond of the treasurer of the Social Law Library.

Approved by the City Council.

PROPOSED INCREASE IN PRICE OF GAS.

Coun. McLAUGHLIN offered the following:

Whereas, An application has been made by the Boston Consolidated Gas Company to the Public Utilities Commission for authority to increase the price of gas to \$1.20 per thousand feet, being an increase of 50 per cent since the year 1917; and

Whereas, The following propositions, in the opinion of the members of the City Council, appear to be warranted by the facts and to be of considerable importance in connection with said application:

1. That under the provisions of chapter 422 of the Acts of 1906 the company was permitted to establish a reserve fund which may be applied to the payment of dividends.

2. That it does not appear, as a matter of public policy or from the provisions of said chapter, that the company is warranted in raising the price of gas for the purpose of continuing to pay dividends at the rate of 7 per cent.

3. That the only justification, if any, for an increase in the price of gas is a considerable increase in the actual cost of manufacturing and distributing and that an increase in price should be approved only after all other resources are exhausted.

4. That before a third increase since 1917 in the price of gas is authorized, the stockholders should assume their share of the burden in the form of reduced dividends.

5. That any further increase in the price of gas will work a great hardship to a great many citizens, and it is important, therefore, to ascertain the actual cost and to discover whether or not the various bookkeeping and other charges are justified, and whether or not economies can be effected.

Therefore, be it ordered, That his Honor the Mayor be hereby requested and authorized to employ experts to examine the books of the Boston Consolidated Gas Company, with the consent of the Public Utilities Commission, and, either by the Law Department or, if he deems it advisable by other counsel, to appear before said commission, either in behalf of the city as a customer or in behalf of the citizens generally, or both, in opposition to any further increase in the price of gas in the City of Boston.

Resolved, That the City Council hereby agrees that it will approve the reasonable expenses incurred in carrying out the provisions of the foregoing order, believing that the matter is of sufficient importance to warrant the curtailing, if necessary, of some other municipal activity.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 2.41 p. m., on motion of Coun. WATSON, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.22 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Report on message of Mayor, communication and order (referred today) for \$8,000 for refunding balances due on deposits for water service—that the order ought to pass.

Report accepted; order passed, yeas 7, nays 0.

2. Report on preambles, order and resolve (referred today) concerning increase in price of gas—that the preambles, order and resolve ought to pass.

Report accepted; preambles, order and resolve passed.

SALE OF PROPERTY, BEACON STREET.

Coun. McLAUGHLIN, for the Committee on Public Lands, submitted a report on message of Mayor and preamble and order (referred November 24) for sale of property 33 Beacon street—that the order ought not to pass.

Report accepted; order rejected.

APPROPRIATION FOR SOCIAL LAW LIBRARY.

Coun. DONOGHUE offered an order—That there be allowed and paid to the proprietors of the Social Law Library the sum of \$1,000 for the maintenance and enlargement of said library; said sum to be charged to the appropriation for County of Suffolk, Social Law Library.

Passed under a suspension of the rule.

GENERAL RECONSIDERATION.

Coun. McLAUGHLIN moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 4.25 p. m., on motion of Coun. LANE, to meet on Monday, January 26, at two o'clock p. m.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR COLLECTING AND REMOVING ASHES, STORE DIRT, HOUSE DIRT AND REFUSE IN EAST BOSTON AND BRIGHTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for collecting and removing ashes, store dirt, house dirt and refuse between February 1, 1920, and January 31, 1921, including the removal of all household refuse during the spring cleaning period between April 1, 1920, and May 15, 1920, and shall also remove grass, garden refuse and leaves during the entire term of the contract in the following districts, East Boston and Brighton, and giving bond therefor of a surety company, approved by the Commissioner, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Collecting and Removing Ashes, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, January 30, 1920, with a certified check for five hundred dollars (\$500) for each district or one thousand dollars (\$1,000) for both the districts, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price bid on any district appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

THOMAS F. SULLIVAN,
Commissioner of Public Works.
Boston, January 22, 1920. (Jan. 24.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING MILK.

The Supply Department of the City of Boston invites proposals for furnishing the Consumptives' Hospital, Mattapan, with 43,000 quarts of Massachusetts Standard Grade "A" milk as required, from February 1, 1920, to May 1, 1920. Blank proposals can be obtained at the office of the Supply Department, Room 808, City Hall Annex. The bidder must leave his proposal with a certified check for \$200, payable to and to become the property of the City of Boston if the proposal is not carried out. A duplicate bid, without check, must be left with the City Auditor prior to the time named for opening bids. Bids will be opened and read Friday, January 30, 1920, at 12 m., at Room 808, City Hall Annex. The successful bidder must furnish a bond for one quarter the amount of the contract with a surety company authorized to do business in Massachusetts. The contract calls for pure dairy milk, neither skimmed nor topped, nor in any way deprived of its natural proportion of cream. An average of fifty-five (55) cans of eight and one half (8½) quarts each is required for delivery per day, including Sundays. The Superintendent reserves the right to accept or reject any or all proposals and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

CITY OF BOSTON.

SCHOOL COMMITTEE.

PROPOSAL FOR PENCILS FOR THE PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing and delivering at its supply room pencils as per schedule. Only proposals obtained at the office of the Business Agent of the School Committee, Room 801, City Hall Annex, signed by the bidder and left before 12 o'clock on Friday, January 30, 1920, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be in duplicate, the one with the check to be sent as above, the other to be filed with the City Auditor, City Hall, previous to the time named for opening bids. The successful bidder will be required to deposit a surety bond or a certified check for the sum of not more than 30 per cent of the contract, payable to the City of Boston, which check shall become the property of the city unless the bidder carries out his agreement in accordance with the specifications. The School Committee reserves the right to reject any or all bids or to accept such bid as may be deemed best for the interests of the city.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR COLLECTING AND REMOVING OFFAL IN EAST BOSTON AND WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for collecting and removing offal, between February 1, 1920, and January 31, 1921, in the following districts: East Boston and West Roxbury, and giving bond therefor of a surety company approved by the Commissioner to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Collecting and Removing Offal," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, January 30, 1920, with a certified check for five hundred dollars (\$500) for each district, or one thousand dollars (\$1,000) for both the districts, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price bid on any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interests of the city so to do.

THOMAS F. SULLIVAN,
Commissioner of Public Works.
Boston, January 22, 1920. (Jan. 24.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston, Supply Department, Room 808, City Hall Annex, until 12 o'clock m., Friday, January 30, 1920, when they will be publicly opened and read, for hay, grain and straw ordered by the different departments during the month of February, 1920. The bidder must include the cost of delivery. The bidders are requested to bid on No. 1 and No. 2 timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidders are requested to bid on No. 1 oats to test 38 to 40 pounds; it must conform with the grade adopted by the Chamber of Commerce. The bidders must use the form to be obtained at Room 808, City Hall Annex. Proposals must be accompanied by a certified check for \$200. A duplicate bid, without check, to be deposited with the City Auditor prior to the time named for opening bids. The successful bidder must deposit a certified check for one quarter the amount of the contract as surety that the terms of the contract will be carried out. The Superintendent reserves the right to accept or reject any or all proposals, or any part of a proposal and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder. No reservations or stipulations submitted by the various bidders in regard to the awarding of contracts will be considered by the Superintendent of Supplies.

FRANK S. DELAND,
Acting Superintendent of Supplies.

Coleman Brothers, \$4,300; V. Grande, \$5,850; John McCourt Company, \$8,300.

SUPPLY DEPARTMENT.

On January 26 to bidders as per following communication for the purchase of auto trucks:

BOSTON, January 24, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Under date of January 12, 1920, bids were opened at this office on five (5) new one-ton Ford trucks and one (1) new Ford runabout for the Water Division with two (2) old Ford trucks and two (2) old Ford runabouts offered in exchange. Prices were received as per attached list.

It developed from the bids that there is an absolute standard price on new Ford trucks and runabouts, and also on the exchange value of old Ford trucks and runabouts. This office has been in communication with the Ford Motor Company direct, in an endeavor to place the order with them instead of through their agents. They inform us that it is their custom not to receive orders directly, but to have same handled through their various agencies. Since the opening of these bids I have received requisitions for three (3) more new Ford runabouts for the Paving Service, Public Works Department, with one (1) 1917 Ford touring car and one (1) 1915 Ford runabout offered in exchange.

In view of the facts outlined above, I respectfully recommend that the contracts be awarded as per the following table:

Snow, Coombs & McBeath, Inc.:	
Two new Ford trucks.....	\$1,680 00
One new Ford runabout....	550 00
	\$2,230 00
Less 1918 Ford runabout in exchange, \$265; less 1915 Ford runabout in exchange, \$175.....	440 00
	\$1,790 00

Lalime & Partridge, Inc.:	
One new Ford truck.....	\$840 10
One new Ford runabout....	550 00
	\$1,390 10
Less 1917 Ford runabout in exchange.....	225 00
	\$1,165 10
Burnett & Sherman, Inc.:	
One new Ford truck.....	\$840 10
One new Ford runabout....	550 00
	\$1,390 10
Less 1916 Ford truck in exchange.....	160 00
	\$1,230 10
Mattapan Square Garage:	
One new Ford truck.....	\$840 10
One new Ford runabout....	550 00
	\$1,390 10
Less 1916 Ford truck in exchange, \$160; less 1917 Ford touring car in exchange, \$250.....	410 00
	\$980 10

Respectfully yours,

FRANK S. DELAND,

Acting Superintendent of Supplies.

Approved January 26, 1920.

ANDREW J. PETERS, Mayor.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

On January 23 to the Atlantic Works, as per following communication:

BOSTON, January 19, 1920.

To the Mayor of Boston:

Authority is respectfully requested to authorize the Atlantic Works, East Boston, Mass., to repair broken hub castings, broken parts of paddle wheels and repair liner on air pump, all on the ferryboat "D. D. Kelly," without inviting proposals therefor by advertisement, the estimated cost for labor and materials being \$1,200. This is emergency work. The breakdown leaves but three boats in service, one half the usual number. The Atlantic Works is selected as the nearest plant, particularly well qualified to do the work and having patterns already in stock, so that hub castings could be replaced more promptly than elsewhere. Recommended by John E. Carty, Division Engineer.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

On January 23 to the White Company as per following communication:

BOSTON, January 22, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Authority is hereby requested to purchase without public advertising for bids one (1) White truck of two-ton capacity, at cost of \$3,867.34, less allowance of \$467.34, for 1917 Kissel truck, net cost, \$3,400.

The reasons for this request are:

(a.) The Bridge and Ferry Division of the Public Works Department particularly request this kind of truck, basing their demand on the experience that other departments have had with this kind of truck, more particularly outlined in letter of John T. Carty, Esq., Division Engineer, hereto attached.

(b.) No competitive bids would result from advertising.

Respectfully yours,

FRANK S. DELAND,
Acting Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PENAL INSTITUTIONS DEPARTMENT.

A deduction, amounting to \$154, on contract with George A. Craffey Company as per following statement:

Boston, January 22, 1920.

To GEORGE A. CRAFFEY COMPANY, Contractor:

You will deduct from your contract dated October 22, 1919, account of renovation of bakery at the House of Correction, Deer Island, the sum of \$110 on account of use of second-hand plumbing, the property of the institution, and \$44 for board of workmen, as specified in contract, 44 days at \$1 per day. This will make contract read as follows: Contract price, \$2,644; addition, \$96; deduction, \$154; total, \$2,586.

THOMAS C. O'BRIEN,
Penal Institutions Commissioner.

Accepted by

GEORGE A. CRAFFEY COMPANY,

CLAIMS.

The Mayor has approved the following claims, with the indorsement of the Corporation Counsel:

Rose Greenfield, for personal injuries caused by hole in sidewalk, October 20, 1918, at 413 Harrison avenue, by payment of \$70 in addition to the sum of \$30, payable on the May draft, making the total sum \$100.

REJECTED CLAIMS.

The Law Department has disapproved forty-six claims against the city.

In eighteen of these no amounts were specified, and the other twenty-eight aggregated \$3,440.53, and are classified as follows:

Against the Fire Department, four, in two of which no amounts were specified, and the other two amounted to \$562; against the Police Department, thirty, in six of which no amounts were specified, and the other twenty-four amounted to

\$2,706.14; against the Public Works Department, eleven, in nine of which no amounts were specified, and the other two amounted to \$172.39.

All these claims have been disapproved for the reason there appeared to be no legal liability upon the city.

OFFICIAL COMMUNICATIONS.**INFIRMARY DEPARTMENT.**

Boston, January 21, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Subject to your approval the Boston Infirmary Trustees have allowed a uniform rate of \$700 to all head nurses at the Long Island Hospital, dating from January 16, said amount being maximum granted in budget after service of one year.

Allowance of this rate is deemed advisable at the present time in order that the necessary quota of nurses may be retained. The budget provides for payment of thirteen head nurses on a sliding scale of \$600 to \$700 per annum, \$600 upon appointment, \$650 after service of six months and \$700 at the expiration of one year, but as frequent vacancies have occurred there is sufficient balance on this item to cover increases requested.

Very truly yours,

THOMAS C. O'BRIEN,
Chairman.

CHANGE IN DANCE HALL REGULATIONS.

Boston, January 28, 1920.

Your attention is called to the following change in regulation No. 4 of the "Regulations Governing Dance Halls in the City of Boston," issued by Mayor Peters on December 2, 1918, which hereafter will read:

"No. 4. One or as many more police officers as may be deemed necessary by the commanding officer of the division shall be in attendance at all public dances."

The above change becomes effective from January 28, 1920.

By order of

ANDREW J. PETERS, Mayor.

JOHN M. CASEY,
Chief, Licensing Division.

INFLUENZA EMERGENCY COMMITTEE.

Mayor Peters has announced in view of the prevalence of influenza in various other cities and of the tendency of the disease to increase in prevalence in Boston the appointment of an influenza emergency committee to co-ordinate all resources of the city for relief work. It will be the duty of this committee to supplement these resources if necessary and to make them available as the need arises.

It is constituted as follows: Hon. Andrew J. Peters, honorary chairman; Dr. William C. Woodward, chairman; President of the Boston City Council, Miss Mary Beard, Mr. Allston Burr, Miss Ida M. Cannon, Mrs. J. Randolph Coolidge, Miss Ellen Emerson, Mr. Richard W. Garrity, Col. Adam Gifford, Mr. Morris Hexter, Catherine McMahon, Mr. James F. McMurray, Dr. James J. Minot, Dr. Henry M. Pollock, Mr. Stockton Raymond and Rev. Michael J. Scanlan.

NOTE.—The condition of our accounts made it imperative that this department hold a sale for unpaid taxes at a date earlier than formerly. But the present force is inadequate to do the work and complete it promptly during the regular hours. It therefore became necessary to have this work done after hours, and accordingly, beginning December 18, it was carried on during the evenings and on Sundays.

The income to the city fully warrants this expenditure, which resulted in driving in during this short period of time \$898,732.21 of 1918 taxes (a gain of over \$600,000 for the corresponding period last year) and in addition the costs resultant from these descriptions amount to \$6,155.42 to date (a gain of \$4,700 over last year) and with two weeks to run before the advertisements appear in the *City Record*.

The estates described number 12,575 for 1918, and 11,000 for 1919, making a total of 23,575 for each of which the city receives 50 cents, a total of \$11,787.50.

Allowing \$3,000 for 1919 taxes to be paid before charging for descriptions, the estimated income on description costs alone amounts to \$8,787.50.

Respectfully,

FRANK S. DELAND,
City Collector.

FIRE DEPARTMENT.

BOSTON, January 26, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I would ask your approval to place under bonds, Benjamin F. Underhill, chief clerk, for \$3,000 and Edward L. Tierney, chief of License Division, for \$2,000.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

General Order No. 5.

EXAMINATION FOR PROMOTION.

The examination for promotion from district chief to the rank of deputy chief in this department will occur at Room 15, State House, at 9.30 on the morning of Wednesday, February 18, 1920.

All district chiefs in the department who have served in that grade for six months are eligible to take the examination. Application blanks may be obtained at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House. Only the first two sheets of the application blank need be filled out. In order that the applicant may be entitled to be notified for this examination, his application should be received at the civil service office to be placed on file on or before February 10, at 5 p. m.

The subjects of examination, with their respective weights, will be as follows: Experience, 13; report or general order, 4; practical questions of fire fighting, fire prevention, and rules and regulations of the department, 8. Total, 25.

Experience will be marked on the following basis: Six months' eligible, 65 per cent; five years at three points per annum, 15 per cent.

NOTE.—In estimating a man's length of service the unit will be six months.

Credit for class (or so-called "zone service") will be based upon the highest class (or zone service) an applicant has had up to the maximum of five and one half years. Credit for this service is given only in a man's present grade. Classes, or zones, with their credits, are as follows:

Class A, at 1 per cent per year. This includes Districts 3, 4, 5 and 7.

Class B, at $\frac{1}{2}$ per cent per year. This includes Districts 1, 2, 6, 8 and 9.

Class C, at $\frac{1}{4}$ per cent per year. This includes Districts 10, 11 and 12.

Class D, no additional credit. This includes Districts 13, 14 and 15.

Length of class, or zone service, credited will correspond with and not exceed the period of eligibility, plus the period for which credit is given for seniority, as outlined above.

Credits will be given as follows: Acting chief, 1 per cent a year. (Maximum, five years.) Acting deputy chief, $\frac{1}{2}$ per cent for each six months. (Maximum, five years.)

Commendations: Ordinary commendation, such as responding to alarm while off duty or other meritorious act, 1 per cent; high commendation, 2 per cent; especial commendation, 3 per cent; Fitzgerald medal, 4 per cent.

Only commendations appearing in department records and received in a man's present grade will be recognized.

Penalties, demerits: Insubordination, 4 per cent; cowardice at fire, 4 per cent; disrespect to superior, 3 per cent; conduct prejudicial to good order, 3 per cent; neglect of duty, 3 per cent; under influence of liquor, 3 per cent; conduct unbecoming a member, 3 per cent; other penalties, 1 per cent to 3 per cent.

If an applicant has a clear record for the past five years no demerits will be given for reprimands before that time. If, however, his record for the past five years is not clear, all reprimands will be taken into consideration.

Each applicant must bring his own penholder, pen, blotter, pencil, eraser, and ink.

HIRING OF HORSES.

Before any horses are hired to be used as leaders or for salting the department veterinary must be notified.

SKID CHAINS.

Company commanders will examine and report at once on the condition of all skid chains included in the equipment of their respective companies.

REPORTS OF ACCIDENTS.

Company commanders will hereafter send in reports of all accidents in duplicate.

PROMOTION.

The following promotion is hereby announced to take effect as of February 17, 1920: District Chief Edward J. Shallow of Fire District No. 4 to be acting deputy chief of Division No. 1 during the absence of the deputy chief of that division.

BOARD OF MERIT.

The Board of Merit, established in General Orders No. 62, series 1915, is hereby reorganized as follows: Chief of Department Peter E. Walsh, Chairman; Second Deputy Chief, Daniel F. Sennott; District Chief, Walter M. McLean.

CHANGES IN ASSIGNMENTS.

REOPENING OF MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasia has been resumed at the various buildings throughout the city.

Extensive repairs have been necessary by reason of the occupancy by the State Guard for the various gymnasia of the department. The buildings have been thoroughly equipped and placed in a satisfactory condition throughout and the work will be resumed with all its equipment and facilities as formerly.

The following buildings have gymnasia and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.

Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.

Cabot Street Gymnasium and Swimming Pool.—Roxbury.

Vine Street Gymnasium.—Corner Vine and Dudley streets.

Dorchester Gymnasium.—Corner Columbia road and Bird streets.

Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.

Ward 5 Gymnasium.—Corner Tyler and Oak streets.

D Street Gymnasium.—South Boston.

North Bennet Street Gymnasium.—North End.

Paris Street Gymnasium.—East Boston.

Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasia where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasia.

Basketball is permitted in certain gymnasia on the part of those who participate in class work.

Aesthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls and at 7.30 for working girls.

Tuesday and Friday—High school boys from 2.30 to 5 p. m. Men from 7.30 to 9.30 p. m.

Saturday—Grammar school boys from 2 p. m. to 4 p. m. Working boys from 7.30 to 9 p. m.

CARRYING FORWARD OF CONSTRUCTION APPROPRIATION.

The following was received:

City of Boston,
Office of the Mayor, January 26, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith a communication from the chairman of the Board of Park and Recreation Commissioners in which he requests that unexpended balances of appropriations of 1919-20 for F-12, Contracts for Construction, item of the budget, may be available during the next financial year. I respectfully recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

City of Boston,
Park and Recreation Department,
January 23, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—You are respectfully asked to make a request upon the City Council that the City Auditor be authorized to carry the following balances which will remain unexpended in this year's appropriation into the regular maintenance appropriation for the fiscal year 1920-21:

F-12, Contracts for Construction:

Repairing bridge on Commonwealth avenue, over Boston & Albany Railroad, at Cottage Farm.....	\$7,158 25
Cabot Street Bath House, repairs....	3,275 00
Total.....	\$10,433 25

A contract was made September 9, 1919, with W. Klingberg & Son, 50 Church street, New York City, to clean all the exposed metal work and the arches, place gunite and steel reinforcement upon the structures of the Cottage Farm Bridge for the sum of \$9,500. Most of this work is cement work, and Mr. Carty, engineer of the Public Works Department, says that contractor's equipment was delayed a month, being side-tracked by railroad in transit from New York, and now he is unable to proceed on account of cold weather, which will not permit this class of work to be done. The contract will be finished in the spring.

A contract was made October 1, 1919, with the Roxbury Construction Company of Boston for extensive repairs at the Cabot Street Bath House for the sum of \$12,040. This work has been completed, but the Board is withholding 15 per cent until after sixty-one days from the date of completion of the contract, January 15.

Another contract was made October 9, 1919, with the Thompson & Spear Company of Boston for the installation of a refiltration plant at the Cabot Street Bath House for the sum of \$3,469. This plant has been installed, but owing to a delay in the installing of necessary wires by the electric company, a sufficient length of time has not elapsed

to test the engine to warrant the payment of the entire sum on this contract.

Very respectfully yours,
JAMES B. SHEA, Chairman.

Ordered, That the City Auditor be authorized to carry forward to the next financial year, 1920-21, the balance of the appropriation for Park and Recreation Department, F-12, Contracts for Construction, amounting to \$10,433.25.

Referred to the Executive Committee.

COST OF ICE FOR CITY.

The following was received:

City of Boston,
Office of the Mayor, January 26, 1920.
To the City Council:

Gentlemen,—In accordance with the recent order passed by the City Council the chairman of the Park and Recreation Department has presented a statement showing what it would cost the city to cut and store sufficient ice for the needs of city institutions.

I am herewith transmitting to you a copy of this statement.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Park and Recreation Department,
January 20, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—In response to your memorandum of January 6, 1920, inclosing City Council order dated January 5, that your honor be requested to take such action as may be necessary so that some department in the city may cut and store sufficient ice from Jamaica Pond to provide for the needs of the city institutions, provided that ice can be obtained in this manner at a less cost to the city than by present method of purchase, I beg to report as follows:

The total amount of ice used by the city annually is now about 1,800 tons. In order to provide this amount of ice during the year, it will be necessary that at least 3,500 tons be stored to make up for the loss by melting. The initial expense to cut the ice and to provide storage capacity would be as follows:

The purchase of a suitable site of land containing 15,000 square feet for ice houses.....	\$7,500 00
Cost of building.....	10,000 00
Cost of tools and apparatus.....	1,000 00
	<u>\$18,500 00</u>

The above amount represents the total cost of installing a suitable plant.

The annual expenditure for harvesting and delivering should be figured as follows:

Cutting and loading on carts 3,500 tons of ice at \$1 per ton.....	\$3,500 00
Carting and storing in ice house at \$1 per ton.....	3,500 00
Delivering 1,800 tons of ice as needed in the various departments and institutions at \$2.50 per ton.....	4,500 00
Charging 10 per cent annually of cost of installing plant.....	1,850 00
Annual repairs to plant.....	750 00
Hay and sawdust for packing, and other materials.....	250 00
10 per cent supervision.....	1,435 00
	<u>\$15,785 00</u>

The cost of ice delivered to the city during the past year is as follows:

Boston City Hospital, 1,100 pounds at \$5.80 per ton.....	\$6,380 00
Approximately 700 tons delivered in small quantities at the various departments and other institutions at \$8.00 per ton.....	5,600 00
	<u>\$11,980 00</u>

According to the above statement, after a careful investigation, I beg to report that it would not be advisable for the city to attempt to cut ice on any of its ponds. I believe it quite possible that some seasons, particularly when there is a large fall of snow (as is the case at the present time) the expense of harvesting ice would be even greater than the table above represents.

Very respectfully yours,
JAMES B. SHEA, Chairman.

Placed on file.

REWARD FOR APPREHENSION OF CLANCY MURDERER.

The following was received:

City of Boston,
Office of the Mayor, January 26, 1920.
To the City Council:

Gentlemen,—Several arrests have been made by the Boston police in connection with the murder of

Patrolman William G. Clancy. It remains to be seen whether or not the real murderer has been apprehended and the Mayor should be in a position to offer, on behalf of the city, the maximum reward for the apprehension and conviction of the criminal.

It is unusual for the City of Boston to offer a reward for the apprehension of criminals, but I feel that this situation is an unusual one and demands unusual action on the part of the authorities. An officer of the law has been struck down in the performance of his duties. This crime in itself is a most heinous one. But the fact that the officer in question was a member of a newly organized force lends to the crime an added significance which we cannot and will not pass over.

Every facility the city can offer to render the work of the police easier in apprehending the criminal should be offered, and for that reason I recommend the immediate passage of the accompanying order that the city may be in a position to offer the maximum legal reward in case it seems advisable to do so.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$500 be appropriated to be offered as a reward, under the provisions of section 10, chapter 217 of the Revised Laws, for the detection and apprehension of the person or persons responsible for the death of William G. Clancy, late a member of the Police Department, said amount to be charged to the Reserve Fund.

Referred to the Executive Committee.

COLLECTION OF TAXES.

Coun. McDONALD, for Coun. Moriarty, offered the following:

City of Boston.

In the year Nineteen Hundred and Twenty.

An Ordinance Relative to Collection of Taxes.

Be it ordained by the City Council of Boston, as follows:

From and after the date of the passage of this ordinance the City Collector shall exercise the power of taking to enforce the lien for taxes.

Referred to the Committee on Ordinances.

ANNUITY FOR MRS. SUSAN LEONARD.

Coun. McDONALD offered an order—That there be allowed and paid an annuity of three hundred dollars to Susan Leonard, widow of Michael C. Leonard, late a member of the Fire Department, who died from injuries received while in the performance of his duty; said annuity to continue so long as said widow remains unmarried, and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Referred to the Executive Committee.

FIXING OF CITY TAX LIMIT.

President FORD offered the following:

Whereas, His Honor the Mayor has proposed to the Legislature a bill wherein it is provided in substance that the tax limit of the City of Boston in the future for general maintenance purposes be fixed by the Mayor and a committee of two to be appointed by the Governor and to be residents of the City of Boston; and

Whereas, This bill seeks to delegate in a wrong direction an important function of a municipal government:

Be it resolved, That the City Council of the City of Boston is opposed to the passage of this bill, and further that it is the opinion of the City Council of the City of Boston that the tax limit should be fixed by the Mayor and the City Council and not by those outside the city government itself; and

Be it further resolved, That a copy of these resolutions be sent to the Clerk of the Massachusetts Senate and the Clerk of the House of Representatives.

Coun. McDONALD in the chair.

Coun. FORD—Mr. President, this proposed piece of legislation, to my mind, is pernicious. As far as success in undertaking the affairs of the city is concerned in the future, the Chief Executive will be at the mercy of two men, who will compose the majority of the committee, and who are in no way answerable to the voters of the City of Boston. This seems to me to be wrong in theory as well as in practice. It is wrong to delegate the most important function that a city government has to outsiders who would know little of the affairs of the city, and to put it mildly the Mayor is reprehensible in excluding the City Council from his proposed bill. Mr. President, too long has the City Council been shut out from conducting the ordinary affairs of the city, and it seems to me that the Mayor should, if he feels it necessary because of press of time, delegate some of his duties to the City Council which he has been delegating to outside committees in the past year. The City Council feels that it is an important branch of the city government, and must not be excluded from conducting the affairs of the City of Boston as it has

been excluded in the past year. I feel this is fair criticism in view of the numerous committees appointed to conduct important business. Now, does his Honor the Mayor intend to allow the important matter of fixing the tax limit to be delegated to two citizens of the City of Boston, who will in all probability from the lack of close touch with its affairs be ignorant of the needs of the city? This power belongs to the Mayor and City Council and it is presuming too much for the Mayor to propose this bill wherein the Council is to be absolutely ignored. It is reasonable to suppose with the tax limit now fixed by statute at \$6.52 per thousand, and the city now needing at least \$10.52 per thousand, that there could be no public improvements; there could be no increases in salaries; the ordinary affairs of the city could not be conducted without the consent of these men in fixing the tax limit sufficiently high to raise the proper amount of money. If these things are so, and these two men appointed are hostile to a future administration, they could wreck it; and what is more they could ruin the city; and not being elected by the people would have little to answer for to the latter. I submit that this sort of municipal government is wrong in theory and pernicious in practice. A vital matter such as fixing the tax limit must be fixed by those charged with trusteeship by the people. It would be better to leave this matter with the members of the Legislature, who are directly answerable to the people for the advancement of the city and the municipalities which are created by the state. I submit that this proposed bill should be withdrawn, and one substituted wherein it is provided that the tax limit for general maintenance purposes now fixed by the Legislature be fixed by the Mayor and the City Council of the City of Boston. I ask that the matter be referred to the Executive Committee.

The matter was referred to the Executive Committee.

INCREASE IN ANNUITY FOR MRS. ANNA J. ELLIS.

Coun. COLLINS offered the following:
Resolved, That the City Council of Boston hereby approves the enactment of legislation to provide for an increase to \$50 a month in the annuity now paid under chapter 569 of the Acts of 1898 to Anna J. Ellis, widow of James M. Ellis, a foreman in the Street Department, who was killed in the performance of his duty.

Referred to the Executive Committee.

LEAVE OF ABSENCE TO WORLD WAR VETERANS.

Coun. DONOGHUE offered an order—That the heads of departments be authorized to grant leave of absence, without loss of pay, to employees who are members of the Legion of World War Veterans who desire to attend the convention on Saturday, January 31, 1920.

Passed.

PENSION FOR CORNELIUS J. SHEA.

Coun. DONOGHUE offered an order—That the City Council of Boston hereby favors legislation to provide for the payment of pension to Cornelius J. Shea, a former member of the Police Department who became insane from injuries received while in the performance of his duty.

Referred to the Executive Committee.

OPINION CONCERNING SUFFOLK SCHOOL, ETC.

Coun. McLAUGHLIN offered an order—That the Corporation Counsel be requested to furnish the City Council his opinion in answer to the following questions:

1. Is the City of Boston or the County of Suffolk required under the statutes now in force to maintain an institution for the detention or reformation of juvenile offenders?

2. In the absence of action by the City Council or the County Commissioners and without further legislation, is it legally possible for the Mayor to abolish the Children's Institutions Department and to close the Suffolk School for Boys?

Passed.

RECESS TAKEN.

Report accepted; order passed.

COPY OF REPORT OF POLICE COMMISSIONER.

Coun. HAGAN offered an order—That his Honor the Mayor be requested to send to the City Council a copy of the report which the Police Commissioner made to the Mayor on April 10, 1919, reporting in detail upon the condition of every police station in the City of Boston, and the City Prison and the House of Detention.

Coun. HAGAN—Mr. President, this order is offered because of the introduction of an order here in the Council asking that a special committee of five members of the City Council, with the Building Commissioner and the chairman of the City Planning Board, act as a special committee to make a thorough survey into the conditions of all the police stations in Boston. I believe that committee has been appointed, and since that order was introduced and the committee was appointed there has come to my attention the report that the Police Commissioner made to the Governor, which I will submit here as a matter of record. It appears from a copy of the report that I have obtained upon the matter that such a survey and study was made, and that it was made last April. For some reason or other, through excessive modesty or whatever reason appealed to him, during the entire police controversy the Police Commissioner did not make that report public or give the public the information that such a survey was made, and for some reason not known to me, possibly a good reason, no one in the Mayor's office saw fit to make the report known. That report has been in the hands of the Mayor since last April. It will be very helpful to the subcommittee. It will perhaps save them the need of making trips and a study of the matter dealt with in that report themselves, as the report of the Police Commissioner may be sufficient to give the committee the information desired. That is my reason and object in asking at this time that the Mayor send the report to the City Council so that they may have it before them.

The order was passed under a suspension of the rule.

INFORMATION CONCERNING INCREASED REVENUE.

Coun. HAGAN offered an order—That his Honor the Mayor be requested to ascertain from the city authorities of St. Louis and Los Angeles the merits of the plans which they have under consideration for increased revenue to the city, which imposes a license tax upon every form of business, and to report thereon to the City Council through the municipal authorities of Cleveland, Ohio, the result of their study and conclusions regarding the plan under consideration in that city to impose upon its citizens a municipal income tax.

Coun. WATSON—Mr. President, I desire to say that I think this is not just the time for us to inter-

fere with the Mayor's office. I think if this information is to be had by the Mayor he should get it for his own benefit, and that we should not interfere in the matter. I think the order is entirely unnecessary and I intend to vote against it.

Coun. HAGAN—Mr. President, I do not see the gentleman's objection. Perhaps if he will state it I can eliminate the part to which he objects. I do not wish to have the order passed in a form that will be objectionable to anybody. The order reads as follows (reading the order). I have simply asked his Honor to get that information, not necessarily to convey it to us unless he so sees fit. There is nothing in the order that requires the information to come here. I feel that the Mayor ought to have the assistance of every member of the City Council in getting increased revenue for the city. In such times as these increased revenue for the city means the providing of increased salaries to city employees, for which there is urgent need, and it will provide for a great many other things in these clamorous times. I don't see just what the gentleman objects to in the order. If there is anything he would like to eliminate, still leaving the order in such form that it will carry out what is intended, I shall be glad to eliminate it. I do want the Mayor to know that the city authorities in St. Louis and Los Angeles are considering certain plans for increased revenue in those cities. I want him to know that Cleveland, Ohio, has under consideration a plan along that line. Having such information, he may make his investigation in his own way and ascertain whether the result of his examination in these other cities may be fruitful of result to Boston. That is all I have in mind.

Coun. WATSON—Mr. President, I don't think the gentleman explains it in such a way as to change my objection. He has asked that his Honor the Mayor be requested to ascertain from certain municipalities certain information, in order that the Mayor may be able to increase the revenue of the city in certain ways. The way to get at this I will tell the gentleman, if he does not know, is to go down and see the Mayor about it personally. If the Mayor sees fit to accept his suggestion as an individual, very well. But I don't care to advise the Mayor in regard to getting some information to use in his office. If you want to get something for this body I am entirely willing to ask the Mayor to help in getting the information. Otherwise I shall not vote for the order.

Coun. HAGAN—Mr. President, I am entirely willing that the order should read that he get the information and then send it to the City Council, so that we may have it, if that will answer the gentleman's objection. I am perfectly willing to insert an amendment to that effect in the order.

Coun. WATSON—Mr. President, I am perfectly willing that the gentleman shall introduce any order asking for information for our benefit, if he so desires. But I don't see why he asks the Mayor to get some information for us that we can get ourselves. As a matter of courtesy, I don't think we should pass such an order. To be frank with the gentleman opposite, I think we should not interfere and stick our noses into business that is not our concern, as much as we sometimes had a tendency to do in the last six or seven months. I think we should attend to our affairs, and that we will do mighty well if we do that, not bothering the Mayor with his affairs.

Coun. HAGAN—Mr. President, I do not quite grasp the gentleman's objection to the order. I simply draw attention to this fact, suggesting what is being done in other cities, thinking that the Mayor might with profit take some action of a similar nature here. We are all interested in the welfare of the city government of Boston. We always claim, whenever the question arises, that we are acting upon matters concerning the welfare of the city equally with the Mayor, and I believe we ought to improve every opportunity that comes along to help the Mayor out, when we can. My thought in the matter was to call to the Mayor's attention something that he might know nothing about unless this order were presented in this way. I don't know that he knows anything about this matter.

Coun. WATSON—Mr. President, it would be a nice thing, wouldn't it, if the Mayor should come back at us and say that he already had the information and suggest that before starting anything of the sort supposed to be for his assistance we first ask whether he already has the information or desires to have it? I will not put myself in the position of getting any more such replies from the Mayor's office as we have received recently, concerning our sticking our noses into his business. I shall vote against the order.

The rule was suspended and the order was declared passed. Coun. WATSON doubted the vote and asked for the yeas and nays.

The order was passed, yeas 6, nays 2, Coun. McDONALD and WATSON voting nay.

GENERAL RECONSIDERATION.

Coun. WATSON moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 5.40 p. m., on motion of Coun. McDONALD, to meet on Saturday, January 31, at eleven o'clock a. m.

PROPOSALS FOR FURNISHING DOUBLE AND SINGLE TEAMS AND AUTO TRUCKS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for furnishing double and single teams and auto trucks in Districts Nos. 2, 5 and 6-9, between February 1, 1920, and January 31, 1921, and giving bond therefor of a surety company approved by the Commissioner in the sum of one thousand dollars (\$1,000) for each district, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex, and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, February 6, 1920, with a certified check for three hundred dollars (\$300) for each district, or nine hundred dollars (\$900) for all the districts, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. The attention of all bidders is called to the fact that failure to bid on furnishing auto truck and chauffeur may lead to the rejection of the entire bid. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price bid on any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interests of the city so to do.

PROPOSALS FOR CLEANING CATCH-BASINS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for taking out and removing about 24,000 cubic yards of material from about 7,600 catch-basins in Districts 1, 2, 3, 4, 5, 6 and 7, between February 1, 1920, and January 31, 1921, and giving bond therefor of a surety company approved by the Commissioner in the sum of two thousand dollars (\$2,000) for each district, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal, accompanied by a statement clearly setting forth the equipment of which the bidder is possessed for the proper and speedy carrying out of such contract (such equipment to be considered as an essential consideration in the awarding of the contract), should be inclosed in an envelope, sealed, marked "Proposal for Cleaning Catch-basins," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, February 11, 1920, with a certified check for one thousand dollars (\$1,000) for each district, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price bid on any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

On February 2 to M. H. Loonie for collecting and removing offal in the West Roxbury district. Bids opened January 30, 1920:

M. H. Loonie, \$1.70 per cubic yard; Walter Griffin, \$1.73 per cubic yard; J. V. Kennedy, \$1.73 per cubic yard; J. A. Janse, \$1.87 per cubic yard.

On February 2 to bidders indicated in the following communication for collection of ashes, etc., for year 1920 in East Boston and Brighton:

BOSTON, February 2, 1920.

To the Mayor of Boston:

I respectfully request your permission to award contracts for collecting and removing ashes, etc., after readvertisement, in the East Boston and Brighton districts as follows: East Boston district, East Boston Contract Company, at the rate of 60 cents per cubic yard, and Brighton district, McMurtry Brothers, at the rate of \$1 per cubic yard.

In letter submitted by A. E. DeStefano it was stated that an error was made in bidding on the Brighton district rather than the East Boston district, as it was intended.

The following bids were received January 30, 1920:

East Boston District.—East Boston Contract Company, 60 cents per cubic yard; D. Cerulli & Co., 85 cents per cubic yard; E. J. McHugh, Jr., 85 cents per cubic yard; Salvatore Grecco, 94 cents per cubic yard.

Brighton District.—A. DeStefano, 74 cents per cubic yard; McMurtry Brothers, \$1 per cubic yard.

Respectfully yours,

T. F. SULLIVAN,

Commissioner of Public Works.

On February 2 to bidders indicated in following communication for collection of ashes 1920-21, in Districts 1-5:

To the Mayor of Boston:

I respectfully request your permission to award contracts for collecting and removing ashes, etc., in the various districts of this department during the coming year, as follows: District 1, to be readvertised; District 2, to be readvertised; District 3, the award for West Roxbury is to the second lowest bidder, as the lowest bidder claims to have made an error in the calculation of the proposal submitted; District 4, William J. Hunt, at 62½ cents per cubic yard; and District 5, M. McGinnis & Co., at 33 cents per cubic yard.

The following bids were received January 21, 1920:

No. 1, *East Boston District*.—East Boston Contract Company, 65 cents per cubic yard; S. Greco, 94 cents per cubic yard; D. Cerulli & Co., 85 cents per cubic yard.

No. 2, *Brighton District*.—McMurtry Brothers, \$1 per cubic yard.

No. 3, *West Roxbury District*.—M. McGinnis & Co., 34½ cents per cubic yard; John J. Moore, 55 cents per cubic yard; M. DeMatteo, \$1.10 per cubic yard.

No. 4, *Dorchester District*.—William J. Hunt, 62½ cents per cubic yard; Joseph P. McCabe, 68 cents per cubic yard; D. M. Biggs & Co., 72 cents per cubic yard.

No. 5, *Hyde Park District*.—M. McGinnis & Co., 33 cents per cubic yard; D. F. Sexton, 48 cents per cubic yard; John J. Moore, 60 cents per cubic yard; M. DeMatteo, \$1.10 per cubic yard.

Respectfully yours,

T. F. SULLIVAN,

Commissioner of Public Works.

On February 2 to Edward J. McHugh, Jr., for teaming coal to ferryboats, between February 1, 1920, and January 31, 1921. Bids opened January 19, 1920:

Edward J. McHugh, Jr., 35 cents per ton of 2,000 pounds; East Boston Auto Contracting Company, 55 cents per ton of 2,000 pounds.

On February 4 to Hugh Cannon for collecting offal in East Boston district, as per following communication:

BOSTON, January 31, 1920.

To the Honorable the Mayor:

I respectfully request your permission to award contract for collecting and removing offal in the East Boston district to Hugh Cannon, the only bidder, whose bid was received January 22, 1920.

When the proposals were received the bid of Hugh Cannon was considered excessive and proposals for this district were readvertised; in the meantime the bid was reconsidered and the increased price over the price for 1918 was decided not to be excessive and no proposals for new bids were given out.

Your approval of this bid is therefore respectfully requested.

Hugh Cannon: No. 1, East Boston district, \$1.97 per cubic yard.

Respectfully yours,

T. F. SULLIVAN,

Commissioner of Public Works.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

FIRE DEPARTMENT.

On January 30, for hiring extra horses as per following communication:

BOSTON, January 29, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I have been compelled to hire extra horses for the Fire Department. The extreme conditions resulting from the heavy snow storm has made this necessary. The horse-drawn apparatus needed extra horses so that it might be drawn through the snow, and in many instances it has been found necessary to use puns drawn by horses to reach certain sections of the city where the ordinary apparatus would not be available for putting out fires.

I authorized the veterinary of the department as soon as the storm developed to hire the necessary horses wherever he could get them. He has expended up to the present time approximately six hundred (600) dollars, and eventually the amount will approximate one thousand (1,000) dollars. I would ask your Honor's authority to hire these extra horses at a price that would aggregate approximately one thousand (1,000) dollars.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Approved January 30, 1920.

ANDREW J. PETERS, Mayor.

Ordered, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out of Angelo street, Boston proper, as a highway, southwesterly from Charter street, under the order of the Board of January 29, 1920, and awards no damages therefor.

Ordered, That this Board determines that no estate receives benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement above specified.

Approved January 31, 1920.

Whereas, The Board of Street Commissioners has passed the order of notice recorded on its records for the current year, and has caused a copy of said order to be published November 29 and December 6, 1919, in the *City Record*, and has given the public hearing, notice of which was given in said order, and

Whereas, Acting under the provisions of chapter 486 of the Acts of the Legislature of 1909 and all other authority thereto enabling, the Board of Park and Recreation Commissioners of said City of Boston, with the approval of the Mayor, has selected, designated and requested the Board of Street Commissioners of said city to take for said city for playground purposes the parcels of land hereinafter described, situate in that part of said city known as Dorchester, it is

Voted, That the Board of Street Commissioners of said City of Boston hereby takes, under the right of eminent domain, in fee for said city for playground purposes the said parcels of land bounded and described as follows:

A parcel of land supposed to belong to Bessie S. K. Rankin, bounded: Southwest by Adams street, by two measurements, 70-100 feet and two hundred five and 64-100 feet on a curve of five hundred and 80-100 feet radius; northwest by land of Cook, of Coffin, Ainsley street, of Wheeler, of Coffin and of person or persons unknown, by five measurements, one hundred twenty-one and 82-100 feet, one hundred twenty-four and 2-100 feet, forty and 8-100 feet, ninety-three and 50-100 feet and sixty-six and 44-100 feet; northeast by land hereinafter described as taken from George H. Poor, two hundred one and 38-100 feet; and southeast by land of The Daly Industrial School and by land hereinafter described as taken from Charles A. Coffin, by three measurements, 47-100 feet, two hundred eleven and 27-100 feet and two hundred twenty-seven and 21-100 feet; containing ninety thousand five hundred eighty-seven square feet, more or less.

A parcel of land supposed to belong to Charles A. Coffin, bounded: Southwest by Adams street, by two measurements, one hundred five and 46-100 feet on a curve of nine hundred twelve and 88-100 feet radius and one hundred forty-four and 79-100 feet; northwest by land before described as taken from Rankin, by two measurements, two hundred twenty-seven and 21-100 feet and two hundred eleven

and 27-100 feet; northeast by land of The Daly Industrial School, two hundred forty-three and 17-100 feet; and southeast by land of William Jacobs Heirs, three hundred eighty-six and 39-100 feet, containing ninety-nine thousand nine hundred thirty-four square feet, more or less.

A parcel of land supposed to belong to George H. Poor, bounded: Northeast by Gustine street, two hundred one and 61-100 feet; southeast by land of The Daly Industrial School, fourteen and 53-100 feet; southwest by land before described as taken from Rankin, two hundred one and 38-100 feet; and northwest by land of person or persons unknown eleven and 59-100 feet, containing twenty-six hundred thirty square feet, more or less.

Said parcels are shown on a plan marked, "City of Boston, Adams Street, Gustine Street, Dorchester, November 10, 1919, F. O. Whitney, Chief Engineer, Street Laying-Out Department," and on file in the office of the Street Laying-Out Department.

Approved January 31, 1920.

The Board of Street Commissioners finds the amounts hereinafter set against the undermentioned estates to be, in the opinion of the Board, just estimates of the amounts that should be paid to said estates for damages occasioned them by the taking made for playground purposes on Adams street and Gustine street, Dorchester, under the order of the Board January 29, 1920, and respectfully submits the same to you for your approval.

OFFICIAL COMMUNICATIONS.

PURCHASE OF SUPPLIES FROM SUPPLY DEPARTMENT.

BOSTON, January 30, 1920.

To the Heads of Departments:

GENTLEMEN,—It has been brought to my attention that the heads of certain departments and employees in departments have not been obeying the rule laid down in section 2, chapter 35, of the Revised Ordinances of 1914. I therefore desire to call your attention to this section which is as follows:

"Every officer in charge of a department requiring materials, apparatus and other supplies, except furniture and those supplied by the Superintendent of Printing, shall obtain the same of the Superintendent of Supplies by means of a requisition therefor on blanks to be prepared by the superintendent."

I herewith inform you that any infraction of this rule will be dealt with summarily, and I also desire to advise you that the City Auditor has been directed not to approve for payment any bills for supplies purchased contrary to the provisions of section 2, chapter 35, of Revised Ordinances of 1914.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

UNIFORM RATE FOR PUPIL NURSES.

INFIRMARY DEPARTMENT,
BOSTON, January 29, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Subject to your approval, the Boston Infirmary Trustees have allowed a uniform rate of \$180 per annum to all pupil nurses at the Long Island Hospital, dating from January 28, 1920, said amount being the maximum requested in budget of 1920, after service of two years.

This increase from a sliding scale of \$120 to \$144 per annum (\$120 on appointment and \$144 on expiration of one year) is to meet rates offered for similar positions in other hospitals.

Very truly yours,

THOMAS C. O'BRIEN,
Chairman.

Approved February 2, 1920.

STATEMENT BY FINANCE COMMISSION RELATIVE TO CERTAIN EVIDENCE GIVEN AT PUBLIC HEARINGS ON PURCHASE OF ROAD OIL.

BOSTON, February 4, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—At the recent public hearings held by the Finance Commission on the purchase of nonasphaltic road oil, it appeared that the advertised contract for 40,000 gallons was awarded to the American Oil Products Company (Matthew P. Scullin) at 8.45 cents per gallon, this amount being the lowest bid received on specifications submitted by the contractor himself. The contractor also submitted a bid of 11.75 cents for oil to conform to the specifications of the city, and a bid of 9.9 cents for oil to conform to a second set of specifications furnished by him. Before shipping this contract (8.45) oil, the contractor, ostensibly to prove the superiority of the 9.9 oil and to induce the city later to buy this 9.9 cents oil, voluntarily offered to ship one car at the contract price.

The car of the 9.9 oil and two cars of the 8.45 oil arrived at the Huntington avenue siding on March 27, and remained there until April 8, when one of the 8.45 cent cars (1006) was tapped and the oil piped into trucks equipped with oil-spreading apparatus and a small amount of the oil laid upon the streets on that afternoon. From April 8 to April 14 no more oil was laid on account of the wet weather, with the exception of three truck loads on April 10 from the 8.45 cent car. On April 9, however, five requisitions were issued by the Public Works Department to the Supply Department for the purchase of approximately 45,000 gallons (five cars) of the 9.9 cent oil. These requisitions were forwarded to the contractor by the Supply Department on April 10.

The Commissioner of Public Works testified that he requested the Supply Department to purchase the first five cars of the 9.9 cent oil on the report of the Division Engineer, Mr. Murphy, that it was a better oil than the 8.45 cent oil, as shown by the results of its application on the streets.

The Division Engineer, Edward F. Murphy, testified under oath that he observed the results of laying the alleged superior oil on the streets which the contractor had bid to supply the city at 9.9 cents per gallon and which had been supplied under his contract for 8.45 cents a gallon; that it was a heavier oil, similar to an asphaltic oil, of better body, darker on the street, and seemed to stand up under rain or weather conditions better than the lighter or cheaper (8.45) oil; that the 9.9 cent oil had been laid about a week before he decided that it was a better oil and that he recommended it to the commissioner, who accepted his report.

The records made at the time by the inspectors of the Public Works Department in their diaries and daily reports show that none of this 8.45 cent oil was spread upon the streets until the afternoon of April 8, and that the car containing the 9.9 cent oil was not tapped and no oil was drawn therefrom and laid upon the streets until April 14, five days subsequent to the issuance of the requisitions for five cars thereof by the Public Works Department.

It further appeared that both grades of oil were purchased by the contractor at the same price and that they were substantially alike.

According to the evidence the orders of the Commissioner of Public Works for the purchase of five cars of the 9.9 oil, issued to the Supply Department on April 9, were based upon the report of the division engineer, which was false and without foundation in fact, inasmuch as at that date none of the 9.9 oil had been used.

The Finance Commission presents these facts for appropriate action by your Honor.

Respectfully submitted,

THE FINANCE COMMISSION,
by GEORGE A. FLYNN,
Chairman.

BOSTON PUBLIC LIBRARY.

On February 1, 1919, total number of volumes, 1,173,695, or 887,163 in Central Library and 286,532 in 14 branch libraries, a net increase of 16,369 volumes since the previous year. Statistical department, about 21,000 volumes; Patent Department, 14,427 volumes; special collections (rare) about 62,000 volumes. The Fine Arts Department has a collection of 53,451 photographs of works of art and 7,726 lantern slides. It circulates yearly over 21,000 volumes and 2,000 portfolios of pictures. Reading-rooms (*i. e.*, minor branches) 16, besides those in the 15 libraries, and each of them is also a delivery station. Periodicals and newspapers in various reading-rooms, 2,200. Number of books circulated in 1918, 2,028,053. Number of borrowers' cards in use, 94,677.

Cost of maintenance for 1918, \$479,846 or \$55,402 more than in 1917. Expenditure in 1917 and 1918 for Central Library extension, \$104,654 (from loan); total cost of same to February 1, 1919, \$288,120. Valuation of property, \$6,800,000, approximately; Central Library building on Copley square, costing \$2,756,384, opened on March 11, 1895.

ADDRESS OF MAYOR PETERS.

DELIVERED TO CITY COUNCIL, MONDAY, FEBRUARY 2, 1920.

Gentlemen of the Council:

There may seem to be little need on this occasion of those customary greetings that mark the opening of the fiscal year. For the most part we are not new acquaintances. The city charter grants us all a liberal tenure in the offices we hold and in this manner achieves a certain continuity of membership as well as of policy in the government. Only one seat at the Council table presents a new occupant today, and the executive branch, represented by the heads of departments here assembled, exhibits few changes.

Yet the custom which brings us together on these annual occasions is a useful one. We are compelled once in a year, at least, to leave the too familiar region of executive routine and to view the work we have accomplished and the tasks awaiting us in a broader perspective; to see ourselves as parts of a whole, functioning, if we function well, in reasonable harmony with one another, yet always with a certain emulation, arising, no doubt, from our common regard for the interests of the citizens.

The new councilor happens to be one who has represented our country with singular gallantry on the field of battle. Like most of his comrades he has promptly laid aside the uniform of war and his presence among us may be said to symbolize the return of the American soldier to the sober duties of citizenship. We are proud to have such a man as our colleague. The spirit of the American Army, its youthful ardor and initiative and faith in great ideals, seems to enter this chamber in his person. Let me offer him for myself and all his associates present the right hand of fellowship and welcome.

FINANCIAL REVIEW.

The year just closed has been one of gradual emergence from war limitations and war burdens. In almost every phase of the financial administration, in so far as the city has control, there was evidence of progress. In spite of wage increases and soaring prices, the appropriations for the regular city departments were only \$315,289 more than in 1918. This amount, and much more, was absorbed by the increase in valuations, with the result that the city tax rate showed a positive reduction. While the total rate, including the assessments for state, county and school expenses, increased from \$21.20 to \$23.60, the city rate, including the charge for debt requirements, declined from \$12.37 to \$12.13. Nor was this year an isolated instance of relative economy in the city departments. In a period of seventeen years, from 1903 to 1919, inclusive, the city tax rate has advanced only 24 per cent, while the county rate has advanced 65 per cent, the rate for schools 69 per cent, and the rate for state assessments 315 per cent. The last figure is magnified somewhat by the street railway deficit of a particular year, but, making every allowance, it does not seem that the high cost of government in Boston can be charged to the central administration, which in fact controls only about 37 per cent of the total expenditure.

The cash remaining in the treasury January 31, 1920, amounts to \$3,769,478, the largest surplus ever known in the his-

tory of the city. As this administration began with an inherited deficit of \$804,-879, the showing is one that reflects great credit upon the officials responsible for it, especially the City Collector.

The other heads of departments have done their share in making this surplus possible. At the end of 1917, the last year of the preceding administration, the balances of appropriations amounted to \$55,561. At the end of 1918 they reached a total of \$576,524 and at the end of 1919, of about \$494,689. It is evident that, having once marked out their program of expenditure for the year, the present heads of departments do not feel required to expend the full amount but take advantage of opportunities that may be offered to save unnecessary outlay.

The collection of taxes in 1919 went beyond all previous records in the amount received. The percentage of current taxes collected approximated normal figures and the percentage of the previous year's taxes was the highest ever known.

The net debt of the city, excluding the Rapid Transit debt, has declined by \$4,038,667 since January 31, 1918. The reduction in 1918 was \$2,584,861 and in 1919, \$1,453,806.

This financial showing, on the whole, is distinctly creditable. I am aware that some of the improvements recited have been due in part to external circumstances, but this is true in an even greater degree of the increased expenditures. The fact is, conditions have changed so greatly in Boston that comparisons with earlier years are no longer exact. Comparisons with other cities, of course, have nearly always been misleading.

THE COMING YEAR.

The year 1920 opens with a prospect of largely increased expenses. The wage increases of June 1, 1919, impose an additional burden of \$416,000 and the new wage increases are estimated at \$1,500,000. The cost of supplies and materials is higher now than the average of last year and there are no indications of an immediate decline. The pension list is constantly increasing. The Acts of 1919 extend soldiers' relief to veterans of the war with Germany and the list of applicants for this just and necessary assistance is already a formidable one. The item for mothers' aid, already large, will be substantially larger this year on account of increased prices. The claims against the city for damage done during the police strike are expected to aggregate a considerable sum. All these are increases that fall within the appropriations under the tax limit.

Among those that fall outside the limit is the school allowance, which has been increased from \$5.38 to \$6.71 per thousand or, in actual figures, by \$1,828,311. The cost of the State Guard during the recent disturbances, estimated at some \$3,000,000, is to be defrayed by an issue of bonds, payable in ten annual installments, of which about 40 per cent, or \$175,000 a year, including interest, will fall upon Boston. An addition of \$3 to the usual poll tax will be collected to the full quota of assessable polls (minus an allowance for the number of enlisted men) from every city and town by the state, and any deficiency in payments must, of course, be

made good by the property taxpayers. The estimate for the state tax is \$1,000,000 more than last year and about one third of this additional sum will be assessed upon Boston. The threat of remission or, as I regard it, confiscation of the subway rentals, in accordance with a suggestion renewed by the trustees of the Boston Elevated Railway Company in their recent report, if carried into effect, means a loss of approximately \$1,500,000 in annual income. To meet the obligations of the city this sum would have to be added to the debt requirements and collected from the taxpayers year after year for a period of several decades. Finally, there is a loss of \$470,000 from liquor licenses.

OFFSETTING GAINS.

Against this loss and these additional charges may be set certain probable gains. The Elevated Railway Trustees believe that on June 20, 1920, "no deficit will exist to be assessed upon cities and towns." If their forecast proves correct, the City Treasury will be relieved of any charge corresponding to the sum of nearly \$3,000,000 which was paid, under protest, last year. The rentals for market leases have been advanced and the city will gain nearly \$40,000 a year by this readjustment. The removal of delinquent boys from the institution at Rainsford Island will save, perhaps, \$50,000 of annual expense, besides the proposed investment of \$150,000 for buildings, which can now be transferred or rescinded. At Deer Island a similar arrangement with the state authorities will probably result in a larger saving, variously estimated at from \$150,000 to \$275,000 a year; and a plan of even broader scope for dividing the residents of Long Island and transferring them to more suitable and economical quarters is now under consideration. On each island the existing plant will remain as an available asset to the city.

INCREASE OF TAX LIMIT.

In the main, the coming year will be one of largely increased outlay accompanied by some offsetting gains. These gains, however, lie for the most part outside the income and expense account of the city departments and this is the field in which relief is needed. To meet wage increases and the other new liabilities the Legislature at its special session raised the tax limit to \$10.52, although the Mayor and the City Council, voting unanimously, had represented the need of a larger sum. At this limit we shall be permitted to appropriate for this purpose from the tax money only \$1,218,111 more than last year.

NEED OF ADDITIONAL REVENUE.

But even this amount, when added to the increase of the last two years and the growing burden of the school, state and county charges, imposes a heavy strain on owners of real estate, who individually and through the real estate associations have lodged a quite natural protest. There is still need, not only of rigid economy in the departments, where economy can be applied without hardship to the working force or prejudice to the service, but of additional sources of revenue, especially in the form of fees for private benefits hitherto conferred without charge. Having the protests of real estate owners in mind, I have recently appointed a committee to examine the subject of special fees and incidentally to offer suggestions for economy in administration and will recommend suitable action based upon its

report. In the meantime real estate is clearly bearing its maximum load of taxation, both in the high average valuation and in the rates imposed, and a continuance of the present system must operate to check building operations and thus directly and indirectly to increase rentals. The pressure of high taxation is felt, not by the taxpayers alone, but by the whole community. No effort must be omitted that promises escape from the vicious circle of high living cost, high taxes, and high living cost again, in which the people and the government seem to be revolving.

BORROWING CAPACITY.

The estimated borrowing capacity for 1920 is only \$2,104,749. Out of this must come liberal allowances for street and sewer construction, which last year absorbed about \$1,800,000 of the loan money. The list of improvements urged as necessary includes such items as the Chelsea South Bridge, a new ferryboat, police stations in East Boston, Roslindale and the city proper, a fireboat station, municipal buildings in Hyde Park, East Boston and the West End, new buildings in connection with the proposed transfer from Long Island, and research and pathological laboratories and quarters for house officers at the City Hospital. While no one of these, perhaps, will prove as costly as the Public Latin School building, for which \$750,000 was appropriated last year, the aggregate cost will far exceed the funds available. It is obvious that the only way in which any considerable number of these improvements can be provided is by supplementing the borrowing capacity this year with a part of the surplus from 1919.

THE CITY EMPLOYEES.

The most important single item in the city budget is the wage schedule. Private wages have risen almost everywhere in recent years. City wages have responded less promptly, though some relief was afforded in 1918 and a considerable measure in 1919 to large groups of employees, preference being given to those in the lower and middle grades. With hardly any abatement in the upward movement of prices, the employees as a whole have had legitimate ground for unrest and nearly all have presented requests for increases.

The reasons for delay, however, are generally understood. In other cities of the Commonwealth there is no limit to the amount that the mayors and city councils may expend for such a purpose. In Boston there exists a stringent limitation. Without express permission by the Legislature, it seemed impossible to afford the relief desired. Fortunately the Governor and the General Court were quick to realize the urgency of our need and the action taken by them at the special session made an early readjustment practicable. Owing to the increased appropriation available under the new tax limit and the unexpectedly large surplus in the treasury, we shall be able to grant reasonable increases to nearly every class of employees, and at the same time to continue the liberal policy of street improvement pursued in the last two years, besides meeting the high cost of materials and supplies and providing an ample Reserve Fund.

The principle governing the new schedule has been that the lowest paid employees should receive on the whole the highest relative increase. The increases, however, have been treated as a whole, that is, from the beginning of the present administration. So considered, the actual

increases will be found to be very nearly equal in amount, varying only from \$300, given to certain classes of clerks, to \$500, given to superior officers in positions of great responsibility in the Police and Fire Departments. Laborers, for example, will have received increases aggregating 33½ per cent in two years; police captains only 16½ per cent, or half as much in proportion.

These increases are to be applied generally but not indiscriminately. The heads of departments have been directed not to raise the pay of any employee whose work has proved unsatisfactory or to retain any employee whose position is superfluous. This is clearly their function, since they alone possess the intimate knowledge required for passing personal judgments. I can only promise them my full support in carrying out the instructions given.

WORK OF THE DEPARTMENTS.

Perhaps the most outstanding policy of the present administration concerns precisely this relation of the Mayor to the heads of departments. I have gradually, by new appointments, given fresh direction to fourteen of the departments, among them several of the largest and most important ones. The new chiefs have been the ablest men that I could secure and the older heads retained are known to me as executives of character and capacity. It has seemed both right and expedient to give such men my entire confidence and the results, in my opinion, have justified this attitude. I do not hesitate to say that the city departments as a whole at the present time, judged by a fairly exacting standard, are efficient, economical and progressive.

CONSOLIDATIONS AND REORGANIZATIONS.

Besides the changes in directing personnel, there have been organic changes in several departments. The Wire Department has been reconstituted as a bureau within the Fire Department, with which its present work is closely affiliated. A study of the Supply Department, undertaken at my request, by a distinguished firm of construction engineers, led me to recommend a change in the ordinance, which has been accepted by your honorable body. I contemplate a rather extensive remodeling of this department and trust that your thoughts will coincide with my views as to the opportunity afforded for large savings to the city by means of a centralized purchasing and storage system. In any event, the existing ordinance, requiring all supplies to be purchased through this agency, and the charter provision which requires the advertising of contracts amounting to more than \$1,000, must hereafter be strictly observed.

As the eighteenth amendment to the National Constitution has deprived the Licensing Board of any further reason for existence, I have petitioned the Legislature to abolish this body and to permit the transfer of its remaining functions, which are largely of a sanitary nature, to the Health Commissioner.

CHARITIES AND CORRECTIONS.

But the most sweeping proposals for reorganization relate to the work of the city in the field of charity and corrections. Two ordinances submitted by me to the City Council failed to pass, either because so radical a measure of reconstruction seemed to require longer study, or because the plans had not yet assumed their final and more coherent form. Finding progress in that direction excessively slow, I

have asked the courts to make no further commitments of juvenile offenders to the Suffolk School for Boys and have petitioned the Legislature for authority to sell the plant of that institution.

Steps have also been taken, both by direct appeal to the Governor and by legislative measures, to bring about a merger of the various county houses of correction, three of which, at least, are already closed for lack of inmates. The time has clearly come for a thorough revision of the correctional system in this state and the decline in the population at Deer Island has removed the reasons that may formerly have existed for the continuance of the institution there.

The maintenance of the almshouse and hospital on Long Island is open to objections no less serious, though based upon different grounds. Dissensions which developed among those in charge of this department led finally to the appointment of a committee of investigation, which has reported in favor of its complete abolition and removal of the island population to more suitable quarters. It is proposed that the almshouse population be housed in the buildings of the former Parental School in West Roxbury, which with some additions would be large enough to accommodate them. The tubercular and other chronic cases would be sent to the Consumptives' Hospital, where suitable buildings could be provided. The new almshouse would be placed under the Overseers of the Poor and the Consumptives' Hospital with its additional building for chronic cases under the City Hospital Trustees. Large savings could undoubtedly be effected by this plan, but the emphasis is laid rather on the manifold benefits to the inmates. Long Island is somewhat inaccessible to the public. It is inconvenient to transfer patients by boat and increasingly difficult to obtain the necessary hospital staff. For the elderly and helpless poor the West Roxbury location is unquestionably superior. If these plans are finally adopted, we shall have the harbor islands cleared of city institutions, the delinquents, adult and juvenile, coming under the care of the state, the almshouse inmates finding pleasant, wholesome and accessible quarters in West Roxbury, and the chronic sick receiving at Mattapan a degree of expert attention which is all but impossible in their present situation. The existing plants would remain unoccupied, but promising suggestions have been offered for their disposal.

PUBLIC WORKS DEPARTMENT.

The most important concrete achievement of the past two years has been the resurfacing of the neglected city streets. Of eighteen principal thoroughfares selected by a committee of citizens in 1918 as in urgent need of repair, all but four have been resurfaced and the others will be completed before long. In spite of high prices and unfavorable war conditions the work has cost less than the original estimates. Important additions have been made to the original list, such as Hyde Park avenue, long a hindrance to travel, and Tremont street between Dover and Northampton streets. The actual expenditure for street improvements during the last two years has been more than four times as great as the average expenditure for the five preceding two-year periods. The area repaved has reached unprecedented figures. During 1919 there were laid 268,000 square yards of smooth pavement, 200,000 square yards

of granite block and 200,000 square feet of artificial stone sidewalk.

So convinced am I of the value of this work and the necessity of continuing it that I shall include in the new budget an item for paving improvements equal to the appropriation of last year. This will make a total appropriation of about \$4,000,000 for street improvements in three years.

The high pressure system, long delayed, will soon be installed, giving added security to the business section and affording a prospect of reduction in insurance rates. The pipes have been repaired and strengthened and the search for a site for the pumping station has terminated at last in an arrangement under which power will be furnished effectively and economically from plants of the Edison Electric and the Boston Elevated Railway Companies.

In the meantime the pay rolls of this department have shrunk since 1908 by nearly a thousand names, although the population of the city has increased in that period by 160,000, a fair-sized city in itself. This reduction has been effected largely through the retirement of superannuated laborers under the pension laws.

STREET LAYING-OUT DEPARTMENT.

Even more vital, or at all events more basic, than the repair of the pavements is the need of modernizing the street plan. Certain palliative measures have been taken this year, such as the widening of Tremont and Boylston streets, the parking of motor vehicles on Charles street through the removal of one sidewalk and the adoption of new traffic rules. There have also been important street widenings in some of the outlying districts.

Nevertheless the problem of street congestion is becoming more and more serious. The increase of population and of automobile travel constantly outruns the extension of traffic facilities and has not been accompanied as yet by any corresponding expansion of the business quarter. The root of the trouble lies not only in the excessively compact and intricate conformation of the older city, but in the inadequacy of the great approaching highways. Several of these, such as Beacon and Boylston streets and Columbus and Harrison avenues, come to what are virtually dead ends when they attempt to penetrate the labyrinth of the business section.

I have drafted a permissive bill for the widening of Exchange street, which may, perhaps, afford some relief at the northern outlet, and have repeatedly urged the acceptance of chapter 329 of the Special Acts of 1917, which provides for an extension of Stuart street and the widening of Eliot street as far as Tremont. These improvements are the first link in the Western Artery Plan which, with its auxiliary developments, as proposed by the City Planning Board and the Street Commissioners, would divert much travel from Boylston street and establish an admirable connection between the South Station area and the territory west and south of Park square. As soon as the favorable action which I urge and anticipate has been taken on this measure, I shall ask the Street Commissioners to set in motion the machinery of land-taking and construction.

HEALTH DEPARTMENT.

In the Health Department the citizens are now receiving the full measure of expert protection which they have a right to expect. A Medical Advisory Board, re-

cently organized, keeps the commissioner in close touch with leading members of the profession. The new Housing Bureau is well advanced on a city-wide survey of buildings and has made distinct progress in the removal of unsanitary conditions. The whole system of inspections has been reorganized and extended. The number of dairy inspections, for example, has increased 38 per cent. Unfit food has been almost excluded from the market and a great advance has been made in enforcing sanitary conditions in food shops and factories and in the analysis of food products with a view to detecting adulterations. A systematic war has been planned on rats and insect carriers of disease. Fresh ground has been broken by a tabular study of delay in reporting tuberculosis, based on the recognized need of early diagnosis and treatment in this disease. In the three great fields of child hygiene, health education and statistical research the department has plans under way of the most sweeping character for the diffusion of that knowledge which is often the best guaranty of health in the community.

FIRE DEPARTMENT.

The energy and initiative of the new Fire Commissioner have already made themselves felt in this department. In September a general training school for officers was established and several classes have already been graduated. As the department is now 61 per cent motorized, \$189,000 having been spent this year for motor apparatus, a special automobile school for officers has been organized, while, pending the establishment of a completely equipped school within the department, the rank and file have been sent in classes of thirty to take courses at Franklin Union. The operations of the drill school, so called, have been extended so that annual inspection is required at headquarters besides the regular inspections at local quarters. A bureau of fire prevention makes more than two thousand inspections a week. An important new bureau has been formed, having charge of supplies, repairs and maintenance of equipment. A set of traffic rules has been worked out in consultation with the Street Commissioners, intended to secure easy access to hydrants and free passage for the apparatus in downtown streets. The department has done its share in bringing about the installation of the high pressure system.

If time permitted, I might refer to the accomplishments of other departments, showing the same spirit of earnest, practical devotion to the interests of the citizens, but these few will serve as examples.

THE PARKMAN FUND.

The time has come, in my opinion, to review carefully the expenditure of the income of the Parkman Fund and to reconsider a suggestion put forth when this fund first became available. We have rounded out a decade in the administration of the trust and have expended not far from \$2,000,000. The income has been applied year after year to particular projects or to pressing needs, always, I believe, in the spirit of the founder's directions but upon no system and with no preconceived plan. Much valuable work has been done that does not immediately show, such as the reseeding of several acres of the Common, but the principal tangible results are, it must be admitted, less impressive than we should expect. They consist of a music pavilion which bears the founder's name and serves as

a general memorial, an Aquarium and a Zoological Garden, each as yet only partially developed. I venture to renew the early suggestion of a committee of landscape architects and others who shall be asked to draw up a program of development for the next five or ten years. Such a program could not, of course, be made binding on successive city governments, each of which will be free to spend the income as it accrues; but it might serve as a guide, disclosing the prime needs of the park system and its possibilities of orderly development. With such a plan to give unity and proportion to our conceptions, each \$1,000,000 or \$2,000,000 of income could be treated as a whole and the retrospect at the end of each period might be more satisfactory than it is today after a decade of somewhat casual experiment.

INDUSTRIAL DISTURBANCES.

It has been my duty to mediate in several industrial crises, especially those that effected the public service, and my good fortune in some instances to have been successful in hastening a settlement.

During the strike of the telephone operators in April, finding no other way open for the breaking of the deadlock, I went to Washington and persuaded the Postmaster General to send a representative to confer directly with representatives of the striking operators and officials of the company. Returning to Boston with this gentleman, I had the satisfaction of seeing the difference adjusted and the public relieved of its serious embarrassment within forty-eight hours.

A similar deadlock arose in the building trades, when strikes broke out in May and all construction work seemed likely to stop for an indefinite period. After negotiations that lasted more than three weeks, a compromise offered by me was accepted by both sides. This arrangement binds them until January 1, 1921, thus ensuring a year and a half of tranquility in an unusually critical period.

In August, when a strike of railroad employees involved the danger of temporary famine, I organized a committee on emergency food supplies. Plans were made for conveying ample food stocks to the city through motor truck lines. Fortunately it was not necessary to put them into effect, but if the crisis had occurred the spirit and resources of our citizens would have proved equal to the emergency.

POLICE STRIKE.

In ordinary times the responsibility for maintaining order in Boston does not fall upon the elected officials of the city, but in case of riot or tumult the Mayor is invested with certain emergency powers. In the course of the recent strike of patrolmen, when such riot and tumult occurred, I exercised my authority promptly, and, as I believe, effectively. At an early stage of the difficulty I appointed a Citizens' Committee which labored earnestly but ineffectually to get the police to give up their affiliation with the American Federation of Labor and not to strike. On Monday, September 8, it became clear that a strike was impending and that unless prompt measures were taken, the lives and property of citizens were in danger. That evening, in company with members of the Citizens' Committee, I saw the Governor and urged him to intervene, pointing out to him that I had no authority to act.

On Tuesday, about noon, believing that as Mayor of Boston I was entitled to know what provisions had been made by the state officials for the preservation of law and order in the city in the case of a strike, I consulted with the Police Commissioner. Mr. Curtis said that he had the situation well in hand, had made adequate provisions for any emergency and assured me there was no occasion for alarm. I asked him whether it would not be wise to have the State Guard mobilized in order that sufficient forces might be on hand in case of an emergency. Police Commissioner Curtis stated in no uncertain terms that he did not wish their aid at that time.

The Governor also pointed out to me plainly that no one had any authority to interfere with the Police Commissioner.

I had no alternative but to give the Police Commissioner a chance to demonstrate whether he had adequately provided for the situation. The events of that night demonstrated that he had misjudged it. As early as possible the following morning, Wednesday, I took over the control of the Police Department, ordered out those state troops located within the City of Boston, and requested the Governor to order out an additional 3,000 men. The Adjutant General was notified over the telephone that he would shortly receive orders calling out the State Guard and asking him to proceed in accordance with this information. At the same time the commanding officers of the 10th Regiment, the First Motor Corps and the cavalry troop were called to my office and they immediately notified the officers of their regiments that their organizations were to be mobilized. The first of the troops were on the streets by four o'clock that afternoon, and by Thursday morning order had been restored. Thursday afternoon the Governor assumed control of the State Guard.

RETURNING SOLDIERS.

Early in December, 1918, some time before the "Canopic" arrived, I appointed a large committee to arrange receptions for the returning troops. Through the efforts of these citizens every incoming transport was met and escorted to its berth with enthusiastic welcome. The scope of the work was subsequently broadened until the committee headquarters on the Common became the recognized center for returning service men in Boston. It furnished them with entertainment, information, advice, employment, and assistance, according to their individual needs. No organization in the country surpassed our own in the warmth and efficiency of its ministrations to the fighting men. Over 40,000 names were inscribed on the register at Liberty Hall. These priceless autographs will be preserved in our Public Library as a roll of honor to which the names of the committee might properly be appended.

A second committee, appointed to suggest a memorial to fallen soldiers, has wisely decided to take ample time before formulating its conclusions, believing that haste in such matters almost invites the danger of an inferior design. The memorial will certainly gain in dignity if the emotions of the moment are allowed to settle and strain clear. It is hoped that it may embody in forms of permanent value the mood of exaltation and the deeply rooted principles that inspired the great American crusade.

TRANSPORTATION PROBLEMS.

Always quasi-public in its character, the Boston Elevated Railway Company

has now become a direct municipal problem. Besides costing \$30,000,000 a year or more to the riding public, its service represents an investment of over \$36,000,000 in subways by the City of Boston alone, and last year, as I have noted, it imposed on our treasury a tax of nearly \$3,000,000, representing an addition of about \$2 to the tax rate. Its present condition is one of doubled fares and retarded use. I have already expressed my view of the proper course of action to relieve a situation which cannot be called anything but serious, since it is clear that the present status is only tolerable at all because of the prevalent abundance of employment at liberal wages. In normal times, and still more in a period of depression, the doubled fare would be felt as a universal hardship and would appreciably check the healthy growth of the metropolitan district.

The time to act in these matters is before, not after, the disaster. I renew, therefore, my recommendation that the state acquire the Elevated Railway system, preferably by negotiation with the stockholders, at a moderate price, based upon actual values, and that the city receive full compensation for its outlay for subways and adequate representation on the Board of Control.

Meanwhile the Transit Department, now a branch of the city government, has proceeded with its task of perfecting the physical structure of the road. The Massachusetts Avenue Transfer Station has been opened for use this year and work has begun on the new subway station at Arlington street.

REAL ESTATE.

The present outlook encourages the hope of a revival in real estate construction. In 1919 the applications for permits for new buildings represented an estimated cost of about \$15,000,000, as compared with a little over \$4,000,000 in 1918 and a little over \$18,000,000 in 1917. There is every indication of a nation-wide activity in industrial building and the erection of new dwellings must precede or accompany this development. The advantage to the city treasury in the resulting increase of taxable valuations is obvious. The new building permits issued last year would represent a gain of some \$300,000 in taxes. But the subject has more than a mere fiscal interest. It affects in the highest degree the health, comfort and prosperity of the people and for this reason it is a pleasure to record the evidences of a normal recovery.

AMERICANIZATION WORK.

Moved by the grave manifestations of disloyalty during and after the war and believing that the freest government on earth has not only the right but the duty to uncover the operations of secret enemies, I called a meeting early in December of representatives of the national, state and city governments to take measures against this peril. Full cooperation of the agencies represented at this meeting was assured and a committee of citizens was formed with authority to draw up a plan of procedure. For the carrying out of their program your honorable body, acting on my recommendation, voted the sum of \$15,000.

This committee is only in a secondary sense an instrument of suppression. Its chief activities will be devoted to instruction and persuasive effort, especially among those aliens who, coming here after their habits of thought have been formed and speaking our language poorly

or not at all, have had no opportunity of learning the true spirit of American institutions. By clear exposition and still more by example and friendly contact it is believed that the distrust and aloofness of certain groups can be overcome and the influence of dangerous teachings only too prevalent in these quarters to some extent counteracted.

But the committee cannot perform its task without public support. Every good Bostonian should associate himself with it in its generous work of removing prejudice and misunderstanding. The entire citizenship should resolve itself into a committee of the whole, determined to maintain those standards of free democracy which our fathers and now, in many instances, our sons have given their lives to establish and defend.

COMMERCIAL INTERESTS.

The commercial interests of Boston continue to be a subject of general concern, but no comprehensive solution of the problem appears to be even under discussion at the present time. The waterfront equipment has been improved by the completion of the large naval dry dock, which will be available at times for merchant vessels, and two new floating dry docks will soon be located at East Boston. A teaming tunnel to East Boston at an estimated cost of \$11,000,000 has recently been recommended by a state commission and may form the subject of legislation and subsequent consideration by the city government.

GREATER BOSTON.

The delay in solving this problem of the proper development of the port illustrates once more the drawback we suffer in the narrow, artificial character of existing political divisions. In my argument last year for a closer union between the cities and towns that have grown up about Boston Harbor, I laid stress on the impetus such a union would give to port development, as well as the need of breaking up congestion, the advantages of a broader basis of citizenship and the vital importance of certain large improvements which can be carried out only by united action. While opposition was aroused and the plan may have seemed to move no nearer to its adoption, I believe the seed was sown on receptive ground and that many thoughtful citizens have now begun to regard themselves as members of a great metropolitan community.

CONCLUSION.

There are other matters of great moment that we might consider together on this occasion, but I find myself already ranging beyond the limits of municipal authority, if not of municipal interest. Let me return to the field which is more strictly our own and invite your attention to our first notable act of joint legislation, the annual budget. It will be submitted to you this year in a complete form as soon as the details have received proper consideration. With this task accomplished and the departments set to work on definite lines of accomplishment, we shall be ready for those further opportunities and emergencies which nowadays, at least, seldom fail to present themselves in the course of the municipal year. If I could only be sure that our public labors would be as profitable as our private relations have been uniformly pleasant, I should have no fear for Boston in the twelvemonth before us.

REOPENING OF MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasium has been resumed at the various buildings throughout the city.

Extensive repairs have been necessary by reason of the occupancy by the State Guard for the various gymnasia of the department. The buildings have been thoroughly equipped and placed in a satisfactory condition throughout and the work will be resumed with all its equipment and facilities as formerly.

The following buildings have gymnasia and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.
Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.
Cabot Street Gymnasium and Swimming Pool.—Roxbury.
Vine Street Gymnasium.—Corner Vine and Dudley streets.
Dorchester Gymnasium.—Corner Columbia road and Bird streets.
Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.
Ward 5 Gymnasium.—Corner Tyler and Oak streets.
D Street Gymnasium.—South Boston.
North Bennet Street Gymnasium.—North End.
Paris Street Gymnasium.—East Boston.
Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasia where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasia.

Basketball is permitted in certain gymnasia on the part of those who participate in class work.

Æsthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls and at 7.30 for working girls.

Tuesday and Friday—High school boys from 2.30 to 5 p. m. Men from 7.30 to 9.30 p. m.

Saturday—Grammar school boys from 2 p. m. to 4 p. m. Working boys from 7.30 to 9 p. m.

EXPORTS AND IMPORTS, MASSACHUSETTS CUSTOMS DISTRICT, 1918.

Dating from July 1, 1913, the district includes Boston and the eight minor ports of the state. Value of exports in calendar year, 1918, \$221,477,295, or \$12,509,458 (i. e., 5.99 per cent) more than in 1917; of imports, \$295,907,047 or \$66,665,716 (i. e., 29.08 per cent) more than in 1917; total foreign trade, \$517,384,342, an increase of \$79,175,174 or 18.07 per cent over the same in 1917. Boston's total foreign trade for year 1918, the largest on record, ranks fifth among American ports, New York, Seattle, Philadelphia and New Orleans leading, the latter only slightly. Tonnage of vessels in foreign trade (entered and cleared) in year, 2,427,772, or 547,752 less than in 1917; number of vessels, 1,686 or 352 less than in 1917.

PROCEEDINGS OF CITY COUNCIL.

Saturday, January 31, 1920.

Final meeting of the City Council, held in the Council Chamber, City Hall, at eleven o'clock a. m., President FORD in the chair. Absent—Coun. Moriarty.

REPORT OF COMMITTEE ON WAR RECORDS.

The following was received:

City of Boston,
Office of the Mayor, January 30, 1920.
To the City Council:
Gentlemen,—I desire to advise you that I have just been informed by the Committee on War Records that the committee has voted to recommend the following-named men as soldiers whose services merit special consideration:
George Anslow, H. C. Blanchard, Thomas Burke, Daniel J. Carney, Hamilton Coolidge, William H. Corbett, John Coyle, Edmund M. Dolan, William Dooley, Oliver Chapman Farrant, Stephen FitzGerald, Francis S. Hanlon, Walter R. Kubli, Mandel M. Lewenberg, Andrew J. MacDonald, George Meehan, Leslie Moore, Michael O'Donohue, James C. Shea, Edmund A. Watson, Henry West, Herbert J. Wolf.

Respectfully yours,
ANDREW J. PETERS, Mayor.
Referred to the Committee on Public Lands.

SALE OF HUT ON COMMON.

The following was received:

City of Boston,
Office of the Mayor, January 29, 1920.
To the City Council:
Gentlemen,—The City of Boston is the owner of a hut now on the Common. This hut was originally purchased with funds of the Boston Public Safety Committee and after this committee went out of existence the hut was occupied for a time by the Boston Women's Committee for Public Service. The hut is now unoccupied and it is desirable that the city should sell it, the resulting funds to be turned into the general treasury. As the hut will in all probability bring more than \$500, I request the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the Mayor be and hereby is authorized to sell, after due advertisement, the hut on Boston Common formerly occupied by the Boston Public Safety Committee, receipts from the sale to be turned into the general revenue of the city.

Referred to the Executive Committee.

PURCHASE OF SUPPLIES.

The following was received:

City of Boston,
Office of the Mayor, January 30, 1920.
To the City Council:
Gentlemen,—For your information I am herewith transmitting to you a copy of a circular letter to department heads relative to the purchase of supplies. It is unnecessary to add that the orders in this letter will be vigorously enforced.

Respectfully yours,
ANDREW J. PETERS, Mayor.

CIRCULAR LETTER NO. 46.

Boston, January 30, 1920.

To the Heads of Department:
Gentlemen,—It has been brought to my attention that the heads of certain departments and employees in departments have not been obeying the rule laid down in section 2, chapter 35, of the Revised Ordinances of 1914. I therefore desire to call your attention to this section, which is as follows:

"Every officer in charge of a department requiring materials, apparatus and other supplies, except furniture and those supplied by the Superintendent of Printing, shall obtain the same of the Superintendent of Supplies by means of a requisition therefor on blanks to be prepared by the superintendent."

I herewith inform you that any infraction of this rule will be dealt with summarily, and I also desire to advise you that the City Auditor has been directed not to approve for payment any bills for supplies purchased contrary to the provisions of section 2, chapter 35, of the Revised Ordinances of 1914.

Very truly yours,
ANDREW J. PETERS, Mayor.
Referred to the Committee on Ordinances.

VETO—PENSION FOR P. J. A. MURPHY.

The following was received:

City of Boston,
Office of the Mayor, January 27, 1920.
To the City Council:
Gentlemen,—I am herewith returning without

my signature the order passed by the City Council on January 12 approving the enactment of legislation to provide for the retirement on a pension of Patrick J. A. Murphy, now on a leave of absence as an employee of the Public Works Department. I do not feel that I can sign this measure as it is another example of the granting of a special privilege and I have vetoed all measures of this kind.

Respectfully yours,
ANDREW J. PETERS, Mayor.
Placed on file.

WITHDRAWAL OF STUART STREET PROJECT.

The following was received:

City of Boston,
Office of the Mayor, January 31, 1920.
To the City Council:
Gentlemen,—For your information I am herewith transmitting a copy of a letter just received from W. J. McDonald and J. Sumner Draper.

Respectfully yours,
ANDREW J. PETERS, Mayor.
Boston, January 30, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:
Dear Sir,—We regret to be obliged to notify you that we hereby withdraw the offer which we have made to purchase the excess takings which the city might make under the Stuart Street Act, so called, and we respectfully request you to withdraw the whole matter from the City Council and to abandon the project.

It is unfortunate that the city will lose the great advantages it would have derived had the project been carried out. We have at all times been ready to co-operate with the city and to do everything we could to insure the success of the undertaking and to protect the city. We have patiently submitted to several months of needless delay. We feel we are justified now in considering our own interests and we cannot longer permit the carrying out of an important and legitimate business enterprise to be hampered and delayed.

We shall, therefore, proceed with plans for the development of the Park square lands on the theory that Stuart street is to remain as it is. If, as is not unlikely, these involve certain improvements which will render it so expensive for the city later to take advantage of the act as to make it prohibitive, we feel that the responsibility will not be upon us.

The Stuart Street Act is the first opportunity ever presented to the City of Boston under the Constitutional Amendment ratified in 1911 to make excess takings in carrying out a street widening project. This, in itself, is important—but it is far more important when the special provisions of the Stuart Street Act, providing in substance for the reimbursement to the city of the entire cost of the project, over and above \$250,000, are considered. If the city had taken advantage of the act it could have tried out the effect of the excess takings amendment without being obliged to enter into a speculation in real estate and practically without expense to it.

We think you and the Street Commissioners are entitled to the commendation of the citizens of Boston for the efforts you have made to gain for the city the benefits which would have accrued under the Stuart Street Act. At all times you have shown not only intelligence and foresight but also a steady purpose to see that the city was in all respects amply protected.

Yours respectfully,
W. J. McDONALD,
J. SUMNER DRAPER.

Referred to the Committee on Finance.

OPINION CONCERNING JUVENILE OFFENDERS.

The following was received:

City of Boston,
Law Department, January 29, 1920.
To the Honorable the City Council:
Gentlemen,—I have received a copy of the following order of the City Council:
Ordered, That the Corporation Counsel be requested to furnish the City Council his opinion in answer to the following questions:

1. Is the City of Boston or the County of Suffolk required under the statutes now in force to maintain an institution for the detention or reformation of juvenile offenders?

2. In the absence of action by the City Council or the County Commissioners and without further legislation, is it legally possible for the Mayor to abolish the Children's Institutions Department and to close the Suffolk School for Boys?

In answer to the first question, I am of opinion that the City of Boston is under no mandatory legislative obligation to maintain an institution for the detention or reformation of juvenile offenders, such as the Suffolk School for Boys.

In answer to question two, I am of opinion that the Mayor has no authority to abolish the Children's Institutions Department without further legislation, nor has he authority to declare, without action by the City Council, that the buildings on Rainsford Island, now known as the Suffolk School for Boys, are no longer the institution for the reception and reformation of juvenile offenders.

Very truly yours,
ARTHUR D. HILL,
Corporation Counsel.

Placed on file.

NAMING OF BLANCHARD SQUARE.

Report accepted; ordinance passed.

2. Report on message of Mayor and Circular Letter No. 46 (referred today) concerning purchase of supplies—that the same be placed on file.

Report accepted; communication placed on file.

PRISONS.

Coun. WATSON, for the Committee on Prisons, submitted the following, viz.:

ANNUAL REPORT OF THE COMMITTEE OF THE CITY COUNCIL ON INSPECTION OF PRISONS.

This report is made in accordance with the provisions of chapter 223 of the Revised Laws by the Committee on Prisons which has attended to its duty, and submits the following:

The report is on the Suffolk County Jail on Charles street; the House of Correction at Deer Island, and the Suffolk School for Boys at Rainsford Island.

Suffolk County Jail.

This institution was inspected twice and conditions found commendable and marked improvements noted. A baking oven has been installed and the inmates are furnished with fresh, wholesome bread. The addition to the jail designed for hospital and administrative facilities and to make possible the holding of religious services is now in process of construction.

The committee recommends the abolition of the bucket system, the only toilet method now available, which is in use. This disgraceful practice compels the inmates to eat their meals in close proximity to the foulness resulting from the system. Flush toilets and a running water system should be at once installed. Otherwise the jail is clean and the officers efficient. Formerly the inmates were denied any opportunity to exercise but under the present policy all are afforded ample means to enjoy healthful recreation.

The population of the jail averages from 175 to 225, of which a preponderance await trial. Many are bailed. The importance of having the jail within easy reach of all sections of the county is impressed upon those familiar with conditions. In rigorous weather such as we are now experiencing, with our streets next to impassable and a curtailed car service, the need of a centrally located jail is obvious. With the improvements under way and those recommended put into effect the Suffolk County Jail will be a model institution of its kind.

House of Correction.

The required number of visits were made by the committee. One while Mr. Sanford Bates was Penal Institutions Commissioner and the other under the administration of Mr. Thomas C. O'Brien, the present commissioner.

Conditions at the island were found to be excellent. No complaints were made by the inmates and the committee has no criticism to make on the conduct of affairs. Appropriations in the new budget are recommended in accordance with the desire of the commission and the sense of the committee, viz.:

1. That a new sea wall be built on the northeast side of the island to replace the one destroyed by a recent storm. This is necessary to protect the power house and also to prevent encroachment by the sea.

2. That electric bakery equipment, consisting of motor-driven bread mixer, standard scale and sifter, steel troughs and steel bread racks be installed.

Suffolk School for Boys.

The Committee on Prisons inspected the school twice in accordance with law. The management of the institution by the superintendent is to be commended, but conditions are such now that the committee feels that mere physical recommendations as to the island would be futile. A loan was passed by the City Council for the erection of a necessary new building, but the committee understands that the necessary contracts for the same have not been signed. So, the council has proven its position in regard to improving conditions at Rainsford Island and can go no further.

The committee strenuously opposes the proposed handing over to the state of this institution. It believes that the boys committed from Suffolk County should be sent to a Suffolk County school.

It protests against state interference in local matters of this kind. It feels that the City of Boston is well able to care for its delinquent boys. While boys are on the island their relatives and friends can visit them, keep in touch with them and aid in their welfare. The boys have something to look forward to, and are more eager to earn their release when in touch with their friends, and for humanitarian reasons and for the principle of Home Rule the Committee on Prisons believes that this school should remain under city control and not be merged with the state reformatory institutions.

For the committee,
JAMES A. WATSON,
Chairman.

(Annexed were various tables of the different institutions.)

Report accepted and ordered printed as a city document.

CHAIR FOR COUN. McDONALD.

Coun. WATSON offered an order—That the Superintendent of Public Buildings be authorized to sell to the members and officials of the City Council, for a nominal consideration, the chair used by Coun. Daniel J. McDonald during his service in the City Council.

Passed under a suspension of the rule.

GROUP PICTURE OF COUNCIL.

Coun. WATSON offered an order—That the City Messenger be directed to obtain a group picture of the members and officers of the City Council, and furnish a copy of same to each of such members and officers, the expense to be charged to the appropriation for City Council, B-37.

Passed under a suspension of the rule.

REFERENCE OF UNFINISHED BUSINESS.

Coun. LANE offered an order—That all matters of an unfinished nature in the hands of the several committees of this City Council be referred to the City Council of 1920.

Passed.

CLOSING PROCEEDINGS.

Coun. McDONALD offered the following:
Resolved, That the thanks of the City Council be extended to Francis J. W. Ford for the impartiality and ability he has displayed as presiding officer for the municipal year 1919.

The question came on the adoption of the resolution.

Coun. McDONALD—Mr. President, in accordance with custom, I being the only member of the City Council to retire—not, of course, through my own fault—it is up to me to say something as is usual in the case of the member who is about to retire. Many members in the past have used the same old stereotyped phrase, that they were glad they were going out and that they would be better off. As one retiring member of the Council, I do not agree with them. I am sorry I am going because my service here in the Council has been a pleasure, at least to me, and I would like to stay here and enjoy the association with my fellow members and the officials of the City Council during the coming year. Those associations have always been very pleasant to me. I will say to my friend Jerry Watson—I am going to call him Jerry—that this is the first year in all my six years' service with him that I have not had a fight with him. There have frequently been periods of two or three months in those years when I did not speak to him, previously; but this year we have been on friendly relations right through the year. I certainly appreciate his friendship and hope always to retain it. My friend Moriarty is not here. I like all the members, sympathize with him, and I hope he will be here Monday in his usual good health and able to participate in the deliberations of the new City Council. I will say of my friend Dan Lane that I served with him before in the old Common Council. At that time I remember that he thought that he was a baseball player, and once played a game of baseball under that delusion. I will simply say that he was the rottenest player I ever saw in my life. (Laughter.) He may be all right in stopping some kinds of balls, but not baseballs. (Laughter.) Walter Collins and I have had the distinction of serving together in the Legislature as well as in the City Council, and we are both charter members of this City Council. He is a good friend of mine, and I hope always to retain his friendship. Johnny Donoghue I have known quite a long while. He is the "baby" member of the City Council, but he has shaped up as well as anybody here, and I am proud to call him my friend. I wish to say just a word to my pal here, Eddie McLaughlin. Before he came here he and I were pals, and I know, of course, that we are going to be pals not only in the year to come, but I trust for all time. Henry Hagan I have known longer than anybody in the Council. His father, the Lord rest his soul, used to chase me away from his place of business when I was a kid and called him names. Henry knows that; and Henry and I have known each other for thirty-

five years, and I hope we will know each other for thirty-five years to come. As for my good friend Jim Donovan, my only regret is that I shall not be able to be here next Monday to cast my vote for his re-election in the City Council, making ten votes instead of nine. Willie Doyle has been my guide and tutor in a lot of things. I have been guided by his advice many times, when I have been intending to do certain things and he told me I was wrong, and when I have not been intending to vote for certain things and he told me that I was wrong. When things shape up, we are going to hire an office in the corner and I am going to study law, and we expect to pull together successfully. As for Ned Harnden, of course we are all proud to know him. He is a great friend. I knew him years ago, and I am thankful to him for what he has done for me since I have been a member of this Council. As for Ned Leary, he lost my bag, but I forgave him. I don't know whether I am going to sue the city or not, but I will tell him later on. (Laughter.) As for our friends Johnny Baldwin and Frank Chisholm, they both have our best wishes and kindest thoughts. Walter White is the only reporter who is with us at the present time, but I know I speak the feelings of all the members when I thank the reporters for what they have done for the members of this body, as well as for myself, for the consideration they have shown, and personally I shall always be glad to do anything I can to repay the kindness which they have displayed toward me. As far as our friends the policemen are concerned, Johnny Doherty and Pat Leahy, I suppose if I had ever got tangled up with them I would not be here now, although perhaps I might whip Johnny Doherty. (Laughter.) I am sure that they both have our best wishes. I will not say anything about George Perry because if I did I am afraid he might think I would get things in the soup. As for Fred Glenn, I will only say that I was responsible for him and that I hope the boys will do something for him, because he is entitled to something better than he is now getting. As for you, yourself, Mr. President, I have always been proud of your friendship and in expressing that feeling I know I speak for all the members of the City Council and the officials. You have been fair and impartial in all your rulings. You have had the privilege of acting as Mayor of Boston longer than any preceding officer of this Council has ever done. There is no doubt about that. We all feel that when you have been Mayor you have taken charge of the interests of the city as well as—I was going to say better than—I could. But I don't think so. I was Acting Mayor at one time and I thought I was the best Acting Mayor Boston ever had. (Laughter.) But all the members and officials of the City Council feel that you have been fair and impartial; that you have treated all in as nice a way as any presiding officer could treat them. Because of that fact, I have been asked to present, on behalf of the members and officials, this little token to you of their friendship and esteem. We all hope that you may live to wear it and enjoy it for many years (presenting a handsome pin to President Ford).

The resolution was passed by a unanimous rising vote.

President FORD said:

Members of the City Council, officials, and those who have helped us in more or less of an unofficial capacity, I am glad to leave this chair for the reason that somebody else will come in and have an opportunity to enjoy the work as I have enjoyed it. I want to say a word to you, Dan McDonald, upon your leaving the chamber today. After elections are over and you get a chance to look around in a sober way, you begin to think of what place a certain man held or occupied as a member of the City Council. I am deeply indebted to Dan McDonald inasmuch as he was one of the majority members of the Council, so called, who helped me as president of the City Council in a very great measure; and, not only that, even though Coun. McDonald did not know it, when there was a tense moment of any sort, when it looked as though there might be some sort of argument or trouble, it was always Dan, with his witty, off-hand remarks, who settled the troubled waters. That was especially so in committee work where because of his presence and of his good nature—which will stay with him the rest of his life—he helped us a whole lot unconsciously, more than he himself can probably ever understand. But, somehow, I feel as though our good friend McDonald is not going to jump out of public life. I think he is coming back. In the next Council I think we will see our good friend Dan McDonald again. I am glad that Dan in leaving the chamber referred so kindly to our good City Clerk, Mr. Donovan. As Dan said, there will be nine votes for Mr. Donovan for City Clerk, and Dan wished that he might be able to cast a tenth vote. Well, our year's work has come to a close, and we can now meet as a happy family and talk informally. These are not formal proceedings. They are simply for the expression of good messages between us. We have had differences, but not serious ones. As our City Messenger pointed out to me this morning, my gavel is intact, without even a mark upon it, and our relations have always been pleasant. We have disagreed, of course. Sometimes the Council has split five to four on matters of more or less importance—usually, to my mind, of lesser importance. But there has never been one unkind or bitter word spoken among ourselves during the whole year. So we can leave this chamber today and partake of the festivities offered by his Honor

the Mayor in the greatest of good fellowship. I have always been rather disappointed that we have split five to four on different occasions. While I refer to this in a kind manner, yet I think it is unfortunate that there should be any such decided split in favor of or against certain measures. Differences will, of course, sometimes arise, but I do not look for trouble in the future. I think the City Council of Boston has had enough splitting up in this way in the last eight or ten years, and that in the future the members will be more independent in their voting. But, whether or not that is so, I feel that there will surely prevail in the future the same good feeling, the feeling of friendship and willingness to serve, that our good friend Walter Collins referred to as so marked in the year during which he was president. I am deeply appreciative of this kind remembrance from the members of the Council and the officers. I personally think it is the greatest present that could be given to me, as showing your friendly feeling. It is something I can see daily, and it will always bring memories of my pleasant associations and relationship with the other members and the officers of this body. I only hope that the pleasant relations of the past will continue in the future, that there will be the same entire absence of bitterness which I have always found in this body. I thank you, one and all, for your co-operation. I have done my best, as I understood it, and have tried to serve the City of Boston as I felt its best interests required. I will sit on the floor next year with you, and I hope our pleasant relations will continue; and I hope they will not only continue here, but, as Dan McDonald has said, that they will continue on in our different pursuits in this troublesome life of ours.

Coun. WATSON said:

Mr. President, I think, as a fitting climax in the last moments of this body, we should take a rising vote wishing to the retiring member of the Council, Coun. McDonald, all success, prosperity and health in the future.

The Council voted in favor of the sentiment expressed by Coun. Watson by a unanimous rising vote.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned *sine die* at 1 p. m., on motion of Coun. COLLINS.

Monday, February 2, 1920.

INAUGURATION EXERCISES.

The inauguration exercises attendant upon the induction into office of Councilors-elect David J. Brickley, Francis J. W. Ford and James A. Watson were held in the City Council Chamber, City Hall, at 10.30 o'clock a. m.

Previous to calling to order, ex-Mayor Hon. Thomas N. Hart and sundry heads of departments and invited guests assembled in the Council Chamber.

Chairman HAGAN, senior member, in calling the City Council to order in its chamber at 11.16 a. m., said: Gentlemen, the Council will come to order.

Coun. LANE—Mr. President, I move that the Chair appoint a committee of two members to wait upon his Honor the Mayor and notify him that the Council is in session.

The motion was carried, and Chairman HAGAN appointed Coun. Lane and Moriarty as said committee. The committee retired at 11.17 a. m. and presently returned escorting the Mayor, Hon. Andrew J. Peters, the chaplain, Rev. Father Michael J. O'Connor, and sundry heads of departments and invited guests.

His Honor Mayor Peters took the chair and said: The audience will now give their attention while the chaplain leads us in prayer.

Chaplain O'Connor prayed:

Almighty and Eternal God, we offer Thee our loving hearts. From Thou hast come all that we are and all that we have. Thou hast blessed us with a country which holds in its bosom all treasures making for the prosperity and happiness of the people. In the recent great world conflict Thou madest us the instrument of right against might and gave us the crown of victory. Thou gavest us success on the land and on the sea, and in return for the heartaches and hardships of the people Thou didst give consolation and comfort. For all this, O God, we thank Thee, and we ask Thy blessing today upon those who exercise authority in all branches of government. We ask Thy blessing especially upon him who now presides over the destinies of this city as its chief executive, that he may continue to fulfill his office with justice and righteousness. We also ask Thy blessing upon those who are about us and upon those who are about to take up their responsibilities as elected officers of the people in this Council Chamber, that they, in their administration of all affairs in this beloved city of ours, may meet with thy divine approval.

The chaplain closed with the Lord's Prayer.

At the conclusion of the prayer Mayor Peters said: The City Clerk will read a communication from the Election Commissioners certifying as to the new members elected to the City Council and will then call the roll.

The City Clerk read the certificate referred to, and then called the roll, all the members of the Council being present, as follows:

For term ending February, 1921: Henry E. Hagan, Daniel W. Lane and James T. Moriarty. For term ending February, 1922: Walter L. Collins, John A. Donoghue and Edward F. McLaughlin.

For term ending February, 1923: David J. Brickley, Francis J. W. Ford and James A. Watson. Councilmen-elect Brickley, Ford and Watson assembled in front of the desk, and the oath of office was administered to them by the Mayor. After taking the oath the members returned to their seats, and the Mayor delivered his address. (For the address see page 88 of this week's Record.)

The Mayor commenced reading his address at 11.29 a. m. and finished at 12.17 p. m., being greeted with applause. After he had finished, Chairman HAGAN rapped for the audience to rise while the Mayor and suite retired, which they did at 12.18 p. m.

Chairman HAGAN—The Council will come to order, and the Clerk will call the roll.

The Clerk called the roll, and all the members of the Council were found to be present.

Chairman HAGAN—A quorum being present, the Council will proceed to the regular order of business.

ELECTION OF PRESIDENT.

Coun. FORD offered an order—That the Council proceed to the election of a President for the ensuing year.

The order was passed, the Clerk called the roll, each member when his name was called announcing his choice for president, with the following result:

For James T. Moriarty—Coun. Brickley, Donoghue, Ford, McLaughlin, Moriarty, Watson—6.

For Daniel W. Lane—Coun. Collins, Hagan, Lane—3.

Chairman HAGAN—Six members having voted for Coun. Moriarty and three for Coun. Lane, the Council has elected Coun. Moriarty president for the ensuing year, and the Chair will appoint as a committee to escort the President-elect to the chair Coun. Lane and Ford.

On motion of Coun. LANE, it was voted that the election of Coun. Moriarty as president be made unanimous.

The committee named escorted President-elect Moriarty to the chair, where he was greeted with applause.

ELECTION OF CITY CLERK.

Coun. DONOGHUE—Mr. President, I move that we now proceed to the election of a City Clerk.

The motion was seconded and carried. The Clerk called the roll, on motion of Coun. FORD.

Hon. James Donovan, the present incumbent of the office, was re-elected for a term of three years by unanimous vote of the members. (Applause.)

COMMITTEE ON UNCLAIMED BAGGAGE.

Coun. WATSON offered an order—That a special committee be appointed, to consist of two members of the Council, to whom shall be referred all petitions for leave to sell unclaimed baggage, and said committee is hereby authorized to make in each case the examination required by law. Passed.

UNFINISHED MATTERS CONTINUED.

Coun. McLAUGHLIN offered an order—That all matters referred as unfinished business from the City Council of 1919 be referred to the appropriate committees of the City Council of 1920, when appointed. Passed.

RULES FOR 1920.

Coun. LANE offered an order—That the rules of the City Council of 1919 be hereby adopted as the rules of the City Council of 1920. Passed.

EAST BOSTON TUNNEL DEBT.

The following was received:

City of Boston,
Office of the Mayor, February 2, 1920.
To the City Council:

Gentlemen,—I submit herewith an order for an appropriation of \$33,781 to meet in part the expenses during the financial year beginning February 1, 1920, for interest and sinking fund requirements on the East Boston Tunnel Debt, and I respectfully request the immediate passage of same.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That to meet in part the expenses during the financial year beginning February 1, 1920, for interest and sinking fund requirements on the East Boston Tunnel Debt issued under authority of chapter 548, Acts of 1894, chapter 500, Acts of 1897, chapter 190, Acts of 1903, and

chapter 187, Acts of 1905, the sum of \$33,781 be and hereby is appropriated and that said amount be raised by taxation upon the polls and estates taxable in the City of Boston.

Coun. COLLINS—Mr. President, as I understand that this is the usual annual order, I move a suspension of the rule that it be placed upon its passage.

The order was passed, yeas 9, nays 0.

- (12) William T. McKeon, 19 Murray street, Wakefield, Mass., to be a Weigher of Coal.

Severally laid over under the law.

FLAGPOLE, PUBLIC GARDEN.

The following was received:

City of Boston,
Office of the Mayor, January 20, 1920.

To the City Council:

Gentlemen,—I am herewith attaching a communication received from the Park and Recreation Department relative to the erection of a flagpole in the Public Garden. You will recollect that during the summer of 1918 the flagpole which then stood in the Public Garden was destroyed by lightning and because of the expense a new one has not since that time been erected.

In view, however, of the apparent desire for the replacing of the pole, I recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

Park and Recreation Department,
Boston, January 16, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—At a meeting of the Board of Park and Recreation Commissioners held December 31, 1919, it was voted that in accordance with the request of the Back Bay Post No. 117 of the American Legion, his Honor the Mayor be requested to ask the City Council for an appropriation of \$2,500 for the purpose of erecting a flagpole on the Public Garden.

Inclosed please find copy of the communication from the Back Bay Post No. 117 of the American Legion.

Very respectfully yours,
JAMES B. SHEA, Chairman.

Headquarters Back Bay Post No. 117,
American Legion,
177 Huntington Avenue, Boston, Mass.

To Whom it May Concern:

Whereas, The flagpole that stood in the Public Garden was struck by lightning during the summer of 1918, and destroyed;

Whereas, The same has not yet been replaced;

Whereas, It does not seem to the members of this post that in these times of unrest and anarchy threatening the state, our flag can be given too prominent position before the public;

Be it therefore resolved, That the Back Bay Post No. 117 of the American Legion go on record as unanimously favoring the placing of a flagpole in the Public Garden in some prominent position, to replace the one destroyed in 1918, and that same be urged upon the Mayor of this city and upon the Park and Recreation Board.

C. A. COOLIDGE, JR., Commander.

Ordered, That the sum of twenty-five hundred dollars (\$2,500) be and hereby is appropriated to be expended by the Park and Recreation Department for the purchase and erection of a flagpole in the Public Garden, this sum to be charged to the Reserve Fund.

The order was passed under a suspension of the rule, yeas 9, nays 0.

MATTERS RELATING TO RULES.

Coun. HAGAN offered an order—That a special committee of three members be appointed to consider such matters relating to rules as may be referred to said committee from time to time.

Passed.

PREPARATION OF MUNICIPAL REGISTER, ETC.

Coun. BRICKLEY offered an order—That the Statistics Department be authorized, under the direction of the Committee on Rules, to prepare and have printed the Municipal Register for 1920, and that the Clerk of Committees be authorized to prepare and have printed a pocket edition of the organization of the city government and heads of departments; the expense thus incurred to be charged to the appropriation for city documents.

Passed.

EXPENSE OF CITY DOCUMENTS.

Coun. BRICKLEY offered an order—That the expense of printing city documents be charged to the appropriation for city documents.

Passed.

GENERAL RECONSIDERATION.

On motion of Coun. WATSON the Council refused a general reconsideration of all action taken today.

PRESENTATION TO PRESIDENT MORIARTY.

Before the members left the chamber, Mr. Edward T. McGrady came forward and said:

Mr. President and gentlemen of the City Council on behalf of a great many of the friends of the President-elect who are members of the Knights of Columbus, I desire to present to him a charm and pin of that order, with very best wishes. (Applause.)

President MORIARTY said:

I want to say to my friends present representing that order, and to my colleagues who made it be possible for me to be President of this Council for the ensuing year, that I thank them all from the bottom of my heart. I also extend my heartfelt thanks to those who voted to make the election unanimous. I certainly hope that there will not be a feeling on the part of any who have voted for me as President of this body, at the end of my term, that I have not measured up to their hope and anticipation. As everybody knows, I am not in very good shape, and shall not try to speak at length. I will simply add, speaking to my friends who have presented me with the Knights of Columbus charm and pin, that I trust no action of mine during my term as President will bring anything but praise upon that organization. I thank each and every friend who has contributed to this kind gift, and I thank each and every member of the Council for the kindness shown to me. It shall be my utmost endeavor to prove during the year that you have made no mistake in your selection.

Adjourned, on motion of Coun. COLLINS, at 12.30 o'clock p. m., to meet on Monday, February 9, at 2 p. m.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BUILDING STONY BROOK CONDUIT, SECTION 10, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508, City Hall Annex, invites proposals for building Section 10 of the Stony Brook Conduit, extending 900 feet, more or less, from a point about 122 feet south of Washington street, at Franklin place, to Tollgate road, West Roxbury, with appurtenances, and giving bond therefor of a surety company approved by the Commissioner in the sum of thirty thousand (\$30,000) dollars, to secure the due performance of the contract and the full protection of the city. A plan showing borings taken on the line of proposed conduit is on file in Room 710, City Hall Annex, together with samples of the materials found in the borings. Bidders are invited to examine the plan and samples. Attention is called to Article 1 of the contract, page 29. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Building Section 10 of the Stony Brook Conduit," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m., on Wednesday, February 25, 1920, with a certified check for six thousand (\$6,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. A deposit of \$10 will be required for each complete set of plans and specifications, said \$10 to become the property of the City in case the depositor does not submit a bid or fails to return plans and specifications before time of opening bids. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

PROPOSALS FOR CLEANING CATCH-BASINS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for taking out and removing about 24,000 cubic yards of material from about 7,600 catch-basins and drop inlets in Districts 1, 2, 3, 1, 5, 6 and 7, and giving bond therefor of a surety company approved by the Commissioner in a sum equal to twenty-five (25) per cent of the amount of the accepted bid for each district to secure the due performance of the contract and the full protection of the city. It is to be understood that the quantities given in the notice are assumed solely as a basis for the comparison of proposals. The Commissioner does not expressly or by implication agree that the actual amount of work will even approximately correspond therewith, but reserves the right to increase or diminish the amount of any class or portion of the work as he may deem necessary, without change of price per unit of quantity. Forms of proposals may be obtained at Room 508, City Hall Annex. The proposal, accompanied by a statement clearly setting forth the equipment of which the bidder is possessed for the proper and speedy carrying out of such contract (such equipment to be considered as an essential consideration in the awarding of the contract), should be inclosed in an envelope, sealed, marked "Proposal for Cleaning Catch-basins," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, February 11, 1920, with a certified check for one thousand dollars (\$1,000) for each district, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price bid on any district appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

BOSTON NOTES.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,309,000; Washington Street Tunnel, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,234,471; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1919 for the Dorchester tunnel, \$10,738,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,000,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) are leased to the Boston Elevated Railway Company (which furnishes the equipment) for term of 25 years (except Tremont Street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which is at $\frac{3}{8}$ of one per cent of all annual gross receipts of said company). In accordance with chapter 741, Acts of 1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By chapter 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By chapter 3, Ordinances of 1918, the Transit Department was established, to be in charge of three commissioners, appointed for term of one year.

POPULATION OF BOSTON, 1915, BY GEOGRAPHICAL DISTRICTS.

East Boston (*i. e.*, Wards 1 and 2, including the islands), 65,680 or 7,192 more than in 1910; Charlestown (*i. e.*, Wards 3 and 4), 39,601 or 1,843 less than in 1910; Boston proper (*i. e.*, Wards 5, 6, 7, 8 and northern portions of Wards 12, 13 and 14), 196,300 or 3,026 more than in 1910; South Boston (*i. e.*, Wards 9 and 10 and northern part of Ward 11), 69,745 or 1,958 less than in 1910; Roxbury (*i. e.*, most of Wards 12, 13 and 14, also 15 and 16), 127,683 or 9,956 more than in 1910; Dorchester (*i. e.*, most of Ward 11, Wards 17, 18, 19, 20, 21 and part of 24), 138,119 or 22,339 more than in 1910; West Roxbury, including Jamaica Plain and Roslindale (*i. e.*, Wards 22 and 23), 56,071 or 10,477 more than in 1910;

Brighton (*i. e.*, Wards 25 and 26), 34,782 or 8,207 more than in 1910; Hyde Park (*i. e.*, most of Ward 24), 17,458 or 1,951 more than in 1910. Maximum population per acre, 117.9, in Ward 6; minimum, 4.5, in Ward 23, the largest ward in area, *i. e.*, 4,743 acres of land. Average for city, 26.9 per acre.

As the minor districts have no fixed boundaries, their population can be reckoned only by grouping such precincts as are commonly assumed to belong to them. The superintendent of mails, Boston Post Office, has a system of mail delivery whereby the Boston postal district is divided into 84 sub-districts, extending northerly to include Stoneham, easterly including Winthrop, southerly including South Weymouth and westerly including Wellesley. Population of whole district computed at Post Office according to 1915 census as approximately, 1,400,000 and of these subdistricts in Boston as follows: Allston, 14,931; Back Bay, 29,892; Essex Street, 21,186; Grove Hall, 29,028; Hanover Street, 32,097; Jamaica Plain, 31,092; Mattapan, 8,351; North Postal, 44,294; Roslindale, 17,153; Roxbury Crossing, 48,363; Station A, 61,781; Upham's Corner, 46,085.

The population of Boston was about equal to the combined population of the following 20 cities in 1915. Cambridge, 108,822; Lynn, 95,803; Malden, 48,907; Chelsea, 43,426; Newton, 43,113; Quincy, 40,674; Fitchburg, 39,656; Everett, 37,718; Salem, 37,200; Taunton, 36,161; Medford, 30,509; Waltham, 30,154; Revere, 25,178; Gloucester, 24,478; Beverly, 22,959; Attleboro, 18,480; Melrose, 16,880; Woburn, 16,410; Newburyport, 15,311, and Marlboro, 15,250. The population of Dorchester alone was equal to that of Quincy, Everett, Medford and Waltham combined. Chelsea is the most densely populated municipality in the state, *viz.*: 22,856 per square mile, Somerville ranking next, *viz.*, 22,078.

There are 7 cities in the world having over 2,000,000 population, 9 more having over 1,000,000 and 11 others having more than Boston, the latter ranking twenty-eighth in the world.

PUBLIC DEBT, 1919.

Gross funded debt, February 1, 1919, \$127,124,217.69 (including \$400,666.69 issued by state for enlargement of Court House); sinking funds, \$43,068,184.85; other redemption means, \$1,589,130.09; net debt, \$82,466,902.75 (*i. e.*, \$2,103,274.29 less than on February 1, 1918), of which \$49,778,039.21 (*i. e.*, 60.36 per cent) was city debt; \$130,862,113.95 (*i. e.*, 37.42 per cent) Rapid Transit debt (the latter self-paying); \$1,474,749.59 (*i. e.*, 1.79 per cent) county debt, and \$352,000 (*i. e.*, 0.43 per cent) water debt. Net debt per capita (estimated population, 794,817) \$103.76; net debt exclusive of Rapid Transit debt, \$51,604,788.80, or \$64.93 per capita, which is \$25.54 less per capita than in 1907. Loans authorized but not issued (within debt limit) \$440,000.

In the fiscal year 1918-19, the net city debt was reduced by \$2,420,386.24; the net county debt by \$148,474.18; and the net water debt by \$16,000. The net rapid transit debt, *i. e.*, for new tunnel construction, was increased by \$481,536.13. Total debt contracted, \$2,220,500; total debt paid, \$3,691,646.66; total decrease of gross debt, \$1,474,146.66; of net debt, \$2,103,274.29. There has been no such debt reduction since 1901.

Total debt incurred in the ten years 1908-18, \$52,868,633, of which \$20,868,000, or 39.5 was rapid transit debt.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

On February 5 to the Elm Farm Milk Company for furnishing 43,000 quarts of milk for the Consumptives' Hospital. Bids opened January 30, 1920:

Elm Farm Milk Company, \$1.02 per 8½ quart can; E. Weiler & Sons, \$1.08 per 8½ quart can; H. P. Hood & Sons, \$1.15 per 8½ quart can.

On February 5 to bidders indicated in following communication and schedule of bids for furnishing hay, grain and straw to various city departments during month of February:

BOSTON, February 3, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing hay, grain

and straw to the various city departments during the month of February, 1920.

Lowest bidders in each district are starred.

I respectfully recommend that the contract be awarded the lowest bidders in each district.

Respectfully,
FRANK S. DELAND,
Acting Superintendent of Supplies.

as this work must be done immediately, the necessary time could not be taken to advertise for proposals. At the present outlook the total amount necessary for this purpose will be approximately \$2,500 to \$3,000.

Nine contracting firms were requested to submit figures and the above proposal is the lowest.

At the present time all of the available force of the department (100 men, twelve double and eight single teams) has been transferred to the removal of snow on Commonwealth avenue and Boston Common. The work to be done under this contract is to give instant relief to the property owners and to give them proper protection in case of a fire.

Very respectfully yours,
JAMES B. SHEA, *Chairman.*

PUBLIC WORKS DEPARTMENT.

On February 9 to Hugh Nawn Contracting Company for removal of snow in city proper as per following communication:

BOSTON, February 9, 1920.

To the Mayor of Boston:

I respectfully request your permission to award a contract, without advertising, to the Hugh Nawn Contracting Company for the removal of snow and ice in city proper at a price of 75 cents per cubic yard. This request is made in the present emergency, as no advantage would be gained by public advertisement and the price is a reasonable one.

Respectfully yours,
T. F. SULLIVAN,
Commissioner of Public Works.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$400, on contract with John Bowen & Co., dated October 16, 1919, for erecting five portables, Lewis School, viz.: For building five coal boxes at \$36 per box, \$180; for moving Portable No. 161 from the Lewis School, Roxbury, to Longfellow School, West Roxbury, labor and material, \$220; contract price, \$14,375; total addition, \$400; amount of contract, \$14,775.

A deduction, amounting to \$154.98, on contract with the Boston Pulley and Shafting Company, dated January 8, 1920, Boston Trade School, viz.: For the following belting furnished by Schoolhouse Department: 40 feet 3 inches of 4-inch double leather belting at \$1.92 list, \$77.28; 29 feet 6 inches of 5-inch double leather belting at \$2.40 list, \$70.80; 20 feet 4 inches of 6-inch double leather belting at \$2.88, \$58.56. Discount 25 per cent, \$51.66. Original contract, \$4,838; total deductions, \$154.98; contract outstanding, \$4,683.02.

REJECTED CLAIMS.

The Law Department has disapproved twenty-four claims against the city.

In three of these no amounts were specified, and the other twenty-one aggregated \$4,423.26, and are classified as follows:

Against the Police Department, twenty-two, in two of which no amounts were specified, and the other twenty amounted to \$3,328.76; against the Street Laying-out Department, one, in which no amount was specified; against the Public Works Department, one, for \$1,095.50.

All these claims have been disapproved for the reason there appeared no legal liability upon the city.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PARK AND RECREATION DEPARTMENT.

On February 9 to M. McGinnis & Co. for furnishing teams and autos as per following communication:

BOSTON, February 5, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—By vote of this Board your approval is respectfully asked to award, without advertising, a contract for furnishing approximately ten single team express wagons or dump carts and twelve double teams with dump carts to Messrs. M. McGinnis & Co., 68 Rossmore road, at the following prices for doing the work from February 2, 1920, to April 1, 1920.

For each double team, including horses, cart, harnesses, driver, etc., furnished, the sum of \$6.

For each single team, including horse, express wagon or dump cart, harness, driver, etc., furnished, the sum of \$3.

Messrs. M. McGinnis & Co. have just finished on January 31, 1920, a contract for the teaming of this department for the year 1919-20, and they are willing to continue at the same prices until April 1, 1920.

The reason for asking your approval

is that investigation discloses the probable fact that the prices for teams next year will be from one to two dollars per day for double teams more than at present. During the recent storm the Boston Elevated and contractors doing snow work have been paying \$10 and upward per day for double teams. If a great amount of snow work continues during the months of February and March, the approximate amount for each month will be \$2,500 to \$2,800. If the snow work does not continue, less teams will be required and the monthly amounts will not be so large.

Very respectfully yours,
JAMES B. SHEA, *Chairman.*

On February 9 to J. C. Coleman & Sons Company for removal of snow on Commonwealth avenue as per following communication:

BOSTON, February 9, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—By vote of this Board your approval is respectfully asked for authority to make a contract, without advertising, with the J. C. Coleman & Sons Company for the removal of snow at 57 cents per cubic yard on Commonwealth avenue, between Arlington and Beacon streets.

The reason that such a contract was not made early in the season, as was done in the Public Works Department, is that this is the first time that this department has been obliged to remove snow by contract from Commonwealth avenue and

TAX RATE OF BOSTON, 1918.

Total rate per \$1,000 was \$21.20 (\$3.50 more than in 1917), or \$16.85 for city purposes (*i. e.*, \$3.34 more than in 1917), \$2.99 for state (*i. e.*, same as in 1917), and \$1.36 for county (*i. e.*, 16 cents more than in 1917). Of the city rate, \$4.48 was for schools, *i. e.*, 84 cents more than in 1910 and \$1.52 more than in 1905. Of the 38 cities in Massachusetts, 26 had a higher rate than Boston's, notwithstanding the unprecedented increase in the latter. The highest rate was \$26.80 (*i. e.*, Revere's); the lowest, \$16 (*i. e.*, Peabody's). Only 7 of the 38 cities had a tax rate as low as \$20 or under. Tax rate in New York (Manhattan), \$23.60; New York (Brooklyn), \$24; St. Louis, \$23.50 (on 70 per cent of value) equivalent of \$16.45 on 100 per cent assessment; Cleveland, \$15.50; Buffalo, \$24.70; Baltimore, \$20.10; Detroit, \$13.80; New Orleans, \$22; Newark, \$27.

OFFICIAL COMMUNICATIONS.

REPORT OF FINANCE COMMISSION ON TAX LIMIT OF CITY OF BOSTON.

Boston, February 11, 1920.

To the Honorable the Senate and House of Representatives in General Court Assembled:

The Finance Commission of the City of Boston submits the following report, in accordance with the direction of the General Court:

[Chapter 252, Special Acts of 1919.]

SECTION 2. The finance commission of the city of Boston is hereby directed to investigate the necessity for further increases in the tax limit of the city of Boston and report its findings together with its recommendations thereon to the general court on or before the fifteenth day of February, nineteen hundred and twenty.

I. THE PRESENT FINANCIAL SITUATION OF THE CITY.

The tax limit of the city for the fiscal year 1920-21 for municipal purposes apart from the School Department is fixed at \$10.52 on each \$1,000 of the valuation upon which the appropriations by the City Council are based. The present limitation represents an increase of \$4 over the limit for the years 1916 and 1917, and an increase of \$1 over the limit allowed by the General Court for the years 1918 and 1919. The tax limit for city department purposes since 1914 has been as follows:

1914.....	\$6 37
1915.....	6 37
1916.....	6 52
1917.....	6 52
1918.....	9 52
1919.....	9 52
1920.....	10 52

The present tax limit is an increase of over 60 per cent of the tax limit of 1917.

The tax limit of this year will permit the city to raise by direct taxation the sum of \$15,678,409.83 for the current expenses of city departments. In addition to this sum there was in the city treasury at the beginning of the fiscal year a cash balance of \$3,769,478, the largest in the history of the city. This large surplus was due to three causes:

1. The activity of the Collecting Department in gathering uncollected taxes (personal, poll and real), and outstanding bills.

2. Savings by the departments from their appropriations of a sum amounting to \$494,689.

3. The excess of income over estimated income.

To these two sums, viz., taxes, \$15,678-409.83, and cash in treasury unappropriated, \$3,769,478, there is to be added the estimated income of the city, \$5,225,000. This estimate was figured by the City Auditor and allows for all losses recently suffered by the city in liquor licenses. These three sums amount to \$24,672,887.83, which the city can appropriate and use for city department purposes.

The total budget requests for departmental purposes amount to approximately \$23,190,944.72,* which includes \$1,500,000 for increases in wages and salaries to practically all city employees, varying in amount from \$60 to \$2,500 each, the largest number receiving \$200 each.

* Final budget not yet submitted; figures based upon estimates submitted by departments in December, 1919, and do not include new positions.

Balancing these requirements against the available funds, the city will have a large surplus of \$1,481,943.11, which, if not used, will lower the tax rate substantially. Hence for the current year no increase in the present tax limit is necessary. It is also manifest that the city could conduct its departments within a tax limit of \$9.52. In other words, an increase of \$3 by the General Court would have sufficed for this year.

When the city authorities presented their case to the special session of the Legislature in December, 1919, their figures were based upon an estimated balance in the treasury of \$500,000. This estimate is \$3,269,478 less than the actual balance. The Finance Commission pointed out at the time that such an

estimate was too low, and that with activity in the Collector's office the collections should be sufficient to obviate the necessity for raising the tax limit more than \$3. The prediction of the commission was more than fulfilled by the actual balance on January 31, 1920.

A further fact to be considered is that the budget, as submitted by heads of departments, will undoubtedly be materially reduced by the Mayor. The balance of \$1,481,943.11 has been figured on the basis of the department requests for appropriations for 1920 being approved without deductions. Reductions of these requests can be estimated in advance on the basis of the last three years' experience. The following table gives a brief survey of the Mayor's reductions in budget estimates:

YEAR.	Budget Estimates.	Budget Allowed by Mayor.	Mayor's Reductions.	Percentage.
1917-18.....	\$17,283,545 63	\$16,679,974 82	\$603,570 81	3.4
1918-19.....	19,057,835 66	17,628,911 64	1,428,924 02	7.2
1919-20.....	20,698,245 14	19,851,208 73	846,946 41	4.1

Average reduction of estimate for three years, 4.9.

Amount of reduction of budget for 1920-21 at average rate, approximately, \$1,136,000.

If the average reduction of 4.9 per cent for the last three years is applied to the budget requests of the departments for the year 1920-21 of \$23,000,000, it will decrease by \$1,136,000 the amount necessary to be appropriated under the tax limit.

The appropriating power for the present year is made up of the following items:

Tax limit of \$10.52.....	\$15,678,409 83
Cash on hand.....	3,769,478 00
Estimated income.....	5,225,000 00
Total.....	\$24,672,887 83
Estimated budget requirements...	\$23,190,944 72
4.9 per cent reduction by Mayor..	1,136,000 00
Net budget requirements.....	\$22,054,944 72
Appropriating power.....	\$24,672,887 83
Net budget requirements.....	22,054,944 72
Probable surplus of appropriating power over net budget requirements.....	\$2,617,943 11

The Finance Commission concludes that there will be no need for a further advance this year in the tax limit of Boston.

II. NEED FOR INCREASING THE TAX LIMIT IN 1921.

It is difficult to predict what the requirements of the next year or the coming years may demand of the city in the matter of its tax appropriating power. What may be sufficient for the present may represent an extravagance in the future or may become less than the actual needs of the times. No one can definitely forecast the future, and the commission believes that the question of further changes in the tax limit must be left until all the supporting factors and data are available. The Collecting Department of Boston, with new methods and firmness of administration, may be able to collect practically all of its outstanding balances yearly, so as to preclude the necessity for large increases in the appropriating power of the city. The valuations of the city will continue to rise from now on, unless there should be a tremendous panic and all business enterprises curtailed. The Mayor's recent address to the City Council pictures the development of Boston with large ad-

vances in building operations, which will increase the income of the city by hundreds of thousands of dollars.

In 1919 the applications for permits for new buildings represented an estimated cost of about \$15,000,000 as compared with a cost of \$4,000,000 in 1918. This additional building development means a large gain in taxes. Larger operations in 1920 mean a larger increase in the taxable lists and a corresponding advance over this gain in taxes.

In addition to this increased revenue which will undoubtedly accrue to the city in the coming years, there are also certain reforms just inaugurated by the Mayor which will decrease the expenses of the city. The Mayor has begun to close the Suffolk School for Boys, and within a short period \$50,000 or more a year will thus be saved to the city.

Steps are being taken to close all the harbor institutions and transfer the population in these city institutions to other departments on the mainland. This will probably allow the city to dispose of two of its boats, which cost approximately \$75,000 a year to maintain. Besides, there will be large savings from the distribution of the island population among the departments on the mainland. There may be a further saving of approximately \$40,000 from the discontinuance of the Licensing Board, due to the Prohibition Amendment.

Besides, there are large increases in income, due to a rise in the rentals for stalls and spaces in the Faneuil Hall and Quincy Markets. A balance of \$218,000 in the fuel appropriation will be available for the city next year. All these savings, which are fairly definite, will offset to a large measure the increased burden of new services or increases in wages and salaries to city employees.

The savings from these reforms, abolitions and reorganizations, combined with efficiency of collection of taxes and bills, and with increased valuations of the city, may render unnecessary any increase over \$3 in the tax appropriating power of the city in 1921 and thereafter. This result will be immeasurably helped if the General Court passes the Mayor's petition for increasing the rate of interest on un-

paid taxes, because it will tend to make more prompt the payment of taxes and cause payment from the taxpayers who now withhold payment until the last moment, because the city's interest rate on overdue taxes is less than the market rate.

The tax limit is a check on the spending power of the city. It has forced the city authorities, whenever a rise in the limit was necessary, to seek relief from the General Court and to present an account of their administration to the Legislature. If no limit were placed upon the city's appropriating power, there would be less check upon extravagance. Appeals then would undoubtedly be made to the legislative body to relieve the city from extravagant administration. This was the reason for the first statute in 1885 creating a tax limit.

III. FINDINGS.

The Finance Commission finds:

That the City of Boston will not need any further increase in its tax limit for this year, viz., 1920-21.

IV. RECOMMENDATIONS.

The Finance Commission recommends:

1. That no increase in its tax limit be granted to the city for the present fiscal year.

2. That the tax limit on the city be not abolished.

3. That, if an increase next year is necessary, the city present its reasons therefor to the General Court of 1921.

4. That the Mayor's bill (House 579) providing for an increase in the interest payments on overdue taxes be passed.

Respectfully submitted,

THE FINANCE COMMISSION,
by GEORGE A. FLYNN,
Chairman.

PERMITS FOR CERTAIN KINDS OF VEHICLES.

BOSTON, January 17, 1920.

To the Mayor of Boston:

Under chapter 252 of the General Acts of 1919 no commercial motor vehicle, motor truck or motor-driven vehicle shall be operated on any way in this Commonwealth, the outside width of which is more than ninety-six inches, or the extreme over-all length of which exceeds twenty-eight feet, except that such a vehicle exceeding twenty-eight feet may be operated when a special permit is secured; provided, that where more than one vehicle or trailer is operated the length of such vehicles may exceed twenty-eight feet, but in no event shall all such vehicles or trailers so drawn or operated exceed sixty-five feet in length, all dimensions to be inclusive of the load.

I respectfully request your approval to establish the rate of \$1 for each special permit and \$10 for each annual permit issued under the provisions of this act.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved February 9, 1920.

ANDREW J. PETERS, Mayor.

VETO—PENSION FOR CORNELIUS J. SHEA.

The following was received:

City of Boston,

Office of the Mayor, February 2, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on January 26 favoring the enactment of legislation to authorize the pensioning of Cornelius J. Shea, formerly a police officer in the City of Boston.

I am herewith attaching a copy of a report made by the captain of Division 17 of the Police Department in connection with this case. There seems to be no grounds for the assumption that Shea's insanity was caused by injuries received in the performance of his duty, and for that reason I feel that I cannot favor this legislation.

Respectfully yours,

ANDREW J. PETERS, Mayor.

City of Boston,

Police Department, January 29, 1920.

James H. Devlin, Jr., Secretary:

Sir,—With reference to the case of former Patrolman Cornelius J. Shea about which we talked over the telephone on the 28th inst. and in compliance with your wishes then expressed, I respectfully submit the following report:

Former Patrolman Cornelius J. Shea was appointed a reserve officer July 27, 1914, and assigned to this division. He was appointed a patrolman July 13, 1916, and resigned from the department May 19, 1917. He was assigned to this division during the time of his service in the department.

The following is a copy of a report sent by me to the superintendent May 4, 1917: I respectfully report that about 8 p. m. of May 2, 1917, Patrolman Cornelius J. Shea of this division was taken from his home at 85 Savin Hill avenue, Dorchester district, to the Psychopathic Hospital by Dr. Frederick J. Bailey, 40 Hancock street, Dorchester district, suffering from insanity.

Patrolman Shea has been absent from duty since April 24, 1917, at which time he reported to me that he had a severe cold and stomach trouble; I then advised him to go to his home and consult his doctor.

Dr. Frederick J. Bailey, above described, stated to me that about 7 p. m. May 2, 1917, Patrolman Shea had jumped into Dorchester

Bay; that he had pulled himself out again, and that later, when called to see him, he found him suffering from insanity and took him to the Psychopathic Hospital. Doctor Bailey further informed me that upon Tuesday night, May 1, 1917, Patrolman Shea went to New York City and returned to his home upon Wednesday, May 2, 1917.

Patrolman Shea could not give any reason for going to New York City and Doctor Bailey said, that in his opinion, Patrolman Shea would never again be in condition to perform police duty.

Patrolman Shea was not injured at any time while upon duty on this division, to my knowledge.

Upon April 4, 1917, Patrolman Shea while off duty and wearing civilian clothes, in Pemberton square, near the Court House, was assaulted by Samuel Massell, twenty-four years old, residing at 65 Hancock street. This was a simple assault. Patrolman Shea showed no ill effects from the assault and he never made a complaint to me that he had received any injury.

Samuel Massell, above described, was arrested by Patrolman Owen J. Donnelly of Division 3, at time of the assault, and the record of the case is upon the books of Police Division 3.

Respectfully submitted,

CLYNTON E. BOWLEY,
Captain Division 17.

Placed on file.

NEW STATION HOUSE, DIVISION 2.

The following was received:

City of Boston,

Office of the Mayor, February 9, 1920.

To the City Council:

Gentlemen,—At the present time the city owns a parcel of land at the corner of Arch street and Hawley place, which was purchased several years ago as a site for a new station house for Police Division 2. This property is assessed for about \$135,000.

As it is probable that the city will be able to dispose of this parcel of land at least at its purchase price, and probably at a profit in the near future, I have conferred with the Police Commissioner relative to the city securing another location for a new station house for Police Division 2, and a location agreeable to both the Police Commissioner and myself has been found at the corner of Milk and Sears streets. This is a parcel of land owned by the Central Wharf and Wet Dock Corporation, and can be purchased at its assessed valuation, i. e., \$89,000.

This latter parcel of land is somewhat larger than the parcel at the corner of Arch street and Hawley place. When the last named parcel was purchased, the Police Department did not have in mind the formation of a permanent traffic squad, which would have to be housed in their own quarters. It is the intention of the Police Commissioner to house the regular officers of Division 2 in the new building, and also provide ample quarters for the traffic squad in the same building. This can be done if the building is erected on the Milk street site, as this parcel of land is larger and therefore will permit the erection of a more commodious building, and the means of entrance and egress for motor vehicles, absolutely essential to the proper location of the traffic squad, are better at the Milk street site than at the Arch street site.

If the city acquires the Milk street site at a cost of \$89,000, and this can be done, and sells the Arch street site at only the assessed valuation, which is \$135,000, the city will be able to save at least \$46,000 on the police station site, and as this is perfectly agreeable to the Police Commissioner, he having been consulted on every phase of the situation, I recommend the passage of the accompanying order.

As soon as the new plot is secured, the city will begin negotiations for the sale of the Arch street property at a figure appreciably higher than that which the city paid for it. I therefore recommend the passage of the accompanying orders.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the Board of Street Commissioners be authorized to sell the estate corner of Arch street and Hawley place, purchased for a site for a new station house, the proceeds of such sale to be used toward the erection and furnishing of a police station for Police Division 2.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the unexpended balance of the appropriation for Police Headquarters, Pemberton Square, amounting to \$31,906.87, to the appropriation for Police Station 2, Site.

Ordered, That the sum of \$57,000 be and the same is hereby appropriated to be expended under the direction of the Superintendent of Public Buildings toward the purchase of a site for Police Division 2, and that to meet said appropriation the City Treasurer be authorized, from time to time, on the request of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

INFORMATION FROM MASSACHUSETTS
REAL ESTATE EXCHANGE.

The following was received:

City of Boston,
Office of the Mayor, February 3, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting a letter just received from the Massachusetts Real Estate Exchange in reply to the order of the City Council passed on January 5 requesting the Massachusetts Real Estate Exchange to supply whatever information it had regarding certain statements made by Mr. Frederick O. Woodruff.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Massachusetts Real Estate Exchange,
Boston, January 30, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Your letter of January 7 was duly received and acknowledged. With the letter was inclosed a copy of the order passed by the City Council on January 5, 1920, requesting the Massachusetts Real Estate Exchange, through his Honor the Mayor, to furnish the City Council any and all information it may have in its possession regarding the seventy millions of real estate in Boston located in the North End, West End, Roxbury and Dorchester districts that is overassessed, according to the statement of Mr. Frederick O. Woodruff, and likewise a list of the various parcels in the business district that Mr. Woodruff believes to be underassessed.

The report of the committee from this exchange, who made the appraisals according to what they considered a fair market value of the properties in the above-mentioned districts, is of March 24, 1916, a copy of which is herewith inclosed, and the appraisals were made and compared with the 1915 assessments by the Board of Assessors under the old ward system of the City of Boston. The report of the committee shows the total amount of the appraisals by wards and does not embrace the detailed appraisal figures of individual parcels, as these details were retained by the appraisers, and are not now available. These details were not submitted to the exchange by the appraisers, for the reason that, in the opinion of the committee, if these detailed appraisals were published or available for the public, it would undoubtedly cause the owners embarrassment or loss, for no doubt a large majority of these parcels that were appraised were mortgaged, and if it came to the notice of the mortgagees that the experts of the Massachusetts Real Estate Exchange had appraised these properties at what they considered the market value and it differed materially from the assessed value, the mortgagees, when the mortgages became due, might demand that the owner of the equity pay off or reduce the mortgage to what the mortgagee considered a fair percentage of the appraised value. Such a condition as this would undoubtedly lead to serious consequences. Therefore, the Massachusetts Real Estate Exchange, even if they had retained possession of the individual appraisals of the separate parcels, would not feel at liberty to publish them or to give them to the public through the City Council, or by any other means.

The report as prepared by the Appraisal Committee shows what they considered overassessment in each of the several wards, and approximated \$66,798,300.

The Massachusetts Real Estate Exchange is willing and anxious to co-operate with the city officials and heads of departments when permitted to do so, and now that the matter has been brought to the attention of the Council by the chairman of our Legislative Committee, and the Council takes exceptions to the appraisals as stated, the exchange proposes that, in order to put the matter fairly and squarely before the real estate taxpayers and the public in a thorough and impartial manner, our Board of Directors will, if the City Council so requests, appoint an appraisal committee of competent real estate experts to meet and confer from time to time with the Boston Board of Assessors, or a committee appointed by that Board, thereby arriving at an equitable assessment of real estate parcels in the above-mentioned districts. Under this arrangement values would be equitably established so that owners of individual parcels of real estate would feel safe on assessed values, market values and mortgage values.

The City Council will appreciate, no doubt, that the real estate experts of the Massachusetts Real Estate Exchange are men who have been for years buying, selling, mortgaging and leasing properties in the above-mentioned districts. Therefore, it must be evident that these men have gained a substantial and accurate knowledge of market values of real estate.

Regarding your second request for the list of the various parcels in the business district that Mr. Woodruff believes to be underassessed, we would state, that this matter of underassessment was not brought before the Legislative Committee of the exchange for discussion, but was casually referred to at the hearing before the Executive Committee of the Boston City Council, to which Mr. Woodruff was invited, and was only a personal opinion of Mr. Woodruff's, who states that under the above circumstances he does not care to give out personally any list for publication of properties in the district referred to that may be, in his opinion, underassessed. This question, however, could also

be taken up for thorough discussion and adjustment by the joint committee of appraisers and assessors as mentioned above.

Trusting the City Council will see its way clear to accept the above suggestion, we remain,

Yours very truly,

BOARD OF DIRECTORS, MASSACHUSETTS
REAL ESTATE EXCHANGE,
by ERNEST M. HODGDON,
Executive Secretary.

P. S.—We inclose copy of the report submitted to the exchange by the committee above referred to on March 24, 1916.

[Copy.]

March 24, 1916.
Massachusetts Real Estate Exchange, 209 Washington Street, Boston:
Gentlemen,—Your committee appointed some time ago to appraise properties in the several districts of Boston as against the values assessed by the Boston Board of Assessors beg to submit their report as follows:

	Assessed at.	Appraised Value.	Considered Overassessed.
Ward 6 assessed \$189,214,500.			
That part of Ward 6.....	\$54,000,000	\$48,220,000	\$5,780,000
Ward 7 assessed \$318,246,000.			
That part of Ward 7.....	21,500,000	18,860,000	2,640,000
Ward 8.....	36,304,300	28,449,300	7,855,000
Ward 9.....	24,704,700	20,128,700	4,276,000
Ward 10.....	78,270,500	71,790,000	6,480,500
Ward 11 assessed \$134,536,000.			
That part of Ward 11.....	6,500,000	4,350,000	2,150,000
Ward 12.....	20,992,700	16,812,000	4,180,700
Ward 17.....	20,411,900	17,031,900	3,380,000
Ward 18.....	15,993,900	12,643,000	3,350,900
Ward 19.....	24,761,600	20,781,400	3,980,200
Ward 21.....	27,977,200	23,012,200	4,965,000
That part of Ward 22.....	16,500,000	13,740,000	2,760,000
Dorchester district.....	108,000,000	93,000,000	15,000,000
	\$455,916,800	\$389,118,500	\$66,798,300

Your committee recommend that these apparent overassessments be taken up by the proper officers of the exchange with the Mayor and, through him, with the chairman of the Board of Assessors, and arrange a conference to see if some action cannot be taken to modify what we consider a serious overvaluation of real estate in these wards by the Board of Assessors.

Yours very truly,

FREDERICK O. WOODRUFF,
Chairman of Appraisal Committee.

Referred to the Executive Committee.

REARRANGEMENT OF PRECINCTS,
WARD 25.

The following was received:

City of Boston,
Office of the Mayor, February 6, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting a communication just received from the Board of Election Commissioners relative to the rearrangement of Precincts 3, 4 and 5 of Ward 25 for appropriate action by your body.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Board of Election Commissioners,
Boston, February 4, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:
Dear Sir,—Under the provisions of chapter 74 of the General Acts for the year 1918 it is set forth that

"If a voting precinct shall, in any year, according to such registration, contain more than one thousand voters, the aldermen shall in like manner either divide such precinct into two or more voting precincts or shall make a new division of the ward into voting precincts."

The Board found that at the close of registration for the city election, 1919, that Precinct 4 of Ward 25 contained one thousand and seventy-nine (1,079) voters, and we therefore recommend that Precincts 3, 4 and 5 of said Ward 25 be divided into five (5) precincts, making a total of eight (8) precincts in said ward, instead of six (6) as at present.

The Board of Election Commissioners herewith submits a division in accordance with the above suggestion and respectfully requests that the same be submitted to the City Council for approval in order that the police listing of April 1, 1920, may take place under the new precinct lines.

Respectfully,
BOARD OF ELECTION COMMISSIONERS,
MELANCTHON W. BURLIN,
Chairman.

Ordered, That a new division into voting precincts be made in Ward 25, and said precincts be hereby constituted as follows:

Ward Twenty-five.

Precinct One.—All that part of said ward lying within the following described line: Beginning at the intersection of the centre lines of Brighton avenue and Mechanic street; thence by the centre line of Mechanic, Cambridge, Hano and Braintree streets to its intersection with the line separating Ward Twenty-five from Ward Twenty-six; thence by said ward line by the centre line of Everett street (lower level) and by the centre line of loca-

tion of the Boston & Albany Railroad to its intersection with the middle line of an old creek which formerly formed the boundary line between Brookline and Brighton; thence by said middle line to its intersection with the boundary line between the City of Boston and the city of Cambridge, in Charles river; thence by said boundary line through Charles river to its intersection with the centre line of Ashby street extended; thence by said extended centre line and by the centre line of Ashby street and said centre line extended to the boundary line between the City of Boston and the town of Brookline; thence by said boundary line, by the southerly line of Commonwealth avenue to a point in said line between Winslow and Naples roads; thence by a line drawn at right angles with said boundary line to the centre line of Commonwealth avenue; thence by the centre line of Commonwealth and Brighton avenues to the point of beginning. 591 voters.

Boston, February 4, 1920.

A redivision of Ward 25 into 8 voting precincts, Precincts 3, 4 and 5 having been divided into 5 precincts, Precincts 1, 2 and 8 the lines remaining the same, Precinct 8 being the old precinct numbered 6.

BOARD OF ELECTION COMMISSIONERS,
MELANCTHON W. BURLIN,
Chairman.

Referred to the Executive Committee.

TRANSFER TO SAVIN HILL PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, January 14, 1920.

To the City Council:
Gentlemen,—I am transmitting herewith communications from the chairman of the Park and Recreation Department relative to a transfer of the balance of the special appropriation "Ripley Playground, Dorchester," to the special appropriation "Savin Hill Playground and Beach," and respectfully recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

City of Boston,
Park and Recreation Department,
December 2, 1919.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—By vote of this Board you are respectfully asked to make a request on the City Council for the transfer of the balance of \$13,534.25 from the special appropriation "Ripley Playground, Dorchester," to the special appropriation "Savin Hill Playground and Beach," for the reason that all work to be done at Ripley Playground has been done; further work is necessary at McConnell Park, formerly known as Savin Hill Playground.

Very respectfully yours,
JAMES B. SHEA, Chairman.

City of Boston,
Park and Recreation Department,
December 12, 1919.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—I have your letter of December 11, 1919, relative to the request of this Board for the transfer of \$13,534.25 from the special appropriation "Ripley Playground, Dorchester," to the special appropriation "Savin Hill Playground and Beach," with a request to furnish information in detail as to the estimated quantity of work to be done and rates, with totals for the various elements of the work necessary to complete and put Savin Hill Playground and Beach in final condition, and in reply would state that I am inclosing a copy of the engineer's report on the various items necessary to complete Savin Hill Playground, now McConnell Park.

While \$37,000, the engineer's estimate, is neces-

sary for the final completion, I find that the amount asked for transfer will place the playground and park in a suitable condition for present use. The estimated amounts for this purpose are as follows:

1,000 cubic yards loam at \$2.25.....	\$2,250 00
800 linear feet 6-foot playground fence at \$2.....	1,600 00
9,000 cubic yards filling on children's playground at 50 cents.....	4,500 00
75 cubic yards reinforced concrete slab on pier head at \$40.....	3,000 00
Children's apparatus.....	500 00
Balance due on the unfinished contract of Sullivan's, which will be settled later by the bonding company, but when received will be turned into the Sinking Fund.....	1,700 00
Total.....	\$13,550 00

The 1,000 yards of loam in the above estimate will allow us to do the most necessary planting, that is, the placing of trees along the railroad, in order to screen the playground from the tracks.

The 9,000 cubic yards of filling for the children's playground is placed at a lesser amount than the engineer's estimate, as, if the work is now authorized, ashes can be had for this purpose at the price of 50 cents per cubic yard, mentioned in the above table.

The 800 cubic yards of playground surfacing and the 1,500 cubic yards of riprap recommended in the engineer's estimate could be dispensed with until such time as more funds are available.

Very respectfully yours,

JAMES B. SHEA, Chairman.

City of Boston,
Park and Recreation Department,

November 6, 1919.

Mr. William P. Long, Deputy Commissioner Park and Recreation Department, 33 Beacon Street, Boston:

Dear Sir,—The cost of improvements at Savin Hill Beach and McConnell Park which should be completed at once is estimated as follows:

2,000 cubic yards loam required at \$2.25.....	\$4,500 00
800 linear feet 6-foot playground fence at \$2.....	1,600 00
11,000 cubic yards filling on children's playground at \$1.....	14,000 00
800 cubic yards playground surfacing at \$4.....	3,200 00
1,500 cubic yards riprap at \$5.....	7,500 00
75 cubic yards reinforced concrete slab on pier head at \$40.....	3,000 00
Amount needed to complete contract now being done.....	4,000 00
Total.....	\$37,800 00

Respectfully,
JOHN J. MURPHY, Acting Engineer.

Order, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$13,534.25 from the appropriation for "Ripley Playground, Dorchester," to the appropriation for "Savin Hill Playground and Beach."

Referred to the Executive Committee.

OPINION CONCERNING SIGNING OF ORDERS, ETC.

The following was received:

City of Boston,
Law Department, February 9, 1920.

Hon. James Donovan,
City Clerk:

Dear Sir,—I have received your recent letter stating the following facts:

"Several orders were passed by the City Council on January 26, 1920, and were presented to the Mayor on January 27, 1920. On Monday, February 2, 1920, three new members of the City Council took office. The Council thereupon organized by the election of a president and resumed business."

and requesting my opinion whether the orders will be in force or become void upon the assumption that the Mayor takes no action by approving or vetoing them within fifteen days from the time they were presented to him.

If it was assumed that the Mayor had adopted a policy of approving within the municipal year or of vetoing within fifteen days from the date of presentation all orders passed by the City Council in the last days of its annual session, the contingency presented in your letter could not arise in any event.

However, I am of opinion that, during the term of office of the Mayor, the provisions of section 4 of chapter 486 of the Acts of 1909, relating to the method by which orders of the City Council are to take effect, control even though the period of time prescribed in the section extends beyond the session of the City Council which passed the order. Yet I realize it is impossible to speak with complete certainty on a matter of statutory construction until it has been passed upon by the full court.

In the present instance it is to be noted that the absolute power of veto of the Mayor was one of the new and positive changes of the charter amendments of 1909. Upon the passage of an order by the City Council, action by that body is completed and finished. An interpretation of the statute that an order of the City Council must be acted upon by the Mayor during the session of the City Council which originated the order would result in shortening the session by a period of fifteen days, as in no other way could an order be reviewed by the Mayor as provided in the charter amendments.

Therefore, I am of opinion that the orders in question are to be considered in force if they are not returned by the Mayor with his objections thereto in writing on or before February 11, 1920.

Very truly yours,

ARTHUR D. HILL,
Corporation Counsel.

Placed on file.

CONSTABLES' BONDS.

The City Treasurer, after having duly approved of the same, submitted the constables' bonds of Henry A. Barry and Thomas Sullivan.

Approved by the City Council.

HEARING ON TAX SALES.

A communication was received by the City Clerk from the United Improvement Association requesting that the City Council call a public hearing relative to hearing on tax sales.

REPORT OF TRIAL BOARD.

The following report was submitted:

Jan. 22, 1920.

To the School Committee:

At your meeting on January 5, 1920, several communications were received from the Schoolhouse Custodian reporting the failure on the part of certain janitors properly to heat the buildings under their charge on specified dates during the month of December, which were referred to the Trial Board for investigation, report and recommendation.

The Trial Board has held meetings in these cases on January 9, 14, 16 and 21, 1920, which were attended by each member of the Board, by the Schoolhouse Custodian, by Schoolhouse Commissioner Lomasney or by a representative of the Schoolhouse Commission, the janitor concerned, and, in two instances, by the masters of the districts in which the janitors are employed.

The Trial Board has now concluded its investigation of each case referred to it, and respectfully submits the following findings and recommendations:

John F. Tolan, janitor, John Marshall School-house, Dorchester.

Charged with failing properly to heat that building on December 18, necessitating the dismissal of the school for the morning session.

Mr. Tolan has been employed as a janitor since May 20, 1901, and has been in charge of this particular building for ten years. He is reported to be faithful and efficient. In cold weather he usually remains in his building all night. On December 17 he left his building at 9:30 o'clock P. M., and after consulting the weather reports, concluded that his fires were in proper condition to carry the building safely through the night. The temperature dropped unexpectedly during that night, and although Mr. Tolan arrived at the building at 5:30 o'clock A. M. he was unable to get up sufficient heat—the outside temperature being about eight de-

gress below zero—to avoid the necessity of dismissing the classes.

It is alleged that the radiation in this building, particularly in the assembly hall and in a long corridor, is insufficient in extreme cold weather, and reports to this effect have been made to the Schoolhouse Commission.

FINDING—That the janitor is guilty merely of an excusable error in judgment.

RECOMMENDATION—That the matter be placed on file, and that no penalty be imposed.

Charles F. Hartson, janitor, Phillips Brooks School-house, Dorchester.

Charged with failing properly to heat that building on December 18, necessitating the dismissal of all the classes during the morning session, and five classes during the afternoon session.

This is the third time within a year that Mr. Hartson has been before the Trial Board on similar charges. The first time he was reprimanded, and the second time a penalty of ten dollars (\$10) was imposed.

The Trial Board is informed that in cold weather it is a common matter for the building to be insufficiently heated, and great inconvenience and annoyance is thereby occasioned pupils and teachers. The janitor service of this building is, therefore, not satisfactory in this respect.

The janitor claims that he has been at a disadvantage in his inability to obtain and retain suitable assistance, and in some degree, especially during the time of the war, this was, undoubtedly, true.

Mr. Hartson has been employed as a school-house janitor since Mar. 1, 1897, and has been in charge of this particular building since Sept. 20, 1900. For many years he has rendered good and efficient service and is, therefore, entitled to much consideration on this account.

He is sixty-nine years of age, but will not be eligible for retirement on pension for two years. He is not now capable, in the opinion of the Trial Board, of rendering satisfactory service in the position he holds; he has failed to employ suitable assistance, which he needs, and the Trial Board has been unable to obtain from him satisfactory assurance that he will do so hereafter.

In the opinion of the Trial Board, Mr. Hartson fails fully to recognize the importance of his responsibilities, and to appreciate, notwithstanding repeated warnings, the probable result of his failure to render satisfactory service.

FINDING—That the janitor is guilty of the charge made by the Schoolhouse Custodian.

RECOMMENDATION—That Mr. Hartson be transferred to a much smaller building in the hope that such transfer will enable him to continue in the service without further cause for complaint.

The Trial Board makes this recommendation with much regret because of its appreciation of the character and length of service previously rendered by Mr. Hartson, and it is reluctant to disturb him in the position which he has held so many years. It is, however, mindful of the importance of a building, especially of this size, being in charge of a responsible janitor, capable not only of performing satisfactorily the regular duties of the position, but also of being able to meet any emergency that may arise affecting the safety of pupils and teachers. The Trial Board is unwilling to assume any further responsibility for the continuance of Mr. Hartson in his present position.

Patrick F. Powers, janitor, Prescott Group of Buildings, Charlestown.

Charged with failing properly to heat the buildings under his charge, making it necessary to dismiss a number of classes on December 10, 1919.

Mr. Powers for many years was janitor of the Hancock School-house, and was transferred to his present position on November 28, 1919.

The heating apparatus now under his charge is of a very different type from that with which he has been familiar and on assuming his present position he found that he was unable to operate the apparatus satisfactorily, and that it was necessary for him to do a good deal of experimenting with it before being able to do so.

The group of buildings consists of three, which are heated by a single plant, and another building heated by an independent plant, a part of which was not in operative condition when Mr. Powers took charge of it.

There appears to be no doubt that Mr. Powers gave his best efforts to make the heating apparatus operate successfully, and spared no pains to accomplish the desired result.

The Trial Board received a letter from the principal of the district highly commending Mr. Powers, and the manner in which he undertook his new duties.

Mr. Powers' previous record as a janitor is excellent and he is reported as having been faithful and efficient. He has sought assistance from the Schoolhouse Commission since the failure reported and has received such advice and suggestions from the representatives of that Commission that now enable him to operate the apparatus successfully.

FINDING—That the janitor is guilty as charged by the Schoolhouse Custodian.

RECOMMENDATION—That the matter be placed on file and that no penalty be imposed.

Peter A. Flynn, janitor, Sherwin School-house, Roxbury.

Charged with failing properly to heat the building, particularly on Monday mornings.

Mr. Flynn has been employed continuously as a school-house janitor since Oct. 24, 1909, with the exception of a period of two years when he was in military service. The Schoolhouse Custodian states that he has enjoyed a good record, is capable, but is perhaps occasionally somewhat neglectful of details, and needs occasionally to be urged to render such service as the standards require and he is capable of performing.

This is admittedly a building presenting some difficulties in the operation of its heating apparatus in cold weather. Some of the faults in the apparatus which have been complained of have been corrected, and there would now seem to be no reason why there should be future complaints of this character.

The reasons offered by the janitor in excuse for his failure to heat the building sufficiently are not, in the opinion of the Trial Board, fully justified.

The Trial Board believes that Mr. Flynn has been somewhat delinquent in the performance of his duties, but not very seriously, nor to an extent warranting the imposition of a substantial penalty.

FINDING—That the janitor is guilty of the charge made by the Schoolhouse Custodian.

RECOMMENDATION—That the janitor be reprimanded and cautioned

that he must, in the future, pay stricter attention to the duties of his position.

Alexander Nelson, janitor, Walnut Street School-house, Dorchester.

Charged with failing properly to heat that building on December 18, necessitating the dismissal of classes.

The Walnut Street School-house is difficult to heat in cold weather owing largely to its situation, and that part of the building in which the sanitary accommodations are situated, and where the freeze-up occurred, is very much exposed and requires close attention in cold weather to insure its being sufficiently heated to avoid damage.

Mr. Nelson has been in charge of the building on two different occasions for a total of five years, and has heretofore been able to avoid cause for complaint in this respect. The temperature of the day in question, December 18, was several degrees below zero, and a slight freeze-up occurred necessitating the dismissal of classes, although the actual damage did not amount to very much.

FINDING—That the janitor is guilty as charged by the Schoolhouse Custodian.

RECOMMENDATION—That the janitor be reprimanded and instructed to take greater pains in the future to avoid similar cause for complaint.

Respectfully submitted,

WILLIAM T. KEOUGH,

THORNTON D. APOLLONIO,

Members of the Trial Board.

The undersigned concurs in all of the foregoing except that part which relates to Charles F. Hartson, janitor of the Phillips Brooks School-house.

In regard to that case, he submits the following report, finding and recommendation:

The complaint against Mr. Hartson is "for failure to properly heat that building on December 18th, necessitating the dismissal of several classes."

It appears from the testimony offered that the outdoor temperature on December 18th was eight degrees below zero; also, that a very able fireman whom Mr. Hartson employs, was unable to work because of an injured ankle. The burden of a two-man job, therefore, fell on one man, Mr. Hartson.

Mr. Hartson asserts that he spent the entire night and the following day firing his boilers. This I believe to be true.

Despite his best efforts, he was unable to overcome the handicaps and obtain the required temperature.

In my opinion Mr. Hartson made a praiseworthy effort in the face of extraordinary conditions. I believe that the condition of the labor market during the war and since, coupled with the limited amount of money which a janitor had available for hiring suitable help, prior to the recent increase in salary, had much to do with the unsatisfactory services referred to by the other members of the Trial Board.

I would call your attention to the fact that there has been no dismissal of the Phillips Brooks School-house since December 18th, despite a period of extreme cold and trying weather.

In view of the facts in the case, I cannot find that Mr. Hartson is at fault and I recommend that he be absolved from blame and the charges dismissed.

Respectfully submitted,

PATRICK M. CONNOLLY,

Member of the Trial Board.

Placed on file, and the recommendations adopted with the exception of the majority and minority reports, findings and recommendations in the case of Charles F. Hartson, janitor of the Phillips Brooks School-house, which were laid over for further consideration.

ADJOURNMENT.

The Board adjourned at 5:46 o'clock P. M.

Attest:

Secretary.

REOPENING OF MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasias has been resumed at the various buildings throughout the city.

Extensive repairs have been necessary by reason of the occupancy by the State Guard for the various gymnasias of the department. The buildings have been thoroughly equipped and placed in a satisfactory condition throughout and the work will be resumed with all its equipment and facilities as formerly.

The following buildings have gymnasias and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.

Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.

Cabot Street Gymnasium and Swimming Pool.—Roxbury.

Vine Street Gymnasium.—Corner Vine and Dudley streets.

Dorchester Gymnasium.—Corner Columbia road and Bird streets.

Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.

Ward 5 Gymnasium.—Corner Tyler and Oak streets.

D Street Gymnasium.—South Boston.

North Bennet Street Gymnasium.—North End.

Paris Street Gymnasium.—East Boston.

Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasias where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasias.

Basketball is permitted in certain gymnasias on the part of those who participate in class work.

Æsthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls and at 7.30 for working girls.

Tuesday and Friday—High school boys from 2.30 to 5 p. m. Men from 7.30 to 9.30 p. m.

Saturday—Grammar school boys from 2 p. m. to 4 p. m. Working boys from 7.30 to 9 p. m.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR FURNISHING DOUBLE AND SINGLE TEAMS AND AUTO TRUCKS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for furnishing double and single teams and auto trucks in Districts Nos. 2 and 6-9, between February 25, 1920, and January 31, 1921, and giving bond therefor of a surety company approved by the Commissioner in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Furnishing Teams," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, February 20, 1920, with a certified check for three hundred dollars (\$300) for each district, or six hundred dollars (\$600) for both, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. The attention of all bidders is called to the fact that failure to bid on furnishing auto truck and chauffeur may lead to the rejection of the entire bid. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price bid on any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interests of the city so to do.

THOMAS F. SULLIVAN,
Commissioner of Public Works.
Boston, February 12, 1920. (Feb. 14.)

SCHOOL COMMITTEE.

PROPOSAL FOR STATIONERY FOR THE PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing and delivering at the supply room, stationery as per schedule. Only proposals obtained at the office of the Business Agent of the School Committee, Room 801, City Hall Annex, signed by the bidder and left before 12 o'clock m. on Thursday, February 25, 1920, at said office, with a certified check for \$50, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. Each proposal should be plainly marked "Proposal for Stationery." The bid must be in duplicate, the one with the check to be sent as above, the other filed with the City Auditor, City Hall, previous to the time named for opening bids. The successful bidder will be required to deposit a surety bond or a certified check for the sum of not less than 25 nor more than 30 per cent of the amount of the contract, payable to the City of Boston, which check shall become the property of the city unless the bidder carries out his agreement in accordance with the specifications. The School Committee reserves the right to reject any or all bids, or to accept such bid or part of bid as may be deemed best for the interests of the city.
